Application: 19/00886/FUL **Town / Parish:** Little Clacton Parish Council

Applicant: Mr & Mrs Austin

Address: 1 Botany Mews Harwich Road Little Clacton

Development Proposed new build annexe in rear garden.

1. Town / Parish Council

Little Clacton Parish Council This is back land development. There is no connection to the existing dwelling therefore the land could be split into two individual properties. As a separate dwelling with all services and facilities we have concerns with regards to access and adequate parking. If approved we would ask for a condition to be attached that the building is not for residential use.

Little Clacton Parish Council recommend refusal of this planning application.

2. Consultation Responses

N/A

3. Planning History

Local Planning Guidance
Essex County Council Car Parking Standards - Design and Good Practice

Status of the Local Plan

The 'development plan' for Tendring is the 2007 'adopted' Local Plan. Paragraph 213 of the NPPF (2019) allows local planning authorities to give due weight to adopted albeit outdated policies according to their degree of consistency with the policies in the NPPF. Paragraph 48 of the NPPF also allows weight to be given to policies in emerging plans according to their stage of preparation,

the extent to which there are unresolved objections to relevant policies and the degree of consistency with national policy. As of 16th June 2017, the emerging Local Plan for Tendring is the Tendring District Local Plan 2013-2033 and Beyond Publication Draft.

Section 1 of the Local Plan (which sets out the strategy for growth across North Essex including Tendring, Colchester and Braintree) was examined in January and May 2018 and the Inspector's initial findings were published in June 2018. They raise concerns, very specifically, about the three 'Garden Communities' proposed in north Essex along the A120 designed to deliver longer-term sustainable growth in the latter half of the plan period and beyond 2033. Further work is required to address the Inspector's concerns and the North Essex Authorities are considering how best to proceed.

With more work required to demonstrate the soundness of the Local Plan, its policies cannot yet carry the full weight of adopted policy, however they can carry some weight in the determination of planning applications. The examination of Section 2 of the Local Plan will progress once matters in relation to Section 1 have been resolved. Where emerging policies are particularly relevant to a planning application and can be given some weight in line with the principles set out in paragraph 48 of the NPPF, they will be considered and, where appropriate, referred to in decision notices. In general terms however, more weight will be given to policies in the NPPF and the adopted Local Plan.

5. Officer Appraisal (including Site Description and Proposal)

Site Description

The application site is located to the north of Harwich Road, inside the development boundary of Little Clacton. It is accessed via an unmade access track, and serves a two storey dwelling, recently constructed under application reference 17/01863/FUL. The dwelling is constructed of a render and brick combination with a tiled roof. The front of the site is paved with parking in excess of 4 no. cars. A detached double garage is also located to the front (south) of the dwelling. The rear of the site consists of a large irregular shaped garden area with patio adjacent to the dwelling with the remainder being laid to lawn. Mature trees line the site boundary to the north and west of the site. A further dwelling approved under reference 17/01863/FUL is currently under construction to the south east of the site.

Proposal

The application proposes a detached 1 no. bedroom annexe in the rear garden. The annexe will measure 13.95m wide by 6.975m deep, with an eaves height of 2.6m and a ridge height of 5.15m. It will be constructed using Ibstock Bexhill Purple multi brickwork or similar, with Marley Eternit Acme Single Camber Plain Clay Roof Tiles in Farmhouse Brown colour or similar.

The original application submission was for a 2 bedroom annexe that was over 2m wider than that being determined. This original proposal was considered to be of an excessive scale that took on the form of a new dwelling. However, the reduction in size and the inclusion of a justification statement ensuring reliance on the main dwelling has now enabled the application to be viewed more acceptably.

Representations

Little Clacton Parish Council objected to the original application for the following reasons:

- Backland development.
- No connection to existing dwelling - land could be split to form separate dwelling raising concerns over access and parking.
- Condition to restrict separate residence requested.

(Officer Comments: The scale of development has been reduced and a statement provided to justify reliance on main dwelling. A condition will be imposed to ensure the annexe is ancillary to the main dwelling)
