

PLANNING COMMITTEE

17 December 2019

REPORT OF THE HEAD OF PLANNING

A.2 PLANNING APPLICATION – 19/00283/FUL – LAND EAST OF HALSTEAD ROAD KIRBY CROSS FRINTON ON SEA CO13 0LR

DO NOT SCALE

Reproduced from the Ordnance Survey mapping with the permission of the Controller of Her Majesty's Stationery Office © Crown Copyright. Unauthorised reproduction infringes Crown copyright and may lead to prosecution or civil proceedings.

Application:	19/00283/FUL	Town / Parish: Frinton & Walton Town Council
Applicant:	Miss Hannah Short - Linden Ltd	
Address:	Land East of Halstead Road Kirby Cross	
Development:	Development of 13 dwellings with Associated Landscaping and Infrastructure.	

1. Executive Summary

- 1.1 This application has been referred to Planning Committee at the request of Councillor Clifton due to concerns relating to; affordable housing provision, the design and street scene impact, poor layout and density, highway safety and parking.
- 1.2 This application site forms part of larger part of land stretching from Halstead Road to Buxton Avenue on the northern side of Kirby Cross.
- 1.3 Outline consent for the erection of up to 240 dwellings with a community hub including either a 40 bed space care home (Class C2) or a healthcare facility (Class D1) together with access from Halstead Road, Woburn Avenue and Buckfast Avenue; a parking area for up to 30 vehicles; green infrastructure provision including children's play area, kick-about area, footpaths, structural landscaping and biodiversity enhancement; a sustainable drainage system including detention basin and seales and other related infrastructure and services provision was granted at appeal on 6th September 2016. Phase 1 and 2 of the development have already been approved and are currently under construction. Phase 3 situated towards the south-west of the site, to the east of Phase 1 of the development was recently granted permission.
- 1.4 This land was shown as a community hub with either a 40 bedroom care home or a medical facility under the original Outline permission 15/01234/OUT. The applicants state there has been no interest in either use so are now proposing housing.
- 1.5 This application has been amended and now seeks full planning permission for 13 dwellings with associated landscaping and infrastructure.
- 1.6 The proposal includes a mix of traditional two storey, two and three bedroom houses, in compliance with the ridge height parameters as per the approved Outline Parameter Plan.
- 1.7 The scheme that forms this full application will provide 4 affordable homes (35%), comprising two two-bedroom and two three-bedroom houses.
- 1.8 Housing Mix:
 - 2 bed open market house x 5
 - 3 bed open market house x 4
 - 2 bed affordable house x 2
 - 3 bed affordable house x 2

- 1.9 In conclusion, the proposed development would not result in any harmful impact upon visual amenity or neighbouring amenities and provides additional housing and sufficient additional parking spaces to serve the proposed units.
- 1.10 A legal agreement is currently being prepared to account for a contribution towards the Essex Coast Recreational Disturbance Avoidance and Mitigation Strategy (RAMS).

Recommendation:

That the Head of Planning be authorised to grant planning permission for the development subject to:-

a) Within 6 (six) months of the date of the Committee's resolution to approve, the completion of a legal agreement under the provisions of section 106 of the Town and Country Planning Act 1990 dealing with the following matters (where relevant):

- **Financial Contribution towards RAMS**
- **Financial contribution towards Open Space**
- **Affordable housing contribution 4 dwellings**

b) Subject to the conditions stated in section 8.2.

c) That the Head of Planning be authorised to refuse planning permission in the event that such legal argument has not been completed within the period of 6 (six) months, as the requirements necessary to make the development acceptable in planning terms had not been secured through a S106 planning obligation.

Status of the Local Plan

The 'development plan' for Tendring is the 2007 'adopted' Local Plan. Paragraph 213 of the NPPF (2018) allows local planning authorities to give due weight to adopted albeit outdated policies according to their degree of consistency with the policies in the NPPF. Paragraph 48 of the NPPF also allows weight to be given to policies in emerging plans according to their stage of preparation, the extent to which there are unresolved objections to relevant policies and the degree of consistency with national policy. As of 16th June 2017, the emerging Local Plan for Tendring is the Tendring District Local Plan 2013-2033 and Beyond Publication Draft.

Section 1 of the Local Plan (which sets out the strategy for growth across North Essex including Tendring, Colchester and Braintree) was examined in January and May 2018 and the Inspector's initial findings were published in June 2018. They raise concerns, very specifically, about the three 'Garden Communities' proposed in north Essex along the A120 designed to deliver longer-term sustainable growth in the latter half of the plan period and beyond 2033. Further work is required to address the Inspector's concerns and the North Essex Authorities are considering how best to proceed.

