Application: 19/01496/OUT **Town / Parish:** Lawford Parish Council

Applicant: Mr Todd Horwood

Address: 56 Harwich Road Lawford Manningtree

Development: Proposed new dwelling.

1. Town / Parish Council

Lawford Parish Council Over development on Agricultural Land

2. Consultation Responses

ECC Highways Dept

The information that was submitted in association with the application has been fully considered by the Highway Authority.

The proposal is located within the existing 40-mph speed limit and will be located at the end of a private cul-de-sac utilising an existing vehicle access that currently serves two properties. The proposal retains adequate room and provision for off street parking and turning, for the proposed dwelling therefore:

From a highway and transportation perspective the impact of the proposal is acceptable to Highway Authority subject to the following mitigation and conditions:

1. Prior to occupation of the development a vehicular turning facility, of a design to be approved in writing by the Local Planning Authority shall be constructed, surfaced and maintained free from obstruction within the site at all times for that sole purpose.
Reason: To ensure that vehicles can enter and leave the highway in a forward gear in the interest of highway safety in accordance with policy DM1.
2. No unbound material shall be used in the surface treatment of the vehicular access/ driveway throughout.
Reason: To avoid displacement of loose material onto the highway in the interests of highway safety in accordance with policy DM1.
3. Prior to the occupation of any of the proposed dwelling, the proposed private drive shall be constructed to a minimum width of 5.5 metres for at least the first 6 metres from the existing private drive.
Reason: To ensure that vehicles can enter and leave the highway in a controlled manner and to ensure that opposing vehicles can pass clear of the limits of the highway, in the interests of highway safety in accordance with policy DM1
4. There shall be no discharge of surface water onto the

Highway.

Reason: To prevent hazards caused by water flowing onto the highway and to avoid the formation of ice on the highway in the interest of highway safety to ensure accordance with policy DM1.

5. All single garages should have a minimum internal measurement of 7m x 3m

Reason: To encourage the use of garages for their intended purpose and to discourage on-street parking, in the interests of highway safety and in accordance with Policy DM8.

The above conditions are to ensure that the proposal conforms to the relevant policies contained within the County Highway Authority's Development Management Policies, adopted as County Council Supplementary Guidance in February 2011.

Informative 1: All work within or affecting the highway is to be laid out and constructed by prior arrangement with and to the requirements and specifications of the Highway Authority; all details shall be agreed before the commencement of works.

The applicants should be advised to contact the Development Management Team by email at development.management@essexhighways.org or by post to:

SMO1 - Essex Highways
Colchester Highways Depot,
653 The Crescent,
Colchester
CO4 9YQ

The Highway Authority cannot accept any liability for costs associated with a developer's improvement. This includes design check safety audits, site supervision, commuted sums for maintenance and any potential claims under Part 1 and Part 2 of the Land Compensation Act 1973. To protect the Highway Authority against such compensation claims a cash deposit or bond may be required.

Status of the Local Plan

The 'development plan' for Tendring is the 2007 'adopted' Local Plan. Paragraph 213 of the NPPF (2019) allows local planning authorities to give due weight to adopted albeit outdated policies according to their degree of consistency with the policies in the NPPF. Paragraph 48 of the NPPF also allows weight to be given to policies in emerging plans according to their stage of preparation, the extent to which there are unresolved objections to relevant policies and the degree of consistency with national policy. As of 16th June 2017, the emerging Local Plan for Tendring is the Tendring District Local Plan 2013-2033 and Beyond Publication Draft.

Section 1 of the Local Plan (which sets out the strategy for growth across North Essex including Tendring, Colchester and Braintree) was examined in January and May 2018 and the Inspector's initial findings were published in June 2018. They raise concerns, very specifically, about the three 'Garden Communities' proposed in north Essex along the A120 designed to deliver longer-term sustainable growth in the latter half of the plan period and beyond 2033. Further work is required to address the Inspector's concerns and the North Essex Authorities are considering how best to proceed.

With more work required to demonstrate the soundness of the Local Plan, its policies cannot yet carry the full weight of adopted policy, however they can carry some weight in the determination of planning applications. The examination of Section 2 of the Local Plan will progress once matters in relation to Section 1 have been resolved. Where emerging policies are particularly relevant to a planning application and can be given some weight in line with the principles set out in paragraph 48 of the NPPF, they will be considered and, where appropriate, referred to in decision notices. In general terms however, more weight will be given to policies in the NPPF and the adopted Local Plan.

