

Questions pursuant to Council Procedure 10.1

The following questions have been received, on notice, from members of the Public:

Question One

From Mrs Marguerite Kramer to **Councillor Giles Watling, Portfolio Holder for Planning and Regeneration:**

“Bearing in mind the problems for residents associated with infill brownfield development sites in residential areas, such as excessive noise, dust, pollution, toxic dust from breeze block cutting, diesel fumes, over-looking from flats, and the potential strain on the local infra-structure: is it reasonable for Tendring District Council to approve such development, which may not be implemented in accordance with the national Construction Code of Practice and national legislation, thus causing harm to local residents, who lose their legal right to the peaceful enjoyment of their property, both during and sometimes after construction (where over-looking takes place)?”