With more work required to demonstrate the soundness of the Local Plan, its policies cannot yet carry the full weight of adopted policy, however they can carry some weight in the determination of planning applications. The examination of Section 2 of the Local Plan will progress once matters in relation to Section 1 have been resolved. Where emerging policies are particularly relevant to a planning application and can be given some weight in line with the principles set out in paragraph 48 of the NPPF, they will be considered and, where appropriate, referred to in decision notices. In general terms however, more weight will be given to policies in the NPPF and the adopted Local Plan.

In relation to housing supply:

The NPPF requires Councils to boost significantly the supply of housing to meet objectively assessed future housing needs in full. In any one year, Councils must be able to identify five years' worth of deliverable housing land against their projected housing requirements (plus an appropriate buffer to ensure choice and competition in the market for land, account for any fluctuations in the market or to improve the prospect of achieving the planned supply). If this is not possible, or housing delivery over the previous three years has been substantially below (less than 75%) the housing requirement, paragraph 11 d) of the NPPF requires applications for housing development needing to be assessed on their merits, whether sites are allocated for development in the Local Plan or not. At the time of this decision, the supply of deliverable housing sites that the Council can demonstrate falls below 5 years and so the NPPF says that planning permission should be granted for development unless the adverse impacts of doing so would significantly and demonstrably outweigh the benefits, when assessed against the policies in the National Planning Policy Framework as a whole. Determining planning applications therefore entails weighing up the various material considerations. The housing land supply shortfall is relatively modest when calculated using the standard method prescribed by the NPPF. In addition, the actual need for housing was found to be much less than the figure produced by the standard method when tested at the recent Examination in Public of the Local plan. Therefore, the justification for reducing the weight attributed to Local Plan policies is reduced as is the weight to be given to the delivery of new housing to help with the deficit.

3. Relevant Planning History

15/30107/PREAPP	Request for EIA screening opinion for residential development.		11.05.2015
15/30145/PREAPP	Erection of up to 270 dwellings and 40 bed care home, with primary access from Halstead Road and secondary access from Woburn Avenue and Buckfast Avenue, plus car parking for the school and associated open space and play area, SuDs and other infrastructure works.		23.07.2015
15/01234/OUT	Erection of up to 240 dwellings with a community hub including either a 40-bed space care home (Class C2) or a healthcare facility (Class D1) together with access from Halstead Road, Woburn Avenue and Buckfast Avenue; a parking area for up to 30 vehicles; green infrastructure provision including children's play area, kick-about area, footpaths, structural landscaping and biodiversity enhancements; a sustainable drainage system including detention basin and swales and	Refused	07.12.2015

	other related infrastructure and services provision.		
17/30172/PREAPP	240 proposed dwellings, following on from appeal approval 15/01234/OUT. Pre-application advice for DETAIL application.		11.08.2017

footways) and 11 (planning out crime) of 17/01895/DETAIL, in relation to Phase 1 only.

4. Consultations

Frinton and Walton Town Council

Provide the following comments;

State that assurances that these properties are affordable or part buy have not been met.

Recommend the application be refused.

Building Control and Access Officer
Environmental Health

Private road needs to be designed to support a fire fighting appliance.

In order to minimise potential nuisance to nearby existing residents caused by construction works, Pollution and Environmental Control ask that the following is conditioned; Prior to the commencement of any construction works, the applicant (or their contractors) shall submit a full method statement to, and receive written approval from, the Pollution and Environmental Control.

Noise Control

1) The use of barriers to mitigate the impact of noisy operations will be used where possible.

2) No vehicle connected with the works to arrive on site before 07:30 or leave after 19:00 (except in the case of emergency). Working hours to be restricted between 08:00 and 18:00 Monday to Saturday (finishing at 13:00 on Saturday) with no working of any kind permitted on Sundays or any Public/Bank Holidays.

3) The selection and use of machinery to operate on site, and working practices to be adopted will as a minimum requirement, be compliant with the standards laid out in British Standard 5228:2014.

4) Mobile plant to be resident on site during extended works shall be fitted with non-audible reversing alarms (subject to HSE agreement).

5) Prior to the commencement of any piling works which may be necessary, a full method statement shall be agreed in writing with the Planning Authority (in consultation with Pollution and Environmental Control). This will contain a rationale for the piling method chosen and details of the techniques to be employed which minimise noise and vibration to nearby residents.

