THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY GRANT PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted, subject to the following conditions;

- 1 The development hereby permitted shall be begun before the expiration of three years from 03.07.2018.

Reason - To comply with the requirements of Section 91 of the Town and Country Planning Act 1990, as amended by the Planning and Compulsory Purchase Act 2004.

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans: amended DWG. NO. 1462/P01d.

Reason - For the avoidance of doubt and in the interests of proper planning.

- 3 Notwithstanding the provisions of Article 3, Schedule 2 Part 1 Classes A, B, C, D and E of the Town and Country Planning (General Permitted Development) (England) Order 2015 (or any Order revoking and re-enacting that Order with or without modification), there shall be no additions to the dwelling hereby approved nor its roof, nor shall any buildings, enclosures, swimming or other pool be erected except in accordance with drawings showing the design and siting of such additions and/or building(s) which shall previously have been submitted to and approved, in writing, by the local planning authority.

Reason - It is necessary for the local planning authority to be able to consider and control further development in order to ensure that adequate usable private amenity space is retained and to protect the amenity of neighbouring residents.

- 4 No unbound materials shall be used in the surface treatment of the proposed vehicular

access and parking area.

Reason - To ensure that loose materials are not brought out onto the highway, in the interests of highway safety.

- 5 All new driveways, parking areas and areas of hardstanding shall be made of porous materials, or provision shall be made to direct run-off water from the hard surface to a permeable or porous area or surface within the respective curtilage of that dwelling.

Reason - In the interests of sustainable development and to ensure that run-off water is avoided to minimise the risk of surface water flooding.

- 6 Any vehicular hardstanding shall have minimum dimensions of 2.9 metres x 5.5 metres for each individual parking space, retained in perpetuity.

Reason - To ensure adequate space for parking off the highway is provided in the interest of highway safety.

- 7 No development shall take place until there has been submitted to and approved, in writing, by the Local Planning Authority a scheme of hard and soft landscaping works for the site, which shall include details of the replacement street tree and any proposed changes in ground levels and also accurately identify spread, girth and species of all existing trees, shrubs and hedgerows on the site and indicate any to be retained, together with measures for their protection which shall comply with the recommendations set out in the British Standards Institute publication "BS 5837: 2012 - Trees in relation to design, demolition and construction."

Reason - To ensure that the development provides a satisfactory setting.

- 8 All changes in ground levels, hard landscaping, planting, seeding or turfing shown on the approved landscaping details shall be carried out during the first planting and seeding season (October - March inclusive) following the commencement of the development or in such other phased arrangement as may be agreed in writing by the Local Planning Authority. Any trees or shrubs which, within a period of 5 years of being planted die, are removed or seriously damaged or seriously diseased shall be replaced in the next planting season with others of similar size and species, unless the Local Planning Authority agrees in writing to a variation of the previously approved details.

Reason - To ensure satisfactory implementation of the approved landscaping scheme, so that the development provides a satisfactory setting.

- 9 No construction works or deliveries in connection with the development shall take place outside the hours of 0700 hours and 1900 hours Monday to Friday and 0800 hours and 1300 hours Saturdays, with the exception of any piling or other percussive works which shall not take place outside the hours of 0800 hours and 1700 hours Monday to Friday.

Reason - To protect the local amenity and reduce the likelihood of complaints of statutory nuisance.

- 10 The development shall not be occupied until such time as the car parking facilities indicated on Drawing Numbered 1492/P01d for both the new and donor dwellings have been hard surfaced and sealed. The car parking area shall be retained in this form at all times and shall not be used for any purpose other than the parking of vehicles related to the use of the development thereafter.

Reason - To ensure that on-street parking of vehicles in the adjoining streets does not

occur, in the interests of highway safety.

- 11 Prior to the first occupation of the proposed dwelling, a replacement street tree to be located on Fifth Avenue shall be provided. Details of the species, precise location, method of planting and its future maintenance shall be submitted concurrently with the hard and soft landscaping scheme and shall be approved in writing by the Local Planning Authority in consultation with the Highway Authority.

Reason - To preserve the fabric and integrity of the highway and in the interests of highway safety.

- 12 Prior to the occupation of the dwelling hereby approved, the proposed vehicular access onto Fifth Avenue shall be constructed to a width of 5.5m and shall be provided with an appropriate dropped kerb vehicular crossing of the footway/highway verge to the specifications of the Highway Authority.

Reason - To ensure that all vehicles using the private drive access do so in a controlled manner and to ensure that opposing vehicles may pass clear of the limits of the highway, in the interests of highway safety.
