Dear David

Further to your meeting with Jaywick Forum I am pleased to confirm that all the groups present were impressed with the idea of improving empty properties within Jaywick. We are pleased that there is a possibility of giving a grant for match funding to raise the standard of these properties and can only see great benefit to the living conditions in what is a very deprived area with properties that are empty lowering the potential of the area.

We all felt this funding will enable people to improve the standard of properties that are available and increase the potential for investment from other sources as well.

Thank you once again for your presentation, knowledgeable response and obvious enthusiasm for the project. We are all aware that it may not come to fruition which would be a shame for the area as a whole.

Yours sincerely

Secretary