6) If there is a requirement to work outside of the recommended hours the applicant or contractor must submit a request in writing for approval by Pollution and Environmental Control prior to the commencement of works. o Emission Control 1) All waste arising from the ground clearance and construction processes to be recycled or removed from the site subject to agreement with the Local Planning Authority and

other relevant agencies. 2) No materials produced as a result of the site development or clearance shall be burned on site. All reasonable steps, including damping down site roads, shall be taken to minimise dust and litter emissions from the site whilst works of construction and demolition are in progress. 3) All bulk carrying vehicles accessing the site shall be suitably sheeted to prevent nuisance from dust in transit.

Tree & Landscape Officer
There are no trees or other significant vegetation on the application site. The application is supported by a detailed soft landscaping plan that shows an adequate level of soft landscaping to soften and enhance the appearance of the completed development.

Anglian Water Services Ltd
The submitted surface water drainage information (Flood Risk Assessment/Drainage Strategy) and proposed method of surface water discharge does not relate to an Anglian Water owned asset. As such, it is outside of our jurisdiction and we are unable to provide comments on the suitability of the surface water discharge. The Local Planning Authority should seek the advice of the Lead Local Flood Authority or the Internal Drainage Board. The Environment Agency should be consulted if the drainage system directly or indirectly involves the discharge of water into a watercourse.

Should the proposed method of surface water management change to include interaction with Anglian Water operated assets, we would wish to be re-consulted to ensure that an effective surface water drainage strategy is prepared and implemented. A connection to the public surface water sewer may only be permitted once the requirements of the surface water hierarchy as detailed in Building Regulations Part H have been satisfied. This will include evidence of the percolation test logs and investigations in to discharging the flows to a watercourse proven to be unfeasible.

Essex County Council
Archaeology
The Archaeology team provide the following comments:

“The application relates to a proposed development which is situated on land that has been evaluated through archaeological trial trenching. No further fieldwork was required within the area of Phase 3 and there is no recommendation for any archaeological investigation for the above application.”

Essex Wildlife Trust
Natural England

No Comments.

It has been identified that this development falls within the ‘Zone of Influence’ (Zol) for one or more of the European designated sites scoped into the emerging Essex Coast Recreational disturbance Avoidance and Mitigation Strategy (RAMS); see our recent advice to your authority on this issue (our ref: 244199, dated 16th August 2018) for further information. In the context of your duty as competent authority under the provisions of the Habitats Regulations², it is anticipated that, without mitigation, new residential development in this area and of this scale is likely to have a significant effect on the sensitive interest features of these coastal European designated sites, through increased recreational pressure when considered ‘in combination’ with other plans and projects. The Essex Coast RAMS is a large-scale strategic project which involves a number of Essex authorities, including Tendring District Council, working together to mitigate the effects arising from new residential development. Once adopted, the RAMS will comprise a package of strategic measures to

address such effects, which will be costed and funded through developer contributions. We therefore advise that you consider, in line with our recent advice, whether this proposal falls within scope of the RAMS as 'relevant development'. Where it does, this scale of development would fall below that at which Natural England would offer bespoke advice on this issue. However, in such cases we advise that you must undertake a Habitats Regulations Assessment (HRA) to secure any necessary mitigation and record this decision within the planning documentation; you should not grant permission until such time as the HRA has been undertaken and the conclusions confirmed.

NHS East Essex CCG

Provide the following comments;

The CCG are not in a position to agree to the land option for a healthcare facility. Whilst we recognise that there is a need for additional clinical capacity in the area, there are a number of factors that need to be considered including affordability of revenue for a new build, capital fund contributions to build, workforce to run the facility and how a facility would fit in with the current policy and Primary Care Network Structure.

On this occasion I believe the best route would be not to agree to an offer of land, but to commit to the S106 mitigation in line with the section 106 signed agreement which is secured and I note that part payment of the agreement is available to spend now.

We continue to work very closely with the primary care providers in the area and the Frinton and Walton Parish council in order to ensure the appropriate provision of Healthcare services in the area.

Waste Management

Lead Local Flood Authority position Having reviewed the Flood Risk Assessment and the associated documents which accompanied the planning application, we do not object to the granting of planning permission based on the following:

- This site should be subject to the drainage conditions imposed on the wider drainage strategy
- Any questions raised within this response should be directed to the applicant and the response should be provided to the LLFA for further consideration. If you are minded to approve the application contrary to this advice, we request that you contact us to allow further discussion and/or representations from us.

Summary of Flood Risk Responsibilities for your Council We have not considered the following issues as part of this planning application as they are not within our direct remit; nevertheless these are all very important considerations for managing flood risk for this development, and determining the safety and acceptability of the proposal. Prior to deciding this application you should give due consideration to the issue(s) below. It may be that you need to consult relevant experts outside your planning team.

