TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO: 18/01809/FUL

DATE REGISTERED: 6th November 2018

Proposed Development and Location of the Land:

**Replacement semi-detached dwellings and detached garages.
Broadfields Primrose Hill Wrabness Essex**

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY GRANT PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted, subject to the following conditions;

- 1 The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

Reason - To comply with the requirements of Section 91 of the Town and Country Planning Act 1990, as amended by the Planning and Compulsory Purchase Act 2004.

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans, drawing numbers 28-2018-01P, 28-2018-02PC, 28-2018-03P, 28-2018-04P, 28-2018-05PA, 28-2018-06PA and 28-2018-07PB.

Reason - For the avoidance of doubt and in the interests of proper planning.

- 3 Prior to the first occupation of the proposed dwelling, the proposed vehicular access shall be constructed to a width of 5.5m and shall be provided with an appropriate dropped kerb vehicular crossing of the footway/highway verge to the specifications of the Highway Authority.

Reason - To ensure that all vehicles using the private drive access do so in a controlled manner and to ensure that opposing vehicles may pass clear of the limits of the highway, in the interests of highway safety

- 4 No unbound materials shall be used in the surface treatment of the proposed vehicular access within 6 metres of the highway boundary.

Reason - To ensure that loose materials are not brought out onto the highway, in the interests of highway safety.

- 5 The existing access or any part of an access or dropped kerb rendered redundant or unnecessary by this development shall be suitably and permanently closed to the satisfaction of the Local Planning Authority, incorporating the re-instatement to full height of the highway verge/footway/kerbing to the specifications of the Highway Authority, immediately the proposed new accesses are brought into use.

Reason - To ensure the removal of and to preclude the creation of un-necessary points of traffic conflict in the highway and to prevent indiscriminate access and parking on the highway, in the interests of highway safety.

- 6 The development shall not be occupied until such time as the car parking and turning area, indicated on the approved plans, has been hard surfaced and sealed. The car parking area shall be retained in this form at all times and shall not be used for any purpose other than the parking of vehicles related to the use of the development thereafter.

Reason - To ensure that on-street parking of vehicles in the adjoining streets does not occur, in the interests of highway safety.

- 7 Prior to commencement of the development details showing the means to prevent the discharge of surface water from the development onto the highway shall be submitted to and approved in writing by the Local Planning Authority. The approved scheme shall be carried out in its entirety prior to the access becoming operational and shall be retained at all times.

Reason - To prevent hazards caused by water flowing onto the highway and to avoid the formation of ice on the highway in the interest of highway safety.

- 8 No development shall take place, including any ground works or works of demolition, until a Construction Method Statement (CMS) has been submitted to, and approved in writing by, the Local Planning Authority. The approved Statement shall be adhered to throughout the construction period. The Statement shall provide for:

- i. the parking of vehicles of site operatives and visitors
- ii. loading and unloading of plant and materials
- iii. storage of plant and materials used in constructing the development
- iv. wheel and under body washing facilities

Reason - To ensure that on-street parking of these vehicles in the adjoining streets does not occur, in the interests of highway safety.

- 9 Any new or proposed boundary hedge shall be planted a minimum of 1m back from the highway boundary and 1m behind any visibility splays which shall be maintained clear of the limits of the highway or visibility splays thereafter.

Reason - To ensure that the future outward growth of the hedge does not encroach upon the highway or interfere with the passage of users of the highway and to preserve the integrity of the highway, in the interests of highway safety.

- 10 No development hereby permitted shall commence until the specific requirements of paragraphs numbered 1 to 3 below have been satisfied. If unexpected contamination is found after development has commenced, no further development shall be carried out on that part of the site affected by the unexpected contamination until the requirements of paragraph 4 have been complied with in relation to such contamination.

1. Site Characterisation - An investigation and risk assessment, in addition to any

assessment provided within the planning application, shall be carried out in accordance with a scheme to assess the nature and extent of any contamination of the site. The investigation and risk assessment shall be undertaken by a competent person and a written report of the findings shall be submitted to and approved in writing by the Local Planning Authority. The report shall include:

- (i) a survey of the extent, scale and nature of contamination;
- (ii) an assessment of the potential risks to: human health, property (existing or proposed) including buildings, crops, livestock, pets, woodland and service lines and pipes, adjoining land, ground waters and surface waters, ecological systems, archaeological sites and ancient monuments; and
- (iii) an appraisal of options for remediation and a proposal with preferred option(s). This appraisal shall be conducted in accordance with the Environment Agency Model Procedures for the Management of Land Contamination (CLR 11).

2. Submission of Remediation Scheme - A detailed Remediation Scheme to ensure that the site is suitable for the intended use by removing unacceptable risks to human health, buildings and other property and the natural and historical environment shall be submitted to and approved in writing by the Local Planning Authority. The scheme shall include all works of remediation to be undertaken, remediation objectives and criteria, timetable of works and related site management procedures. The scheme shall ensure that the site will not qualify as contaminated land under Part 2A of the Environmental Protection Act 1990 in relation to the use of the land after remediation.

3. Implementation of Approved Remediation Scheme - The Remediation Scheme required under paragraph 2 above shall be carried out in accordance with its terms prior to the commencement of any works of construction on site unless otherwise agreed in writing by the Local Planning Authority. The Local Planning Authority shall be notified in writing a minimum of two weeks prior to commencement of the remediation scheme works of the date that the remediation works will commence. Following completion of the measures identified in such approved Remediation Scheme, a verification report to demonstrate the effectiveness of the remediation carried out shall be submitted to the Local Planning Authority.