In relation to housing supply:

The NPPF requires Councils to boost significantly the supply of housing to meet objectively assessed future housing needs in full. In any one year, Councils must be able to identify five years' worth of deliverable housing land against their projected housing requirements (plus an appropriate buffer to ensure choice and competition in the market for land, account for any fluctuations in the market or to improve the prospect of achieving the planned supply). If this is not possible, or housing delivery over the previous three years has been substantially below (less than 75%) the housing requirement, paragraph 11 d) of the NPPF requires applications for housing development needing to be assessed on their merits, whether sites are allocated for development in the Local Plan or not. At the time of this decision, the supply of deliverable housing sites that the Council can demonstrate falls below 5 years and so the NPPF says that planning permission should be granted for development unless the adverse impacts of doing so would significantly and demonstrably outweigh the benefits, when assessed against the policies in the National Planning Policy Framework as a whole. Determining planning applications therefore entails weighing up the various material considerations. The housing land supply shortfall is relatively modest when calculated using the standard method prescribed by the NPPF. In addition, the actual need for housing was found to be much less than the figure produced by the standard method when tested at the recent Examination In Public of the Local plan. Therefore, the justification for reducing the weight attributed to Local Plan policies is reduced as is the weight to be given to the delivery of new housing to help with the deficit.

5. Officer Appraisal (including Site Description and Proposal)

Site Description

The application site relates to number 56 Harwich Road, Lawford. The site measures approximately 0.07 hectares and is located on the southern side of Harwich Road. The site is a corner plot which runs adjacent to Harwich Road and Tile Barn Lane.

Proposal

This application seeks outline planning permission for the erection of one dwelling to the east of number 56 Harwich Road.

This application is considering the access. Layout, scale, landscaping and appearance is therefore reserved for subsequent approval as part of a detailed application.

An indicative layout plan has been submitted with this application which demonstrates one detached dwelling to the east of number 56 Harwich Road.

Assessment

The main considerations for this application are;

- Principle of Development
- Layout, Scale, Character and Impact
- Residential Amenities
- Highway Safety and Parking
- Trees and Landscaping
- Financial Contributions - Open Space
- Habitat Regulations Assessment
- Other Considerations

Principle of development

The application site lies outside of a Settlement Development Boundary as defined within the Adopted Tendring Local Plan 2007 and the Emerging Tendring District Local Plan 2013-2033 and Beyond Publication Draft 2017.

The principle of development has been established through the planning appeal decision reference APP/P1560/W/18/3218683 dated 3rd May 2019. The appeal decision relates to number 43 Harwich Road, Lawford which is located approximately 516 metres away from this application site. The inspector explained within the appeal statement that 'the appeal site is roughly midway between the settlements of Ardleigh and Lawford, being around a mile or so to each and outside of their development boundaries. The EP says that Lawford is a 'Smaller Urban Settlement', partly due to relatively large range of local services'. The inspector explained that 'there are bus stops within 0.29 miles of the appeal site with services to Ardleigh and Lawford. This distance is not particularly far and accessible by footways along Harwich Road (A137) which is the principal road linking Ardleigh, Manningtree, Mistley and Lawford with Colchester. It is served by three bus routes with a frequent service in each direction each day, from early in the morning to late at night. Therefore, a bus journey to Lawford to utilise the large range of services there would be relatively straight-forward. I consider that sustainable travel other than by private car would be reasonably practicable in this case.

The inspector concluded that 'there would be no harm caused through the location of the proposed dwelling. The proposal, being situated outside defined settlement development boundaries would be in conflict with Saved Policy QL1 of the Tendring District Local Plan 2007 (LP) which sets out the spatial strategy for Tendring to 2011. However, this policy is several years beyond its defined period of implementation and out-of-date. There would also be no harm caused by reason of the proposal's location. Therefore, I give the proposal's conflict with this policy very limited weight'.

Therefore, given the above, the accessibility of services and facilities and the effect of development on the character of the countryside indicate that the site would provide an appropriate location for housing. There would be some intrinsic conflict with Saved Policy QL1 but this would not manifest itself into any harm in terms of its overall objectives or result in social, economic or environmental harm. The principle of residential development is therefore considered to be acceptable as established by the recent appeal decision.

- Layout, Scale, Character and Impact

Paragraphs 127 and 170 of the NPPF state that developments should add to the overall quality of the area, be visually attractive as a result of good architecture and be sympathetic to local character, including the surrounding built environment.

Saved Policies QL9, QL10 and QL11 of the adopted Tendring District Local Plan (2007) seek to ensure that all new development makes a positive contribution to the quality of the local environment and character, by ensuring that proposals are well designed, relate satisfactorily to their setting and are of a suitable scale, mass and form. These sentiments are carried forward within Policy SPL3 of the emerging Local Plan.