- Sequential Test in relation to fluvial flood risk;
- Safety of people (including the provision and adequacy of an emergency plan, temporary refuge and rescue or evacuation arrangements);
- Safety of the building;
- Flood recovery measures (including flood proofing and other building level resistance and resilience measures);
- Sustainability of the development.

In all circumstances where warning and emergency response is fundamental to managing flood risk, we advise local planning authorities to formally consider the emergency planning and rescue implications of new development in making their decisions.

Open Space and Play

There is currently a deficit of -14.12 hectares of equipped play in Frinton, Walton & Kirby. Any additional development in Kirby will increase demand on already stretched play areas. The nearest play area to the proposed development is Halstead Road, Kirby

approximately 0.2 miles from the proposed development. The site is well used by the local community and would struggle to cope with any additional usage. Recommendation Due to the significant lack of play facilities in the area it is felt that a contribution towards play is justified and relevant to the planning application. Additional play equipment will be installed in Halstead Road play area.

ECC Highways Dept

Essex County Council Highways have been consulted on the application and following receipt of amended plans raise no objection to the proposals subject to the imposition of the following conditions to cover the following:

- timings of internal road and footways;
- details of the estate roads and footways;
- provision and retention of car parking and turning areas;
- sizes of parking spaces and garages and provision of cycle parking in accordance with the Essex Parking Standards.

5. **Representations**

Sixty three letters of objection and a petition containing 213 signatures has been received which raise the following concerns;

- Exacerbate existing parking problems.
- Noise and fumes from increased traffic.
- Noise, disturbance, obstruction and fumes from construction traffic.
- Access for emergency and refuse vehicles will be worsened.
- No disabled parking bays.
- Detrimental to residential amenities.
- Overdevelopment of the site.
- Drains/Sewage would not cope with the demands of further flats.
- Existing garages too small.
- Leaseholders not notified of proposed development.
- Overlooking and harm to privacy.
- Too high and out of character.
- Loss of light.
- Access to new spaces blocked by existing garages and parked vehicles.
- Loss of property values.
- Existing amenities will not cope with the increase of housing in this area.
- Area cannot cope with the additional traffic
- Noise Pollution during construction
- Were assured by Linden Homes that there would be no homes built in this area and it would be reserved for open space.
- Lack of detail in regard to infrastructure and detrimental to the rural aspect of the locality.

The Parish Council have made the following comments on the application

- Assurances that these properties are affordable or part buy have not been met.

6. Assessment

6.1 The main considerations in this instance are;

- Site Context;
- Proposal;
- Principle of Residential Development;
- Affordable Housing;
- Design and Appearance;
- Landscaping;
- Layout;
- Scale;
- Highway Safety and Parking Provision;
- Impact on Residential Amenity;
- Financial Contribution – Recreational Impact; and,
- Financial Contribution – Open Space / Play Space;
- Other Issues.

Site Context

6.2. The application site forms part of larger part of land stretching from Halstead Road to Buxton Avenue on the northern side of Kirby Cross.

6.3. Outline consent for the erection of up to 240 dwellings with a community hub including either a 40 bed space care home (Class C2) or a healthcare facility (Class D1) together with access from Halstead Road, Woburn Avenue and Buckfast Avenue; a parking area for up to 30 vehicles; green infrastructure provision including children's play area, kick-about area, footpaths, structural landscaping and biodiversity enhancement; a sustainable drainage system including detention basin and seales and other related infrastructure and services provision was granted at appeal on 6th September 2016. Phase 1 and 2 of the development have already been approved and are currently under construction. Phase 3 situated towards the south-west of the site, to the east of Phase 1 of the development was recently granted permission.

6.4. The site consists of just under 0.36 hectares (ha) of generally level arable land north of the built-up area of Kirby Cross, a settlement west of the coastal towns of Frinton-on-Sea and Walton-on-the-Naze.

6.5. This land was shown as a community hub with either a 40 bedroom care home or a medical facility under the original Outline permission 15/01234/OUT. The applicants state there has been no interest in either use so are now proposing housing.

6.6. A S106 legal agreement was secured at outline planning permission stage requiring:

6.7. The provision of affordable housing, contributions towards education and healthcare, the provision and maintenance of public open space; and a residential travel information pack including bus vouchers.

Proposal

6.8. Linden Limited have stated in their submitted Planning Statement which accompanies this planning application that they have tested the care home/healthcare facility market and found no demand for such use for the site, as such they see an opportunity to provide additional housing on the site as an alternative.

