TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO: 19/01271/OUT **DATE REGISTERED:** 22nd August 2019

Proposed Development and Location of Land:

**Proposed 3 dwellings (outline application with all matters reserved).
Land at Crockleford Stud Bromley Road Ardleigh Colchester**

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY REFUSE OUTLINE PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted, for the following reason(s)

- 1 Paragraph 8 of the National Planning Policy Framework 2019 (NPPF) sets out the overarching objectives for achieving sustainable development, one being the environmental objective which requires the planning system to contribute to protecting and enhancing our natural, built and historic environment. Furthermore, Paragraph 127 of the NPPF requires that development should respond to local character and history, and reflect the identity of local surroundings. It goes on to say that local distinctiveness should be promoted and reinforced. Saved Policy QL9 and EN1 of the Tendring District Local Plan (2007) and Policy SPL3 and PPL3 of the emerging Tendring District Local Plan 2013-2033 and Beyond Publication Draft (June 2017) seeks to ensure that development is appropriate in its locality and does not harm the appearance of the landscape.

Although the site could not be described as wholly isolated, due to the presence of dwellings to the west and east, the area is characterised by quite loose ribbon residential development. The application site is located within a clear break in built form within an expanse of openness extending over 300 metres from Greenways to the west and Greta Woods to the east with open agricultural fields opposite extending further. Although there can be no objection to the erection of 2 storey dwellings in this location due to the residential character directly to the west, the introduction of dwellings in this location are considered wholly out of character.

The development would represent an unacceptable incursion into the countryside being uncharacteristic of its surroundings. The development would be harmful to the character and appearance of the area failing to make a positive contribution to the quality of the local environment and failing to protect or enhance local character. The provision of 3 dwellings would make an immaterial contribution to the delivery of housing in the district. Furthermore, the development would set an undesirable precedent for harmful ribbon development further eroding the rural character of the Bromley Road. The harm to the character and appearance of the area would significantly and demonstrably outweigh this development's modest housing supply benefits.

- 2 Under the Habitats Regulations, a development which is likely to have a significant

effect or an adverse effect (alone or in combination) on a European designated site must provide mitigation or otherwise must satisfy the tests of demonstrating 'no alternatives' and 'reasons of overriding public interest'. There is no precedent for a residential development meeting those tests, which means that all residential development must provide mitigation. The contribution is secured by unilateral undertaking.

The application scheme proposes new dwellings on a site that lies within the Zone of Influence (Zol) being approximately 8800 metres from the Stour and Orwell Estuaries SPA and Ramsar. Since the development is for 3 dwellings only, the number of additional recreational visitors would be limited and the likely effects on the Stour and Orwell Estuaries from the proposed development alone may not be significant. However, new housing development within the Zol would be likely to increase the number of recreational visitors to the Stour and Orwell Estuaries; and, in combination with other developments it is likely that the proposal would have significant effects on the designated site. Mitigation measures must therefore be secured prior to occupation.

A proportionate financial contribution has not been secured in accordance with the emerging Essex Coast Recreational disturbance Avoidance and Mitigation Strategy (RAMS) requirements. As submitted, there is no certainty that the development would not adversely affect the integrity of Habitats sites.

The proposal is therefore considered to be contrary to Policies EN6 and EN11a of the Saved Tendring District Local Plan 2007, Policy PPL4 of the emerging Tendring District Local Plan 2013-2033 and Beyond Publication Draft and Regulation 63 of the Conservation of Habitat and Species Regulations 2017.
