#### Environmental Informative

In order to minimise potential nuisance to nearby existing residents caused by construction works, Pollution and Environmental Control ask that the following below is conditioned;

No vehicle connected with the works to arrive on site before 07:30 or leave after 19:00 (except in the case of emergency). Working hours to be restricted between 08:00 and 18:00 Mondays to Saturdays (finishing at 13:00 on Saturdays) with no working of any kind permitted on Sundays or any Public/Bank Holidays

The use of barriers to mitigate the impact of noisy operations will be used where possible. No materials produced as a result of the site development or clearance shall be burned on site. All reasonable steps, including damping down site roads, shall be taken to minimise dust and litter emissions from the site whilst works of construction and demolition are in progress. The selection and use of machinery to operate on site, and working practices to be adopted will as a minimum requirement, be compliant with the standards laid out in British Standard 5228:2014.

Mobile plant to be resident on site during extended works shall be fitted with non-audible reversing alarms (subject to HSE agreement).

Prior to the commencement of any piling works which may be necessary, a full method statement shall be agreed in writing with the Planning Authority (in consultation with Pollution and Environmental Control). This will contain a rationale for the piling method chosen and details of the techniques to be employed which minimise noise and vibration to nearby residents. If there is a requirement to work outside of the recommended hours the applicant or contractor must submit a request in writing for approval by Pollution and Environmental Control prior to the commencement of works.

All waste arising from the ground clearance and construction processes to be recycled or removed from the site subject to agreement with the Local Planning Authority and other relevant agencies.

All bulk carrying vehicles accessing the site shall be suitably sheeted to prevent nuisance from dust in transit.

Standard Informative 1: The Provisions of the Essex Act 1987, Section 13 (Access for the Fire Brigade) may apply to this Development and will be determined at Building Regulation Stage.

Standard Informative 2: You are reminded that the carrying out of building works requires approval under the Building Regulations in many cases as well as a grant of planning permission. If you are in doubt as to whether or not the work, the subject of this planning permission, requires such approval, then you are invited to contact the Building Control section at Tendring District Council.

Standard Informative 3: If the development includes the construction of a new building on or at the boundary of 2 properties, work to an existing party wall or party structure or involve excavation near to and below the foundation level of neighbouring buildings, you are advised that the provisions of the Party Wall Act 1996 may apply to this development. An explanatory booklet concerning the implications of this Act is available online or from the District Council.