6.9. This application therefore seeks full planning permission for 13 dwellings (Amended from 15) on the site (at land North of Barley Road, Kirby Cross) and includes a mix of traditional two storey, two and three bedroom houses, in compliance with the ridge height parameters as per the approved Outline parameter plan.

6.10. The following documents and amended plans have been submitted in support of the application;

27 Jun 2019	Drawing	P121 b Amended illustrative street scenes
27 Jun 2019	Drawing	P114 b Amended hardwick-mountford semi-detached proposed elevations
27 Jun 2019	Drawing	P113 b Amended hardwick-mountford semi-detached - proposed floor plans
27 Jun 2019	Drawing	P109 b Amended hardwick semi-detached - proposed elevations
27 Jun 2019	Drawing	P106 b Amended refuse strategy layout
27 Jun 2019	Drawing	P102 b Amended proposed block plan
27 Jun 2019	Drawing	P101 g Amended proposed site layout plan

27 Jun 2019	Drawing	18284/c102 a Amended coloured street scenes
27 Jun 2019	Other	Amended landscape drawing issue sheet
27 Jun 2019	Report	Amended planning statement
27 Jun 2019	Drawing	P103 b Amended building materials layout
27 Jun 2019	Report	Amended design and access statement
27 Jun 2019	Drawing	P105 b Amended surface materials layout
27 Jun 2019	Drawing	Lin22259-11 a Amended landscape proposals

Amended Habitat Regulation Assessment

Amended Planning Statement

Principle of Development

- 6.11. The principle of residential development on this site has been established by the granting of the outline application at appeal. To reflect this decision the site is now included within the Settlement Development Boundary in the Tendring District Local Plan (2013-2033) and Beyond Publication Draft (Emerging Plan)
- 6.12. With regards to the provision of the aforementioned care home and community hub, under the original Outline permission (15/01234/OUT) the Council cannot insist on its provision as they were not primary considerations in the proposal being acceptable. Furthermore the S106 legal agreement is worded so that if the medical facility is not built then the developer will have to pay a healthcare contribution of £389.67 per dwelling, payable to NHS England.
- 6.13. With regards to the local Clinical Commissioning Group, (CCGs) were created following the Health and Social Care Act in 2012, and replaced Primary Care Trusts on 1 April 2013.
- 6.14. They are clinically-led statutory NHS bodies responsible for the planning and commissioning of health care services for their local area. As of 1 April 2019 there are 191 CCGs in England. Commissioning is about getting the best possible health outcomes for the local population. This involves assessing local needs, deciding priorities and strategies, and then buying services on behalf of the population from providers such as hospitals, clinics, community health bodies, etc. It is an ongoing process. CCGs must constantly respond and adapt to changing local circumstances. They are responsible for the health of their entire population, and measured by how much they improve outcomes.
- 6.15. The CCG has responded that they raise no objection to the proposals and confirm that they are not in a position to agree to the land option for a healthcare facility.
- 6.16. They go on to state that whilst they recognise that there is a need for additional clinical capacity in the area, there are a number of factors that need to be considered including affordability of revenue for a new build, capital fund contributions to build, workforce to run the facility and how a facility would fit in with the current policy and Primary Care Network Structure.
- 6.17. As such they have declined to take up the option to provide a healthcare facility and have agreed to a commitment for a S106 mitigation in line with the section 106 signed agreement.
- 6.18. The applicants have also provided the council with written correspondence that they have marketed the site for 2 years without much success with regards to the care home and medical facility (Appendix A).

Affordable Housing

6.19. The wider development will provide 18 homes classified as affordable housing as per the S106 Agreement. There will be eight one-bedroom flats, six two-bedroom houses and four three-bedroom houses. These will be gifted to Tendring District Council and allocated to people on the housing waiting list. 9 of these affordable dwellings were proposed for the third phase of development with the balance to be provided for within Phase 4.

6.20. The scheme that forms this full application will provide 4 affordable homes (35%), comprising two two-bedroom and two three-bedroom houses.

- Housing Mix:
- 2 bed open market house x 5
- 3 bed open market house x 4
- 2 bed affordable house x 2
- 3 bed affordable house x 2
- Details of garden sizes, (drawing 18284 - P107B (Garden Size Layout))
- Fully policy compliant parking requirements, (drawing 18284 - P102B (Site Layout))
- Vehicular access from Barley Road
- Soft Landscaping for each individual plot

Design and Appearance

6.21. The detailed design of the dwellings is varied with different roof forms, and use of porches and window detailing which adds a somewhat traditional element to the design and provides visual interest.