4. Reporting of Unexpected Contamination - In the event that contamination is found which was not previously identified, it shall be reported in writing immediately to the Local Planning Authority. An investigation and risk assessment shall then be undertaken in accordance with the requirements of paragraph 1 above and, where remediation is necessary, a new Remediation Scheme shall be prepared in accordance with the requirements of paragraph 2 above and submitted to and approved in writing by the Local Planning Authority. Following completion of all necessary measures identified in such Remediation Scheme as may be approved, a verification report shall be submitted to and approved in writing by the Local Planning Authority in accordance with paragraph 3 above. In such circumstances, no further works of development shall be carried out to that part of the site until such time as the requirements of this paragraph have been satisfied.

Reason - To ensure that any risks (to future users of the land and neighbouring land and to controlled waters, property and ecological systems) arising from any land contamination are minimised and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors.

DATED: 19th December 2018

SIGNED:

Catherine Bicknell
Head of Planning

IMPORTANT INFORMATION :-

The local planning authority considers that the following policies and proposals in the development plan are relevant to the above decision:

Local Planning Guidance

Essex County Council Car Parking Standards - Design and Good Practice

In order to minimise potential nuisance to nearby existing residents caused by demolition/construction works, Environmental Protection ask that the following below is conditioned;

No vehicle connected with the works to arrive on site before 07:30 or leave after 19:00 (except in the case of emergency). Working hours to be restricted between 08:00 and 18:00 Mondays to Saturdays (finishing at 13:00 on Saturdays) with no working of any kind permitted on Sundays or any Public/Bank Holiday whilst construction works and alterations are being carried out.

- The use of barriers to mitigate the impact of noisy operations will be used where possible. This may include the retention of part(s) of the original buildings during the demolition process to act in this capacity.

- No materials produced as a result of the site development or clearance shall be burned on site.

- All reasonable steps, including damping down site roads, shall be taken to minimise dust and litter emissions from the site whilst works of construction and demolition are in progress.

- Adequate and suitable measures should be carried out for the minimisation of asbestos fibres during demolition, so as to prevent airborne fibres from affecting workers carrying out the work, and nearby properties. Only contractors licensed by the Health and Safety Executive should be employed. Any redundant materials removed from the site should be transported by a registered waste carrier and disposed of at an appropriate legal tipping site.

Positive and Proactive Statement

The Local Planning Authority has acted positively and proactively in determining this application by identifying matters of concern within the application (as originally submitted) and negotiating, with the Applicant, acceptable amendments to the proposal to address those concerns. As a result, the Local Planning Authority has been able to grant planning permission for an acceptable proposal, in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

Standard Informative 1: The Provisions of the Essex Act 1987, Section 13 (Access for the Fire Brigade) may apply to this Development and will be determined at Building Regulation Stage.

Standard Informative 2: You are reminded that the carrying out of building works requires approval under the Building Regulations in many cases as well as a grant of planning permission. If you are in doubt as to whether or not the work, the subject of this planning

permission, requires such approval, then you are invited to contact the Building Control section at Tendring District Council.

Standard Informative 3: If the development includes the construction of a new building on or at the boundary of 2 properties, work to an existing party wall or party structure or involve excavation near to and below the foundation level of neighbouring buildings, you are advised that the provisions of the Party Wall Act 1996 may apply to this development. An explanatory booklet concerning the implications of this Act is available online or from the District Council.

The attached notes explain the rights of appeal.

NOTES FOR GUIDANCE

WHEN PLANNING PERMISSION IS REFUSED OR GRANTED SUBJECT TO CONDITIONS

APPEALS TO THE SECRETARY OF STATE

- If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under Section 78 of the Town and Country Planning Act 1990.
- If you want to appeal, then you must do so within the set time frame as outlined below:
 - a. If this is a decision to refuse planning permission for a householder application, if you want to appeal against your local planning authority's decision then you must do so within **12 weeks** of the date of this notice. A **Householder Appeal Form** is required, available online at <https://www.gov.uk/planning-inspectorate>
 - b. If this is a decision to refuse planning permission for a minor commercial application, if you want to appeal against your local planning authority's decision then you must do so within **12 weeks** of the date of this notice. A **Planning Appeal Form** is required, available online at <https://www.gov.uk/planning-inspectorate>
 - c. If you want to appeal against your local planning authority's decision on a development which is not caught by a. and b. above then you must do so within **6 months** of the date of this notice. A **Planning Appeal Form** is required, available online <https://www.gov.uk/planning-inspectorate>
- Appeals must be made using the relevant form (as detailed above) which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN (Tel: 0303 444 5000) or online at <https://www.gov.uk/planning-inspectorate>. **Please note, only the applicant possesses the right of appeal.**
- The Secretary of State can allow a longer period for giving notice of an appeal, but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted permission for the proposed development or could not have granted it without the conditions imposed having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
- In practice, the Secretary of State does not refuse to consider appeals solely because the local planning authority based its decision on a direction given by the Secretary of State.

ENFORCEMENT

- If this is a decision on a planning application relating to the same or substantially the same land and development as is already the subject of an enforcement notice, if you want to appeal against your local planning authority's decision on your application, then you must do so within 28 days of the date of this notice.
- If an enforcement notice is served relating to the same or substantially the same land and development as in your application and if you want to appeal against your local planning authority's decision on your application, then you must do so within 28 days of the date of service of the enforcement notice, or within 6 months (12 weeks in the case of a householder or minor commercial appeal) of the date of this notice, whichever period expires earlier.
