

PLANNING COMMITTEE

2 JUNE 2011

REPORT OF THE TEMPORARY HEAD OF PLANNING

A.2 PLANNING APPEALS QUARTERLY REPORT

This report has been compiled to inform the Committee of appeals performance from 1st January 2011 to 31st March 2011. The performance in this quarter is compared to the performance in the last 2 years.

All appeals	1.4.09 to 31.3.10	1.4.10 to 31.3.11	1.1.11 to 31.3.11
Allowed	19 31.67%	22 34.38%	6 35.29%
Dismissed	41 68.33%	39 60.94%	11 64.71%
Split Decisions	0	3 4.68%	0
Committee Decisions			
Allowed	7 50%	7 58.33%	2 40%
Dismissed	7 50%	5 41.67%	3 60%

The Council's target on appeal performance is for allowed appeals not to exceed 35%. In past years this has been achieved. In the January to March 2011 period it was marginally exceeded. However, a 3 month period will show some discrepancies, when the statistic is an annual measurement.

Member's attention is drawn to the less successful rate on appeals that follow a committee decision.

To put these statistics in context the Government used to have a best value indicator for appeal performance. The indicator was that allowed appeals should not exceed 40%. As the statistics show the Council's overall appeal performance exceeds that national indicator.