6.22. The surrounding area comprises of a mixture of type and styles of dwellings, using a range of materials all fairly traditional in appearance, it is therefore considered that the design of the proposed dwellings are in keeping with the character of the area. The design and appearance is in keeping with previous approved Phases that have been granted reserved matters consent.

Landscaping

6.23. The land subject to this application does not contain any significant trees other than those on the southern boundary. The trees, hedgerows and hedges are associated with the adjacent residential area and do not merit formal legal protection. As part of the application detailed landscaping plans have been submitted; the soft landscaping proposals are comprehensive and sufficiently detailed to enhance the appearance of the development.

6.24. Whilst the location of boundary treatments have been provided no details of the type, height and design have been. However, this is an issue that can be dealt with by condition.

Layout

- 6.25. Each of the proposed dwellings, have their own private amenity space. Policy HG9 of the Saved Local Plan requires 50 sq.m for 1 bed dwellings; 75 sq.m for 2 bed dwellings and 100 sq.m for dwellings with 3 or more beds. For flats, the policy sets out a requirement for either: a minimum of 25 sq.m per flat provided communally; or a minimum of 50 sq.m private garden area for a ground floor flat or maisonette and a minimum balcony area of 5 sq.m for units above. All the dwellings are provided with garden areas which meet or exceed this standard.
- 6.26. All of the proposed dwellings address the street and create an active street frontage.
- 6.27. Parking is provided either to the front or sides of the dwellings, in appropriate locations throughout the site and therefore do not dominate the proposed development.
- 6.28. In conclusion there is no objection to the layout of the proposed development

Scale

- 6.29. Conditions imposed on the outline consent restricts development to predominately two storeys in height up to 10m with the northern part of the site being restricted to bungalows up to 7 metres in height. The proposed development complies with this condition and therefore the scale of the dwellings is considered acceptable.

Highway Safety/Parking

- 6.30. The proposed access was agreed at outline stage and therefore is not under consideration as part of this application. However, the internal layout is a matter for consideration as part of this application.
- 6.31. Essex County Council Highways have been consulted on the application and following receipt of amended plans raise no objection to the proposals subject to the imposition of the following conditions to cover the following:
- timings of internal road and footways;
 - details of the estate roads and footways;
 - provision and retention of car parking and turning areas;
 - sizes of parking spaces and garages and provision of cycle parking in accordance with the Essex Parking Standards.
- 6.32. Essex County Council Parking Standards state that for one bedroom dwellings 1 off-street parking space is provided and for dwellings with 2 or more bedrooms a minimum of 2 off-street parking spaces are provided. Furthermore, 0.25 space per dwelling should be provided for visitor parking. Each parking space should measure 5.5 metres by 2.9 metres and if a garage is to be relied on it should measure 7 metres by 3 metres internally. The plans show that the proposal provides parking in accordance with the adopted standards.

- 6.33. Provision for cycle storage has not been shown on the plans. However, the garages are of a sufficient size to provide cycle parking and all dwellings have space within the garden area for a shed. Therefore it is considered that adequate cycle parking can be provided and a condition is not considered necessary.
- 6.34. The proposal is therefore acceptable in terms of highway safety. As the plans show compliance with the Essex Parking Standards in relation to sizes of parking spaces and garages it is not necessary to impose conditions to cover this matter, as requested by the Highway Authority.

Impact on Residential Amenity

- 6.35. The Essex Design Guide states that 'with rear-facing habitable rooms, the rear faces of opposite houses approximately parallel and an intervening fence or other visual barrier which is above eye level from the potential vantage point, a minimum of 25 metres between the backs of houses may be acceptable'.
- 6.36. The closest residential property (Willow Farm) is a considerable distance from the proposed development and is unlikely to suffer loss of light, privacy or residential amenity as a result of the proposals.
- 6.37. The proposed dwellings are situated between 5 and 20 metres from the eastern boundary of the site. The distance between the rear elevations of the proposed Plots meets the guidance as set out in the Essex Design Guide.
- 6.38. The relationship between the proposed dwellings is also considered acceptable with adequate separation to provide good standards of privacy and light.

