

## Introduction

The Performance Dashboard details targets and projects have been developed from a number of strands.

The Corporate Plan 2010-2016 sets out the high-level ambition of Tendring District Council to improve the lives and opportunities for residents, visitors and businesses in the District encapsulated by the following overarching aim:

By 2016 Tendring will be a vibrant, healthy and attractive place to live work and visit.'

In order to offer guidance to Departments as to how they should target their work to deliver on the main aims of the Corporate Plan, the Cabinet has devised six Goals:

- 1. Affordable Excellence
- 2. Continue to improve public perception and reputation
- 3. Skills and Education: Help children and adults achieve their full potential
- 4. Address deprivation
- 5. Local housing for local people
- 6. Coastal opportunities and protection

The report is laid out by each of the Cabinet Goals and shows what Targets and Projects are being monitored in each section.

Each item has a progress indicator as follows:- Below Target:

On Target/Ongoing:

Above Target or completed:

Of the 73 Targets and Projects reported in this document, 68 (93.2%) are either on or above target, whilst 5 (6.8%) are below target. Where an indicator shows a target or project to be failing, an explanation of why and what is being done to rectify this is included in the notes section.
