TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO: 19/01717/FUL

DATE REGISTERED: 11th November 2019

Proposed Development and Location of Land:

**New detached dwelling and double garage.
3 Kenilworth Cottages Rectory Road Weeley Heath Clacton On Sea**

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY REFUSE PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted for the following reason(s)

- 1 The application site lies outside of a Settlement Development Boundary as defined within the Adopted Tendring Local Plan 2007 and the Emerging Tendring District Local Plan 2013-2033 and Beyond Publication Draft 2017.

The National Planning Policy Framework 2019 (NPPF) requires Councils to boost significantly the supply of housing to meet objectively assessed future housing needs in full. In any one year, Councils must be able to identify five years' worth of deliverable housing land against their projected housing requirements (plus an appropriate buffer to ensure choice and competition in the market for land, account for any fluctuations in the market or to improve the prospect of achieving the planned supply). If this is not possible, or housing delivery over the previous three years has been substantially below (less than 75%) the housing requirement, paragraph 11 d) of the NPPF requires applications for housing development needing to be assessed on their merits, whether sites are allocated for development in the Local Plan or not.

At the time of this report, the supply of deliverable housing sites that the Council can demonstrate falls below 5 years and so the NPPF says that planning permission should be granted for development unless the adverse impacts of doing so would significantly and demonstrably outweigh the benefits, when assessed against the policies in the National Planning Policy Framework as a whole. Determining planning applications therefore entails weighing up the various material considerations. The housing land supply shortfall is relatively modest when calculated using the standard method prescribed by the NPPF. In addition, the actual need for housing was found to be much less than the figure produced by the standard method when tested at the recent Examination in Public of the Local plan. There are therefore significant doubts about the validity or extent of any housing supply 'deficit', albeit the tilted balance applies. This

minimises the reduction in weight to conflict with Policy QL1, as per the Hallam Land judgement, especially in view of the fact that the Council has considerably increased its housing delivery figures in recent years.

Whilst it is recognised that there would be conflict with Saved Policy QL1 and Emerging Policy SPL1 in terms of the site being sited outside the settlement development boundary, as stated above, in the context of the 5 year housing land supply paragraph 11 d) of the NPPF requires applications for housing development to be assessed on their merits, whether sites are allocated for development in the Local Plan or not and it is important to consider whether any circumstances outweigh this conflict.

Saved Tendring District Local Plan (2007) Policy QL1 sets out that development should be focussed towards the larger urban areas and to within development boundaries as defined within the Local Plan. These sentiments are carried forward in emerging Policy SPL1 of the Publication Draft. Emerging Policy SPL1 of the Publication Draft of the Local Plan 2017 includes a 'settlement hierarchy' aimed at categorising the district's towns and villages and providing a framework for directing development toward the most sustainable locations. This is the emerging policy equivalent to Saved Policy QL1 of the adopted Tendring District Local Plan 2007 which states that development should be focussed towards the larger urban areas. Arleigh is identified as a 'Village' within saved Policy QL1 of the adopted Tendring District Local Plan 2007 and is defined as a 'Smaller Rural Settlement' within Policy SPL1 of the emerging Tendring District Local Plan 2013-2033 and Beyond Publication Draft June 2017 in recognition of its size and limited range of local services.

The nearest settlement is Weeley Heath, the Settlement Development Boundary of which is approximately 680m to the north, and within the Established Settlement Hierarchy (2016) this settlement performs relatively poorly with no defined village centre, GP Surgery or primary school. It is therefore considered that the majority of trips, including those for day-to-day needs, would need to be made by car to access essential services and facilities.

Therefore taking all of the above into consideration it is considered that the site fails to meet the social strand of sustainability.

For the reasons set out above the proposal is considered to fail the social objective. This together with the conflict with Saved Policy QL1 of the adopted plan and emerging Policy SPL1 amounts to an unsustainable form of development.

- 2 "Saved" Tendring District Local Plan (2007) Policy HG13 (iii, iv, vi and vii) and "Emerging" Tendring District Local Plan 2013-2033 and Beyond Publication Draft Policy LP8(f) on "Backland Residential Development" requires that proposals for residential backland development should not involve tandem development using a shared access and that the proposal would not be out of character with the area or set a harmful precedent for other similar forms of development.

In this instance the proposal does involve tandem development as the layout proposed consists of a dwelling located behind an existing residential frontage which is accessed by a shared access. The layout plan provided shows the property being sited a significant distance to the rear of the existing cottages fronting Rectory Road and served by long narrow access road. The siting and position of the dwelling in a backland location would be wholly out of character with the prevailing pattern of built form in the locality and would result in residential development in an isolated rural location. The development, along with the construction of a long and narrow surfaced access road, would lead to the urbanisation of this area of countryside to its significant detriment thereby setting an undesirable precedent for further unsuitable residential development.

The proposal therefore fails to adhere to the environmental strand of sustainability.