Financial Contribution – RAMS

- 6.39. Following Natural England's recent advice and the introduction of Zones of Influences around all European Designated Sites (i.e. Ramsar, Special Protection Areas and Special Area of Conservation); within Zones of Influences (which the site falls within) Natural England are requesting financial contributions to mitigate against any recreational impact from new dwellings.
- 6.40. Legal advice has been sought in relation to the Essex Coast Recreational disturbance Avoidance and Mitigation Strategy (RAMS) which supports the view that Tendring District Council can seek financial contributions in accordance with the Essex Coast Recreational disturbance Avoidance and Mitigation Strategy (RAMS). A Habitat Regulations Assessment has therefore been undertaken to confirm that the mitigation will be a proportionate financial contribution as recommended by Natural England. It is therefore considered that this contribution is sufficient to mitigate against any adverse impact the proposal may have on European Designated Sites.

6.41. A unilateral undertaking is currently being prepared to secure this legal obligation and to ensure that the development would not adversely affect the integrity of European Designated Sites in accordance with policies EN6 and EN11a of the Saved Tendring District Local Plan 2007, Policy PPL4 of the emerging Tendring District Local Plan 2013-2033 and Beyond Publication Draft and Regulation 63 of the Conservation of Habitat and Species Regulations 2017.

Open Space Contribution

6.42. Policy COM6 in the Tendring District Local Plan 2007(TDLP) seeks open space provision or a contribution towards it, from all residential development which generates additional demand for open space sport and recreation where there is a proven need.

6.43. Whilst demand resulting from 1 dwelling is not significant in itself, the cumulative effect of many single units (or small sites) soon become significant in itself, the cumulative effect of many single units (or small sites) soon become significant. Therefore a contribution towards provision is reasonable to ensure that open space, sport and recreation provision is equitable.

6.44. The open Space Officer has stated that there is currently a deficit of -14.12 hectares of equipped play in Frinton, Walton & Kirby. And confirmed that any additional development in Kirby will increase demand on already stretched play areas.

6.45. The nearest play area to the proposed development is approximately 0.2 miles from the proposed development. The site is well used by the local community and would struggle to cope with any additional usage.

6.46. It is recommended that due to the significant lack of play facilities in the area it is felt that a contribution towards play is justified and relevant to the planning application. Additional play equipment will be installed in Halstead Road play area

6.47. A contribution is therefore sought of £11,830 for the 2 bed units and £13,518 for the 3 bed units.

Other issues

6.48. None

7 Conclusion

7.1. In conclusion, the proposed development would not result in any harmful impact upon visual amenity or neighbouring amenities and provides a site layout and sufficient additional parking spaces to serve the proposed units.

8 Recommendation

- 8.1. The Planning Committee is recommended to grant planning permission subject to the following conditions and informatives and the prior completion of a section106 legal agreement with the agreed Heads of Terms, as set out in the table below:

CATEGORY	TERMS
Financial contribution towards RAMS	£122.30 per dwelling
Financial contribution towards Open Space	£11,830 for the 2 bed units £13,518 for the 3 bed units
Affordable housing contribution	4 dwellings

- 8.2. As established through the granting of outline application 15/01234/OUT at appeal, the principle of residential development on this site is acceptable.
- 8.3. The details design, layout, landscaping and scale are considered acceptable. The proposal would result in no significant material harm to residential amenity or highway safety and the application is recommended for approval.

Conditions

- 1) The development hereby permitted shall be carried out in accordance with the following approved Drawing Nos:

Reason - For the avoidance of doubt and in the interests of proper planning.

- 2) All changes in ground levels, hard landscaping, planting, seeding or turfing shown on the approved landscaping details shall be carried out during the first planting and seeding season (October - March inclusive) following the commencement of the development or in such other phased arrangement as may be agreed in writing by the Local Planning Authority. Any trees or shrubs which, within a period of 5 years of being planted die, are removed or seriously damaged or seriously diseased shall be replaced in the next planting season with others of similar size and species, unless the Local Planning Authority agrees in writing to a variation of the previously approved details.

Reason - In the interests of visual amenity and the character of the area.

- 3) Prior to the first occupation of any of the proposed development hereby permitted the internal road and footway layout as shown on the approved plans shall be provided.

Reason - To ensure that vehicles using the site access do so in a controlled manner, in the interests of highway safety.

- 4) Prior to the commencement of above ground development, details of the estate roads and footways (including layout, levels, gradients, surfacing and means of surface water drainage) shall be submitted to and approved in writing by the

Local Planning Authority. The development shall be carried out in accordance with the approved details.

Reason - To ensure that roads and footways are constructed to an acceptable standard, in the interests of highway safety.

- 5) The development shall not be occupied until such time as the car parking and turning areas as shown on the approved plans have been provided. These facilities shall be retained in this form at all times and shall not be used for any purpose other than the parking and turning of vehicles related to the use of the development thereafter.

