4. Relevant Policies / Government Guidance

National Planning Practice Guidance

NPPF National Planning Policy Framework February 2019

Tendring District Local Plan 2007

EN22 Extensions or Alterations to a Listed Building

EN23 Development Within the Proximity of a Listed Building

Tendring District Local Plan 2013-2033 and Beyond Publication Draft (June 2017)

PPL9 Listed Buildings

Status of the Local Plan

The 'development plan' for Tendring is the 2007 'adopted' Local Plan. Paragraph 213 of the NPPF (2018) allows local planning authorities to give due weight to adopted albeit outdated policies according to their degree of consistency with the policies in the NPPF. Paragraph 48 of the NPPF also allows weight to be given to policies in emerging plans according to their stage of preparation, the extent to which there are unresolved objections to relevant policies and the degree of consistency with national policy. As of 16th June 2017, the emerging Local Plan for Tendring is the Tendring District Local Plan 2013-2033 and Beyond Publication Draft.

Section 1 of the Local Plan (which sets out the strategy for growth across North Essex including Tendring, Colchester and Braintree) was examined in January and May 2018 and the Inspector's initial findings were published in June 2018. They raise concerns, very specifically, about the three 'Garden Communities' proposed in north Essex along the A120 designed to deliver longer-term sustainable growth in the latter half of the plan period and beyond 2033. Further work is required to address the Inspector's concerns and the North Essex Authorities are considering how best to proceed.

With more work required to demonstrate the soundness of the Local Plan, its policies cannot yet carry the full weight of adopted policy, however they can carry some weight in the determination of planning applications. The examination of Section 2 of the Local Plan will progress once matters in relation to Section 1 have been resolved. Where emerging policies are particularly relevant to a planning application and can be given some weight in line with the principles set out in paragraph 48 of the NPPF, they will be considered and, where appropriate, referred to in decision notices. In general terms however, more weight will be given to policies in the NPPF and the adopted Local Plan.

5. Officer Appraisal (including Site Description and Proposal)

Site Description

The application site is Owl Cottage, 16 The Street, Ramsey, Harwich which is a terrace of Grade II Listed cottages. The application site is located within the development boundary of Ramsey and within a Conservation Area.

The listed description is as follows:

3 cottages, formerly 4. Comprising pair of early/mid-C17 cottages (Nos.16 & 17 which are now Owl Cottage, and No.15) plus C18 addition (No.14). Timber-framed, refronted in rendered brickwork with tiled roof having central and end brick chimney stacks both rebuilt on exterior. Nos. 15 and Owl Cottage are one storeyed with attics, 3 bays. Three gabled dormers and C20

casements below. Owl Cottage has cambered doorcase. Sawtooth eaves cornice. No. 14 has projecting gable and horned sash. Interior: no. 16 element has open fireplace with wooden bressumer, stop-chamfered spine beam and end wall with unusual serpentine bracing similar to examples in nearby Harwich.

This row of cottages forms an integral part of the architectural pattern of the village and the C17 cottages contain interesting serpentine bracing within their timber frame.

Proposal

The application seeks retrospective listed building consent for the demolition and rebuilding of a section of wall to the south west of the host dwelling. The wall measures 15 metres in length, 22 cm in depth with an overall height of 2 metres. The wall will be constructed from salvaged bricks, reclaimed bricks and Imperial Weathered soft red bricks with lime cement.

Appraisal

Section 66(1) of the Planning (Listed Buildings and Conservation Areas) Act imposes a statutory duty on the Local Planning Authority to have special regard to the desirability of preserving a listed building or its setting or any features of special architectural or historic interest.

Paragraph 196 of the Framework adds that where a development proposal will lead to less than substantial harm to the significance of a designated heritage asset, this harm should be weighed against the public benefits of the proposal, including securing its optimum viable use.

Paragraph 189 of the National Planning Policy Framework ("the Framework") requires applicants to describe the significance of any heritage assets affected. This requirement is reflected by saved policy EN23 of the Tendring District Local Plan (2007) and emerging Policy PPL9 of the Tendring District Council Local Plan 2013-2033 and Beyond Publication Draft (June 2017). Both these policies also confirm that development should be of a scale, design and use that respects the listed building and its setting.

The proposal will restore the boundary wall to its original state using reclaimed bricks from the rubble or matching reclaimed bricks. The bond and mortar will also match the existing.

The proposal is considered acceptable in listed building terms being a repair to an existing wall in a suitable and sympathetic manner.

The plans submitted show an extensive array of on-site photographs that show the existing brick plinth in a state of decay. The proposed works will see replacement works to the brick boundary wall. Given that the works are all with the intention of maintaining the buildings historic fabric, including the removal of decayed areas and re-use of materials where possible, and that the proposal is not in a good state of repair, the works will be beneficial to the buildings preservation. The works will result in a small visual enhancement to the curtilage listed building. The impact of the proposed works will be minor and beneficial, will assist in the long-term preservation of the asset, and will not detrimentally affect the building's special architectural and historic interest and significance.

Other Considerations

Ramsey and Parkeston Parish Council have not commented on this application.

No letters of representation have been received.

Conclusion

The scope and strategy of the proposed works are considered commensurate and appropriate to the building's value as a grade II designated heritage asset and in accordance with a sustainable approach to conservation, as outlined within the NPPF and local planning policy.

It is concluded that the works, therefore, accord with national and local planning policies and conservation and wider heritage principles. Approval of this proposal would enhance the listed building and represents compliance with the duty within the Town and Country Planning (Listed

Buildings and Conservation Areas) Act 1990, to protect and enhance the special character and setting of the listed building.

6. Recommendation

Approval - Listed Building Consent

7. Conditions / Reasons for Refusal

- 1 The development hereby permitted shall be carried out in accordance with the following approved plans and document: Site Location Plan Scale 1:1250, Block/Site Plan 1:200 on A4, Drg No. A0 SMH 2/o, Scale plan of garden wall section Scale 1:100 and Design, Access and Heritage Statement dated 29th October 2018

Reason - For the avoidance of doubt and in the interests of proper planning.

8. Informatives

Positive and Proactive Statement

The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.