Whilst all matters are reserved for later consideration, an Indicative Block Plan has been provided to indicate how development could be achieved within the application site. The indicative plan shows that a detached dwelling with two parking spaces will be located, accessed off of Harwich Road.

The four bedroom dwelling indicates that it can accommodate in excess of 100 square metres of private amenity space in line with Policy HG9 of the Tendring District Local Plan 2007 and that sufficient private amenity space is retained for the host dwelling number 56 Harwich Road, Lawford.

It is therefore considered that a detailed design and layout could be provided at reserved matters stage which would preserve the character of the surrounding area and be acceptable in terms of visual impact.

- Residential Amenities

The NPPF, in paragraph 127 states that planning should always seek to secure a good standard of amenity for all existing and future occupants of land and buildings. In addition, Policy QL11 of the Tendring District Local Plan (2007) states that amongst other criteria, 'development will only be permitted if the development will not have a materially damaging impact on the privacy, daylight or other amenities of occupiers of nearby properties'. These sentiments are carried forward in Policy SPL3 of the Tendring District Local Plan 2013-2033 and Beyond Publication Draft (2017).

Paragraph 108 of the NPPF seeks to ensure that safe and suitable access to a development site can be achieved for all users. Saved Policy QL10 of the adopted Tendring District Local Plan 2007 states that planning permission will only be granted, if amongst other things, access to the site is practicable and the highway network will be able to safely accommodate the additional traffic the proposal will generate. These objectives are supported by emerging Policy SPL3 of the Tendring District Local Plan 2013-2033 and Beyond Publication Draft 2017.

Appearance and layout are reserved for later consideration. It is considered that the proposed dwelling could be accommodated on the site with no material loss of amenity in terms of loss of light, outlook or privacy. It is therefore considered that sufficient spacing between properties could be achieved to result in a development that would not harm the amenities of neighbours.

- Highway Safety and Parking

Paragraph 108 of the NPPF seeks to ensure that safe and suitable access to a development site can be achieved for all users. Saved Policy QL10 of the adopted Tendring District Local Plan 2007 states that planning permission will only be granted, if amongst other things, access to the site is practicable and the highway network will be able to safely accommodate the additional traffic the proposal will generate. These objectives are supported by emerging Policy SPL3 of the Tendring District Local Plan 2013-2033 and Beyond Publication Draft 2017.

Essex County Council Highways have been consulted on this application and have stated that the proposal is located within the existing 40-mph speed limit and will be located at the end of a private cul-de-sac utilising an existing vehicle access that currently serves two properties. The proposal retains adequate room and provision for off street parking and turning, for the proposed dwelling. The Highway Authority have no objections subject to conditions relating to; vehicular turning facility, no unbound materials, proposed private drive, no discharge of surface water and garage measurements. The condition relating to the garage measurements will not be imposed as the indicative block plan does not demonstrate a garage.

The Councils Parking Standards require that for dwellings with 2 or more bedrooms a minimum of 2 parking spaces are required. Parking Spaces should measure 5.5 metres by 2.9 metres and garages, if relied on to provide a parking space should measure 7 metres by 3 metres internally. Parking provision has been provided for the proposed and retained for the host dwelling and there are in line with Essex Parking Standards.

- Trees and Landscaping

Paragraph 170 of the National Planning Policy Framework (2019) states planning decisions should contribute to and enhance the natural and local environment by recognising the intrinsic character and beauty of the countryside, and should protect and enhance valued landscapes.

Policy EN1 of the Saved Local Plan states the quality of the district's landscape and its distinctive local character will be protected and, where possible, enhanced. Any development which would significantly harm landscape character or quality will not be permitted. The sentiments of this policy are carried forward within Emerging Local Plan Policy PPL3.

Landscaping will be secured at the reserved matters stage. There is scope for planting on site to help soften and enhance the appearance of the development which will be secured by condition when a detailed application is submitted.

- Financial Contributions - Open Space

Policy COM6 of the adopted Tendring District Local Plan 2007 states "For residential development below 1.5 hectares in size, developers shall contribute financially to meet the open space requirements of the development in proportion to the number and size of dwellings built".

No contribution is required in this instance.

- Habitat Regulations Assessment

Following Natural England's recent advice and the introduction of Zones of Influences around all European Designated Sites (i.e. Ramsar, Special Protection Areas and Special Area of Conservation). Within Zones of Influences (which the site falls within) Natural England are requesting financial contributions to mitigate against any recreational impact from new dwellings.

