Reason - To comply with the requirements of Section 92 of the Town and Country Planning Act 1990 as amended by the Planning and Compulsory Purchase Act 2004.

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans: 7219-1 and 7219-5 received 8th August 2019, 7219-2a and 7219-4b received 24th September 2019

Reason - For the avoidance of doubt and in the interests of proper planning.

- 3 Notwithstanding the provisions of Article 3, Schedule 2, Part 1 of the Town and Country Planning (General Permitted Development) Order 1995 (or any Order revoking and re-enacting that Order with or without modification), no first floor windows shall be inserted in the north or south elevations of the new dwelling except in accordance with details which shall previously have been submitted to and approved, in writing, by the Local Planning Authority.

Reason - In the interests of the amenities of the occupants of neighbouring property.

- 4 Prior to occupation of the new dwelling, the new vehicle access for the host dwelling, at its centre line shall be provided with a clear to ground visibility splay with dimensions of

2.4 metres by 45 metres in both directions, as measured from and along the nearside edge of the carriageway. Such vehicular visibility splays shall be provided before the vehicle access is first used by vehicular traffic and retained free of any obstruction at all times.

Reason - To provide adequate inter-visibility between vehicles using the road junction / access and those in the existing public highway in the interest of highway safety.

- 5 Prior to occupation of the new dwelling the vehicular access for donor dwelling shall be constructed at right angles to the highway boundary and to the existing carriageway. The width of the access at its junction with the highway shall not be more than 3.6 metres (4 low kerbs) and shall be provided with an appropriate dropped kerb vehicular crossing of the footway/highway verge.

Reason - To ensure that all vehicles using the private drive access do so in a controlled manner and to ensure that opposing vehicles may pass clear of the limits of the highway, in the interests of highway safety.

- 6 Prior to occupation of the new dwelling a vehicular turning facility, of a design to be approved in writing by the Local Planning Authority shall be constructed, surfaced and maintained free from obstruction within the site of the host dwelling at all times for that sole purpose.

Reason - To ensure that vehicles can enter and leave the highway in a forward gear in the interest of highway safety.

- 7 No unbound material shall be used in the surface treatment of either vehicular access within 6 metres of the highway boundary.

- 9 The new dwelling shall not be occupied until such time as the car parking area, indicated on the plans, has been hard surfaced and sealed. The car parking area shall be retained in this form at all times and shall not be used for any purpose other than the parking of vehicles related to the use of the dwelling thereafter.

Reason - To ensure that on-street parking of vehicles in the adjoining streets does not occur, in the interests of highway safety.

- 10 Areas within the curtilage of the site for the purpose of the reception and storage of building materials shall be identified clear of the highway.

Reason - To ensure that appropriate loading / unloading facilities are available to ensure that the highway/carriageway (delete as appropriate) is not obstructed during the construction period in the interest of highway safety.

- 11 Any new or proposed boundary hedging shall be planted a minimum of 1m back from the highway boundary and 1m behind any visibility splays which shall be maintained clear of the limits of the highway or visibility splays thereafter.

Reason - To ensure that the future outward growth of the hedge does not encroach upon the highway or interfere with the passage of users of the highway and to preserve the integrity of the highway, in the interests of highway safety.

- 12 The Cycle parking shall be provided in accordance with the EPOA Parking Standards. The approved facility shall be secure, convenient, covered and provided prior to first occupation and retained at all times.

Reason - To ensure appropriate cycle parking is provided in the interest of highway safety and amenity.

- 13 No development shall take place until there has been submitted to and approved, in writing, by the Local Planning Authority a scheme of both hard and soft landscaping works for the site, which shall accurately identify spread, girth and species of all existing trees, shrubs and hedgerows on the site and indicate any to be retained, together with measures for their protection which shall comply with the recommendations set out in the British Standards Institute publication "BS 5837: 1991 - Trees in Relation to Construction."

All work within or affecting the highway is to be laid out and constructed by prior arrangement with and to the requirements and specifications of the Highway Authority; all details shall be agreed before the commencement of works.
