Any trees or shrubs which, within a period of 5 years of being planted die, are removed or seriously damaged or seriously diseased shall be replaced in the next planting season with others of similar size and species, unless the Local Planning Authority agrees in writing to a variation of the previously approved details.

Reason - To ensure the adequate maintenance of the approved landscaping scheme for a period of five years in the interests of the character of the surrounding area.

- 4 No above ground works shall take place until samples of the materials to be used in the construction of the external surfaces of the buildings hereby permitted have been submitted to and approved in writing by the Local Planning Authority. Development shall be carried out in accordance with the approved details.

Reason - The site is publicly visible and therefore quality materials are an essential requirement and insufficient information has been submitted within the application for full consideration of these details.

- 5 The approved screen walls and fences shown on approved Drawing No. 835/13 A shall be erected prior to the dwellings to which they relate being first occupied and thereafter be retained in the approved form unless otherwise agreed in writing by the Local Planning Authority.

Reason - To ensure a satisfactory development of the site in the interests of visual and residential amenity.

- 6 Prior to the occupation of the development, the communal bin/refuse collection point shown on approved Drawing No. 835/10 E shall be provided and thereafter retained in the approved form.

Reason - To ensure the protection of birds potentially nesting on site.

- 8 All new hardstanding and parking areas shall be made of porous materials, or provision shall be made to direct run-off water from the hard surface to a permeable or porous area or surface within the site.

Reason - In the interests of visual amenity and to preserve the semi-rural character of the surrounding area.

- 13 Notwithstanding the provisions of Article 3, Schedule 2 Part 1 Classes A, B, C and E of the Town and Country Planning (General Permitted Development) (England) Order 2015 (or any Order revoking and re-enacting that Order with or without modification), there shall be no additions or alterations to any of the dwellings or their roofs, nor shall any buildings, enclosures, swimming or other pool be erected except in accordance with drawings showing the design and siting of such additions and/or building(s) which shall previously have been submitted to and approved, in writing, by the local planning authority.

Reason - It is necessary for the local planning authority to be able to consider and control further development in order to ensure that landscape harm does not result in this edge of settlement location and to ensure that no harm to neighbouring amenities will occur.

- 14 Prior to the occupation of the development, the access at its centre line shall be provided with a clear to ground visibility splay with dimensions of 2.4 metres by 17 metres in both directions as measured from and along the nearside edge of the carriageway in accordance with approved Drawing No. 835/10 E. Such vehicular visibility splays shall be retained free of any obstruction at all times in perpetuity.

Reason - To provide adequate inter-visibility between vehicles using the access and those in the existing public highway in the interest of highway safety.

The gates shall be retained in this approved form unless otherwise agreed in writing by the Local Planning Authority.

Reason - To enable vehicles using the access to stand clear of the carriageway whilst gates are being opened and closed and to allow parking off street and clear from obstructing the adjacent footway/cycleway/carriageway in the interest of highway.

- 17 Prior to first occupation of the development, the vehicle parking shown on approved Drawing no. 835/10 E shall be constructed, surfaced and made available in accordance with the EPOA Parking Standards and maintained free from obstruction within the site at all times for that sole purpose.

dwelling.

- 18 Any new boundary planting shall be planted a minimum of 1 metre back from the highway boundary and any visibility splay.

Reason - To ensure that the future outward growth of the planting does not encroach upon the highway or interfere with the passage of users of the highway, to preserve the integrity of the highway and in the interests of highway safety.