Under the Habitats Regulations, a development which is likely to have a significant effect or an adverse effect (alone or in combination) on a European designated site must provide mitigation or otherwise must satisfy the tests of demonstrating 'no alternatives' and 'reasons of overriding public interest'. There is no precedent for a residential development meeting those tests, which means that all residential development must provide mitigation.

The application scheme proposes a new dwelling on a site that lies within the Zone of Influence (Zol) being approximately 2.4km away from Stour and Orwell Estuaries RAMSAR and SPA.

New housing development within the Zol would be likely to increase the number of recreational visitors to the Stour and Orwell Estuary and in combination with other developments it is likely that the proposal would have significant effects on the designated site. Mitigation measures must therefore be secured prior to occupation.

A completed unilateral undertaking has been received to secure the financial contribution required to mitigate against any recreational impact from the new dwelling and to ensure that the development would not adversely affect the integrity of European Designated Sites in accordance with policies EN6 and EN11a of the Saved Tendring District Local Plan 2007, Policy PPL4 of the emerging Tendring District Local Plan 2013-2033 and Beyond Publication Draft and Regulation 63 of the Conservation of Habitat and Species Regulations 2017.

- Other Considerations

Lawford Parish Council have raised an objection to this application as the proposal is overdevelopment on agricultural land

In response to the Parish Councils concerns, the site is not considered to be overdevelopment, as the site meetings the policy requirements which have been addressed within the report.

No letters of representation have been received.

6. Recommendation

Approval - Outline

7. Conditions / Reasons for Refusal

- 1 Application for approval of the reserved matters shall be made to the Local Planning Authority before the expiration of three years from the date of this permission.

Reason - To comply with the requirements of Section 92 of the Town and Country Planning Act 1990.
- 2 No development shall be commenced until plans and particulars of "the reserved matters" referred to in the above conditions relating to the appearance, landscaping, layout and scale have been submitted to and approved, in writing, by the Local Planning Authority. The development shall be carried out in accordance with the approved details.

Reason - The application as submitted does not provide sufficient particulars for consideration of these details.
- 3 The development hereby permitted shall be begun before the expiration of 2 years from the date of approval of the last of the Reserved Matters to be approved.

Reason - To comply with the requirements of Section 92 of the Town and Country Planning Act 1990 as amended by the Planning and Compulsory Purchase Act 2004.
- 4 Prior to occupation of the development a vehicular turning facility, of a design to be approved in writing by the Local Planning Authority shall be constructed, surfaced and maintained free from obstruction within the site at all times for that sole purpose.

Reason: To ensure that vehicles can enter and leave the highway in a forward gear in the interest of highway safety
- 5 No unbound material shall be used in the surface treatment of the vehicular access/ driveway throughout.

Reason: To avoid displacement of loose material onto the highway in the interests of highway safety
- 6 Prior to the occupation of the proposed dwelling, the proposed private drive shall be constructed to a minimum width of 5.5 metres for at least the first 6 metres from the existing private drive.

Reason: To ensure that vehicles can enter and leave the highway in a controlled manner and to ensure that opposing vehicles can pass clear of the limits of the highway, in the interests of highway safety
- 7 There shall be no discharge of surface water onto the Highway.

Reason: To prevent hazards caused by water flowing onto the highway and to avoid the formation of ice on the highway in the interest of highway safety

8. Informatives

Positive and Proactive Statement

The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

Legal Agreement Informative - Recreational Impact Mitigation

This application is the subject of a legal agreement and this decision should only be read in conjunction with this agreement. The agreement addresses the following issues: mitigation against any recreational impact from residential developments in accordance with Regulation 63 of the Conservation of Habitat and Species Regulations 2017.

All work within or affecting the highway is to be laid out and constructed by prior arrangement with and to the requirements and specifications of the Highway Authority; all details shall be agreed before the commencement of works.

The applicants should be advised to contact the Development Management Team by email at development.management@essexhighways.org or by post to:

SMO1 - Essex Highways
Colchester Highways Depot,
653 The Crescent,
Colchester
CO4 9YQ

The Highway Authority cannot accept any liability for costs associated with a developer's improvement. This includes design check safety audits, site supervision, commuted sums for maintenance and any potential claims under Part 1 and Part 2 of the Land Compensation Act 1973. To protect the Highway Authority against such compensation claims a cash deposit or bond may be required.

Are there any letters to be sent to applicant / agent with the decision? If so please specify:	YES	NO
Are there any third parties to be informed of the decision? If so, please specify:	YES	NO
