THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY GRANT PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted, subject to the following conditions;

- 1 The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

Reason - To comply with the requirements of Section 91 of the Town and Country Planning Act 1990, as amended by the Planning and Compulsory Purchase Act 2004.

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans and materials: Drawing PGOSB-01 Revision A and Drawing PGOSB-02 Revision A.

Reason - For the avoidance of doubt and in the interests of proper planning.

- 3 No above ground works shall take place until there has been submitted to and approved, in writing, by the Local Planning Authority a scheme of hard and soft landscaping works for the site, which shall include all boundary treatments and any proposed changes in ground levels and also accurately identify spread, girth and species of all existing trees, shrubs and hedgerows on the site and indicate any to be retained, together with measures for their protection which shall comply with the recommendations set out in the British Standards Institute publication "BS 5837: 2012 - Trees in Relation to Design, Demolition and Construction."

Reason - To soften and enhance the development in the interests of visual amenity.

- 4 All changes in ground levels, hard landscaping, planting, seeding or turfing shown on the approved landscaping details shall be carried out during the first planting and seeding season (October - March inclusive) following the commencement of the development or in such other phased arrangement as may be agreed in writing by the Local Planning Authority. Any trees or shrubs which, within a period of 5 years of being planted die, are

removed or seriously damaged or seriously diseased shall be replaced in the next planting season with others of similar size and species, unless the Local Planning Authority agrees in writing to a variation of the previously approved details.

Reason - To ensure the adequate maintenance of the approved landscaping scheme for a period of five years in the interests of the character of the area.

- 5 Notwithstanding the provisions of Article 3, Schedule 2 Part 2 Class A of the Town and Country Planning (General Permitted Development) (England) Order 2015 (or any Order revoking and re-enacting that Order with or without modification), no provision of fences, walls or other enclosures shall be erected along the front boundaries of the dwellings hereby approved.

Reason - In the interests of visual amenity.

- 6 Notwithstanding the provisions of Schedule 2 Part 1 Classes A, B, C, D and E of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended) (or any Order revoking and re-enacting that Order with or without modification), no extensions, additions, porches or alterations to the dwellings or their roofs shall be carried out and no outbuildings, enclosures, swimming or other pools shall be erected except in complete accordance with details which shall previously have been approved, in writing, by the Local Planning Authority following the submission of a planning application for such development.

Reason - To ensure that sufficient private amenity space for the dwellings are retained and in the interests of residential amenities.

- 7 No construction works or deliveries in connection with the development shall take place outside the hours of 0700 hours and 1900 hours Monday to Friday and 0800 hours and 1300 hours Saturdays, with the exception of any piling or other percussive works which shall not take place outside the hours of 0800 hours and 1700 hours Monday to Friday.

Reason - To protect the local amenity and reduce the likelihood of complaints of statutory nuisance.

- 8 All new driveways and parking areas shall be made of porous materials, or provision shall be made to direct run-off water from the hard surface to a permeable or porous area or surface within the curtilage of the dwellings.

Reason - In the interests of sustainable development and to ensure that run-off water is avoided to minimise the risk of surface water flooding.

- 9 Prior to occupation of the dwellings a 1.5 metre x 1.5 metre pedestrian visibility splay, as measured from and along the highway boundary, shall be provided on both sides of the vehicular access for both dwellings. Such visibility splays shall be retained free of any obstruction in perpetuity. These visibility splays must not form part of the vehicular surface of the access.

Reason - To provide adequate inter-visibility between the users of the access and pedestrians in the adjoining public highway in the interest of highway safety.

- 10 No unbound material shall be used in the surface treatment of the vehicular access or drive for either property throughout.

Reason - To avoid displacement of loose material onto the highway in the interests of highway safety.

- 11 Prior to occupation of the dwelling on Greenway the new vehicular access shall be constructed at right angles to the highway boundary and to the existing carriageway. The width of the access at its junction with the highway shall be a maximum of 4.5 metres (5 low kerbs), shall be retained at that width for 6 metres within the site and shall be provided with an appropriate dropped kerb vehicular crossing of the footway/highway verge.

Reason - To ensure that vehicles can enter and leave the highway in a controlled manner in the interest of highway safety.

- 12 No development shall take place, including any ground works or demolition, until a Construction Method Statement has been submitted to, and approved in writing by, the local planning authority. The approved Statement shall be adhered to throughout the construction period. The Statement shall provide for:

- i. the parking of vehicles of site operatives and visitors
- ii. loading and unloading of plant and materials
- iii. storage of plant and materials used in constructing the development
- iv. wheel and underbody washing facilities

Reason - To ensure that on-street parking of these vehicles in the adjoining streets does not occur and to ensure that loose materials and spoil are not brought out onto the highway in the interests of highway safety.

- 13 The development shall not be occupied until such time as the car parking provision and garage shown on the approved drawings have been hard surfaced, sealed and made available. The parking provision shall be retained in this form at all times for the sole purpose of vehicle parking.

Reason - To ensure that sufficient parking for the new dwelling is retained so that on-street parking of vehicles in the adjoining streets does not occur, in the interests of highway safety.
