THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY GRANT PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted, subject to the following conditions;

- 1 The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

Reason - To comply with the requirements of Section 91 of the Town and Country Planning Act 1990, as amended by the Planning and Compulsory Purchase Act 2004.

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans: Drawing No JJCR-01 Revision E.

Reason - For the avoidance of doubt and in the interests of proper planning.

- 3 Prior to the commencement of any above ground works, full details/samples of the external facing and roofing materials to be used in the construction of the development shall be submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the approved details unless otherwise agreed in writing by the Local Planning Authority.

Reason - In the interests of visual amenity as insufficient information has been submitted within the application for full consideration of these details.

- 4 No unbound materials shall be used in the surface treatment of the proposed vehicular access within 6m of the highway boundary.

Reason - To ensure that loose materials are not brought out onto the highway, in the interests of highway safety.

- 5 Prior to the first occupation of the proposed dwellings, the proposed vehicular access shall be constructed to a width of 5.5m and shall be provided with an appropriate

dropped kerb vehicular crossing of the footway/highway verge to the specifications of the Highway Authority.

Reason - To ensure that all vehicles using the private drive access do so in a controlled manner and to ensure that opposing vehicles may pass clear of the limits of the highway, in the interests of highway safety.

- 6 Prior to the proposed access being brought into use, a 1.5m. x 1.5m. pedestrian visibility splay, relative to the highway boundary, shall be provided on both sides of that access and shall be retained and maintained free from obstruction clear to ground thereafter. These splays must not form part of the vehicular surface of the access.

Reason - To ensure adequate intervisibility between drivers of vehicles using the proposed access and pedestrians in the adjoining highway, in the interests of highway safety.

- 7 The existing access shown on the submitted plan shall be suitably and permanently closed in a manner to be previously approved in writing by the Local Planning Authority, incorporating the re-instatement to full height of the highway verge/footway/kerbing to the specifications of the Highway Authority, immediately the proposed new access is brought into use.

Reason - To ensure the removal of and to preclude the creation of un-necessary points of traffic conflict in the highway and to prevent indiscriminate access and parking on the highway, in the interests of highway safety.

- 8 The development shall not be occupied until such time as the car parking and turning area, has been provided in accord with the details shown in Drawing No JJCR-01 Revision E. The car parking area shall be retained in this form at all times and shall not be used for any purpose other than the parking of vehicles related to the use of the development thereafter.

Reason - To ensure that on-street parking of vehicles in the adjoining streets does not occur, in the interests of highway safety.

- 9 No development shall take place, including any ground works or works of demolition, until a Construction Method Statement (CMS) has been submitted to, and approved in writing by, the Local Planning Authority. The approved Statement shall be adhered to throughout the construction period. The Statement shall provide for:

- i. the parking of vehicles of site operatives and visitors
- ii. loading and unloading of plant and materials
- iii. storage of plant and materials used in constructing the development
- iv. wheel and under body washing facilities

Reason - To ensure that on-street parking of these vehicles in the adjoining streets does not occur, in the interests of highway safety.

- 10 All new hardstanding and parking areas shall be made of porous materials, or provision shall be made to direct run-off water from the hard surface to a permeable or porous area or surface within the site.

Reason - In the interests of sustainable development and to ensure that run-off water is avoided to minimise the risk of surface water flooding.

- 11 The removal of any vegetation for site access/site clearance shall only be carried out

outside of the bird nesting season (March to August inclusive).

Reason - To ensure the protection of birds potentially nesting on site.

- 12 Notwithstanding the provisions of Article 3, Schedule 2 Part 2 Class A of the Town and Country Planning (General Permitted Development) England Order 2015 (or any Order revoking and re-enacting that Order with or without modification), no provision of fences, walls or other enclosures, shall be erected on the boundaries of the site or any part of the site forward of the front elevation of the dwelling hereby approved except in accordance with details that shall previously be approved in writing by the Local Planning Authority.

Reason - To retain the open aspect of the locality in the interests of visual amenity.

- 13 Prior to the commencement of any above ground works, a scheme of hard and soft landscaping works for the site shall be submitted to and approved, in writing, by the Local Planning Authority. The scheme shall include any proposed changes in ground levels and also accurately identify spread, girth and species of all existing trees, shrubs and hedgerows on the site and indicate any to be retained, together with measures for their protection which shall comply with the recommendations set out in the British Standards Institute publication "BS 5837: 2012 Trees in relation to design, demolition and construction.

Reason - In order to enhance the visual appearance of the proposed dwellings.

- 14 All changes in ground levels, hard landscaping, planting, seeding or turfing shown on the approved landscaping details shall be carried out during the first planting and seeding season (October - March inclusive) following the commencement of the development or in such other phased arrangement as may be agreed in writing by the Local Planning Authority. Any trees or shrubs which, within a period of 5 years of being planted die, are removed or seriously damaged or seriously diseased shall be replaced in the next planting season with others of similar size and species, unless the Local Planning Authority agrees in writing to a variation of the previously approved details.

Reason - To ensure that the landscaping scheme is suitably implemented within an appropriate timescale.

- 15 Prior to the commencement of any above ground works, a plan indicating the positions, design, materials and type of boundary treatment to be erected shall be submitted to and approved by the Local Planning Authority. The approved boundary treatments shall be implemented before the dwellings hereby permitted are occupied.

Reason - In the interests of providing adequate privacy for occupiers of the development and neighbouring residential properties and in the interests of visual amenity.

NOTES FOR GUIDANCE

WHEN PLANNING PERMISSION IS REFUSED OR GRANTED SUBJECT TO CONDITIONS

APPEALS TO THE SECRETARY OF STATE

- If you want to appeal, then you must do so within the set time frame as outlined below:
 - a. A **Householder Appeal Form** is required, available online at <https://www.gov.uk/planning-inspectorate>

A **Planning Appeal Form** is required, available online at <https://www.gov.uk/planning-inspectorate>
 - c. If you want to appeal against your local planning authority's decision on a development which is not caught by a. and b. above then you must do so within **6 months** of the date of this notice.
