#### TOWN AND COUNTRY PLANNING ACT 1990

**APPLICATION NO:** 19/01150/FUL

**DATE REGISTERED:** 1st August 2019

Proposed Development and Location of Land:

**Retention of porch to front elevation.  
Grove Cottage Bentley Road Little Bromley Manningtree**

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY REFUSE PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted for the following reason(s)

- 1 The National Planning Policy Framework 2019 attaches great importance to the design of the built environment and confirms good design is a key aspect of sustainable development, is indivisible from good planning, and should contribute positively to making places better for people. It is important to plan positively for the achievement of high quality and inclusive design for all development, including individual buildings. Permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions.

The adopted Tendring District Local Plan 2007 Saved Policies QL9, QL10 and QL11 seek to ensure that all new development makes a positive contribution to the quality of the local environment and character, by ensuring that proposals are well designed, relate satisfactorily to their setting and are of a suitable scale, mass and form. These sentiments are carried forward in Policy SPL3 of the emerging Local Plan Publication Draft 2017.

The porch addition represents poor design by reason of cluttering and interrupting the form of the original simple facade; contrary to the aforementioned policies.

- 2 Paragraph 192 of the NPPF requires the Local Planning Authority, when determining applications for development, to take account of the desirability of sustaining and enhancing the significance of heritage assets, the positive contribution that conservation of heritage assets can make to sustainable communities and the desirability of new development making a positive contribution to local character and distinctiveness. When considering the impact of a proposed development on the significance of a designated heritage asset, great weight should be given to the asset's conservation (and the more important the asset, the greater the weight should be). This is irrespective of whether any potential harm amounts to substantial harm, total loss or less than substantial harm to its

significance.

Paragraph 196 of the NPPF requires that, where a development proposal will lead to less than substantial harm to the significance of a designated heritage asset, this harm should be weighed against the public benefits of the proposal including, where appropriate, securing its optimum viable use.

The adopted Tendring District Local Plan 2007 Saved Policy EN22 states that development involving proposals to extend or alter a Listed Building will only be permitted where it would not result in the damage or loss of features of special architectural or historic interest and the special character and appearance or setting of the building would be preserved or enhanced. These sentiments are carried forward in Policy PPL9 of the emerging Local Plan Publication Draft 2017.

The porch addition, by reason of cluttering and interrupting the form of the original simple façade detracts from the architectural interest and aesthetic value of the composition. There are no public benefits to outweigh this harm, contrary to the aforementioned policies.

#### Positive and Proactive Statement

The Local Planning Authority has acted positively and proactively in determining this application by identifying matters of concern with the proposal and discussing those with the Applicant. However, the issues are so fundamental to the proposal that it has not been possible to negotiate a satisfactory way forward and due to the harm which has been clearly identified within the reason(s) for the refusal, approval has not been possible.

The applicant is advised that consent does not exist for the aerial-mast. The structure is unsightly, as a result of its excessive height and causes actual harm to both the significance and the setting of this Listed Building.

**The attached notes explain the rights of appeal.**