Reason - To ensure that on-street parking of vehicles in the adjoining streets does not occur, in the interests of highway safety.

- 6) No development shall take place until precise details of the provision, siting, design and materials of screen walls and fences have been submitted to and approved in writing by the Local Planning Authority. The approved screen walls and fences shall be erected prior to the dwellings to which they relate being first occupied and thereafter be retained in the approved form.

Reason - To protect the amenities and privacy of occupiers of the adjoining property.

8.4. Informatives

Positive and Proactive Statement

The Local Planning Authority has acted positively and proactively in determining this application by identifying matters of concern within the application (as originally submitted) and negotiating, with the Applicant, acceptable amendments to the proposal to address those concerns. As a result, the Local Planning Authority has been able to grant planning permission for an acceptable proposal, in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

Legal Agreement Informative - Recreational Impact Mitigation

This application is the subject of a legal agreement and this decision should only be read in conjunction with this agreement. The agreement addresses the following issues: mitigation against any recreational impact from residential developments in accordance with Regulation 63 of the Conservation of Habitat and Species Regulations 2017.

Highways Informatives

Informative 1: On the completion of the Development, all roads, footways/paths, cycle ways, covers, gratings, fences, barriers, grass verges, trees, and any other street furniture within the Site and in the area it covers and any neighbouring areas affected by it, must be left in a fully functional repaired/renovated state to a standard accepted by the appropriate statutory authority.

Informative 2: All work within or affecting the highway is to be laid out and constructed by prior arrangement with and to the requirements and specifications of the Highway Authority; all details shall be agreed before the commencement of works.

The applicants should be advised to contact the Development Management Team by email at development.management@essexhighways.org or by post to:

SMO1 – Essex Highways
Colchester Highways Depot,
653 The Crescent,
Colchester
CO4 9YQ

The Highway Authority cannot accept any liability for costs associated with a developer's improvement. This includes design check safety audits, site supervision, commuted sums for maintenance and any potential claims under Part 1 and Part 2 of the Land Compensation Act 1973. To protect the Highway Authority against such compensation claims a cash deposit or bond may be required.

Building Regulations Informative

The designer should ensure that the means of escape meet BS5588-1:1990.

9 Additional Considerations

Public Sector Equality Duty (PSED)

- 9.1. In making your decision you must have regard to the PSED under section 149 of the Equality Act 2010 (as amended). This means that the Council must have due regard to the need in discharging its functions to:
- 9.2. A. Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act;
- 9.3. B. Advance equality of opportunity between people who share a protected characteristic and those who do not. This may include removing or minimising disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic; taking steps to meet the special needs of those with a protected characteristic; encouraging participation in public life (or other areas where they are underrepresented) of people with a protected characteristic(s); and
- 9.4. C. Foster good relations between people who share a protected characteristic and those who do not, including tackling prejudice and promoting understanding.
- 9.5. The protected characteristics are age, disability, gender reassignment, pregnancy and maternity, being married or in a civil partnership, race including colour, nationality and ethnic or national origin, religion or belief, sex and sexual orientation.
- 9.6. The PSED must be considered as a relevant factor in making this decision but does not impose a duty to achieve the outcomes in section 149 and section 149 is only one factor that needs to be considered, and may be balanced against other relevant factors.

- 9.7. It is considered that the recommendation to grant permission in this case would not have a disproportionately adverse impact on a protected characteristic.

Human Rights

- 9.8. In making your decision, you should be aware of and take into account any implications that may arise from the Human Rights Act 1998 (as amended). Under the Act, it is unlawful for a public authority such as the Tendring District Council to act in a manner that is incompatible with the European Convention on Human Rights.
- 9.9. You are referred specifically to Article 8 (right to respect for private and family life), Article 1 of the First Protocol (protection of property) and Article 14 (right to freedom from discrimination).
- 9.10. It is not considered that the recommendation to grant permission in this case interferes with local residents' right to respect for their private and family life, home and correspondence or freedom from discrimination except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general interest and the recommendation to grant permission is considered to be a proportionate response to the submitted application based on the considerations set out in this report.

Finance Implications

- 9.11. Local finance considerations are a matter to which local planning authorities are to have regard in determining planning applications, as far as they are material to the application.
- 9.12. The New Homes Bonus (NHB) is one local finance consideration capable of being a material consideration to which the weight given shall be determined by the decision maker. The NHB is a payment to local authorities to match the Council Tax of net new dwellings built, paid by Central Government over six consecutive years. In this instance, it is not considered to have any significant weight attached to it that would outweigh the other considerations.
