TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO: 19/00249/FUL

DATE REGISTERED: 15th February 2019

Proposed Development and Location of Land:

**Proposed erection of a two storey dwelling with a vehicular and pedestrian access from existing private driveway.
45 Manor Lane Dovercourt Harwich Essex**

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY REFUSE PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted for the following reason(s)

- Paragraph 189 of the National Planning Policy Framework (2019) states that in determining applications, local planning authorities should require an applicant to describe the significance of any heritage assets affected, including any contribution made by their setting. The level of detail should be proportionate to the assets' importance and no more than is sufficient to understand the potential impact of the proposal on their significance. As a minimum the relevant historic environment record should have been consulted and the heritage assets assessed using appropriate expertise where necessary.

Paragraph 193 of the National Planning Policy Framework (2019) states that when considering the impact of a proposed development on the significance of a designated heritage asset, great weight should be given to the asset's conservation.

Paragraph 196 of the National Planning Policy Framework (2019) states that where a development proposal will lead to less than substantial harm to the significance of a designated heritage asset, this harm should be weighed against the public benefits of the proposal including, where appropriate, securing its optimum viable use.

Policy EN23 of the Adopted Plan states that development within the proximity of a Listed Building that would adversely affect the setting of a Listed Building, including group value and long distance views, will not be permitted. The sentiments of this policy are carried forward within policy PPL9 of the Emerging Plan.

The site lies within the setting of a Grade II Listed Building, Capital Gardens Nursery, 45 Manor Lane, Dovercourt, located approximately 20 metres to the north of the dwellings' siting. A late nineteenth century Ordnance Survey demonstrates the listed building was orientated towards the south where the proposed development site is located. Whilst

there have been other examples of nearby development that have vastly changed the context of the buildings setting within the past 100 years, the application site is one of the last elements which contribute positively to the setting and significance of the designated heritage asset.

The proposal will therefore cause harm to the setting of the listed building by development in the last aspect of adjacent open land, and importantly land towards which the building is orientated. This will irreversibly, permanently and adversely alter the manner in which the listed building is experienced, understood and appreciated.

The proposed development therefore represents less than substantial harm to a designated heritage asset, while there are no significant public benefits of one additional dwelling that can outweigh this identified harm.

- 2 Under the Habitats Regulations, a development which is likely to have a significant effect or an adverse effect (alone or in combination) on a European designated site must provide mitigation or otherwise must satisfy the tests of demonstrating 'no alternatives' and 'reasons of overriding public interest'. There is no precedent for a residential development meeting those tests, which means that all residential development must provide mitigation. This residential development lies within the Zone of Influence of the Essex Coast Recreational disturbance Avoidance and Mitigation Strategy (RAMS). The residents of new housing are therefore considered likely to regularly visit relevant designated sites for recreation. In order to avoid a likely significant effect in terms of increased recreational disturbance to coastal European designated sites (Habitats sites) in particular the Stour and Orwell Ramsar and SPA site, mitigation measures will need to be in place prior to occupation.

A proportionate financial contribution has not been secured in accordance with the emerging Essex Coast Recreational disturbance Avoidance and Mitigation Strategy (RAMS) requirements. As submitted, there is no certainty that the development would not adversely affect the integrity of Habitats sites.

The proposal is therefore considered to be contrary to Policies EN6 and EN11a of the Saved Tendring District Local Plan 2007, Policy PPL4 of the emerging Tendring District Local Plan 2013-2033 and Beyond Publication Draft and Regulation 63 of the Conservation of Habitat and Species Regulations 2017.
