TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO: 19/01537/FUL **DATE REGISTERED:** 4th November 2019

Proposed Development and Location of Land:

Proposed detached house.
Land to The rear of 70 The Street Weeley Clacton On Sea Essex

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY REFUSE PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted for the following reason(s)

- 1 The National Planning Policy Framework ("the Framework") 2019 attaches great importance to the design of the built environment and confirms good design is a key aspect of sustainable development, is indivisible from good planning, and should contribute positively to making places better for people. It is important to plan positively for the achievement of high quality and inclusive design for all development, including individual buildings. Paragraph 130 of the Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions.

The adopted Tendring District Local Plan (2007) "Saved" Policies QL9, QL10 and QL11 seek to ensure that all new development makes a positive contribution to the quality of the local environment and character, by ensuring that proposals are well designed, relate satisfactorily to their setting and are of a suitable scale, mass and form. These sentiments are carried forward in Policy SPL3 of the Tendring District Local Plan 2013-2033 and Beyond Publication Draft (June 2017).

The development would take direct access from and front onto the B1441 (Weeley Bypass). Within paragraph 5 of the appeal decision reference APP/P1560/W/17/3192362, the Planning Inspectorate states that 'I understand that The Street is characterised by frontage development. There are cul de sacs and other roads from it which also contain frontage buildings. By contrast the appeal site would be formed from part of the rear garden of Weeley House. This would give it a frontage to the Weeley bypass (B1441). There are no other plots where dwellings that front onto the bypass. The character of the area is rear garden fences and footpath and verge associated with the road'. 'I appreciate that the rear of the houses are glimpsed but there is not a strong road frontage of dwellings'. The Inspectorate concluded that the proposal 'would not have any physical or visual affinity with the existing character and would appear out of place. This is not something that landscaping would change'. It is therefore concluded that the proposal would harm the character and appearance of the area.

The proposal is therefore contrary to the aims of the afore-mentioned national and local policies.

- 2 Following Natural England's recent advice and the introduction of Zones of Influences around all European Designated Sites (i.e. Ramsar, Special Protection Areas and Special Area of Conservation). Within Zones of Influences (which the site falls within) Natural England are requesting financial contributions to mitigate against any recreational impact from new dwellings.

Under the Habitats Regulations, a development which is likely to have a significant effect or an adverse effect (alone or in combination) on a European designated site must provide mitigation or otherwise must satisfy the tests of demonstrating 'no alternatives' and 'reasons of overriding public interest'. There is no precedent for a residential development meeting those tests, which means that all residential development must provide mitigation.

The application scheme proposes a dwelling on a site that lies within the Zone of Influence (Zol) being approximately 4.7 km away from Hamford Water RAMSAR Site and SPA. Since the development is for one dwelling only, the number of additional recreational visitors would be limited and the likely effects on Hamford Water from the proposed development alone may not be significant. However, new housing development within the Zol would be likely to increase the number of recreational visitors to Hamford Water and in combination with other developments it is likely that the proposal would have significant effects on the designated site. Mitigation measures must therefore be secured prior to occupation.

A proportionate financial contribution has not been secured in accordance with the emerging Essex Coast Recreational disturbance Avoidance and Mitigation Strategy (RAMS) requirements. As submitted, there is no certainty that the development would not adversely affect the integrity of Habitats sites.

The proposal is therefore considered to be contrary to Policies EN6 and EN11a of the Saved Tendring District Local Plan 2007, Policy PPL4 of the emerging Tendring District Local Plan 2013-2033 and Beyond Publication Draft and Regulation 63 of the Conservation of Habitat and Species Regulations 2017.
