## **Status of the Local Plan**

The 'development plan' for Tendring is the 2007 'adopted' Local Plan. Paragraph 213 of the NPPF (2019) allows local planning authorities to give due weight to adopted albeit outdated policies according to their degree of consistency with the policies in the NPPF. Paragraph 48 of the NPPF also allows weight to be given to policies in emerging plans according to their stage of preparation, the extent to which there are unresolved objections to relevant policies and the degree of consistency with national policy. As of 16th June 2017, the emerging Local Plan for Tendring is the Tendring District Local Plan 2013-2033 and Beyond Publication Draft.

Section 1 of the Local Plan (which sets out the strategy for growth across North Essex including Tendring, Colchester and Braintree) was examined in January and May 2018, with further hearing sessions in January 2020. The Inspector issued his findings in respect of the legal compliance and soundness of the Section 1 Plan in May 2020. He confirmed that the plan was legally compliant and that the housing and employment targets for each of the North Essex Authorities, including Tendring, were sound. However, he has recommended that for the plan to proceed to adoption, modifications will be required – including the removal of two of the three Garden Communities 'Garden Communities' proposed along the A120 (to the West of Braintree and on the Colchester/Braintree Border) that were designed to deliver longer-term sustainable growth in the latter half of the plan period and beyond 2033.

The three North Essex Authorities are currently considering the Inspector's advice and the implications of such modifications with a view to agreeing a way forward for the Local Plan. With the Local Plan requiring modifications which, in due course, will be the subject of consultation on their own right, its policies cannot yet carry the full weight of adopted policy, however they can carry some weight in the determination of planning applications – increasing with each stage of the plan-making process.

The examination of Section 2 of the Local Plan (which contains more specific policies and proposals for Tendring) will progress once modifications to the Section 1 have been consulted upon and agreed by the Inspector. Where emerging policies are particularly relevant to a planning application and can be given some weight in line with the principles set out in paragraph 48 of the NPPF, they will be considered and, where appropriate, referred to in decision notices. In general terms however, more weight will be given to policies in the NPPF and the adopted Local Plan.

#### 5. Officer Appraisal (including Site Description and Proposal)

## Site Description

The application site is a detached dwelling of a typical late twentieth-century design. Properties in the locale are of mixed age and design – the neighbour to the east is also a late twentieth-century property which has a large extension over the garage, to the right is a pair of new-build semi-detached dwellings.

## Description of Proposal

The application proposes simply replacing the flat roof over the garage with a dual pitched roof; the pitch mimicking that of the host dwelling – the flank wall of the garage is approximately 1.4m away from the boundary. It is proposed to add four small rooflights in the forward-facing roof slope and one large rooflight in the rear roofslope.

# <u>Principle</u>

The site is located within the Development Boundary therefore there is no principle objection to the proposal, subject to the detailed considerations discussed below.

## Design & Appearance

The Government attach great importance to the design of the built environment. Good design is a key aspect of sustainable development, is indivisible from good planning and should contribute positively to making places better for people. One of the core planning principles of The National Planning Policy Framework (NPPF) as stated at paragraph 130 is to always seek to secure high quality design.

Saved Policies QL9, QL10 and QL11 aim to ensure that all new development makes a positive contribution to the quality of the local environment, relates well to its site and surroundings particularly in relation to its form and design and does not have a materially damaging impact on the amenities of occupiers of nearby properties. Emerging Policy SP1 reflects these considerations.

The proposal would be highly visible in the public domain, notwithstanding this the large expanse of flat roof has very little architectural merit and replicating the roofslopes of the host dwelling will add some interest and variation to the streetscene. Having an overall height of a little over 5m the upper ridge would result in an addition, finished in concrete tiles to match the, which entirely respects the character and appearance of the host dwelling in regards to its scale and design.

### Impact to Neighbouring Amenities

The NPPF, at paragraph 127 states that planning should always seek to secure a good standard of amenity for all existing and future occupants of land and buildings. In addition, Policy QL11 of the Saved Plan states that amongst other criteria, 'development will only be permitted if the development will not have a materially damaging impact on the privacy, daylight or other amenities of occupiers of nearby properties'. These sentiments are carried forward in Policy SPL3 of the Tendring District Local Plan 2013-2033 and Beyond Publication Draft (June 2017).

The proposed roof replacement would be to the west of the adjacent neighbour, the depth of the garage does not extend beyond the depth of the neighbour's dwelling and separation distances over 7m would remain; overall the development will not have a materially damaging impact on the privacy, daylight or other amenities of occupiers of nearby properties.

#### Highway Issues

Paragraph 108 of the NPPF seeks to ensure that safe and suitable access to a development site can be achieved for all users. Saved Policy QL10 of the adopted Tendring District Local Plan 2007 states that planning permission will only be granted, if amongst other things, access to the site is practicable and the highway network will be able to safely accommodate the additional traffic the proposal will generate. These objectives are supported by emerging Policy SPL3 of the Tendring District Local Plan 2013-2033 and Beyond Publication Draft 2017.

The proposal neither generates additional parking nor decreases the existing off-street parking provision at the site.

# 6. Recommendation

Approval - Full

# 7. Conditions / Reasons for Approval

- 1 The development hereby permitted shall be begun before the expiration of three years from the date of this permission.
  - Reason To comply with the requirements of Section 91 of the Town and Country Planning Act 1990, as amended by the Planning and Compulsory Purchase Act 2004.
- The development hereby permitted shall be carried out in accordance with the following approved plans:- Sheet 1 of 1 revision 02, received 23<sup>rd</sup> July 2020.
  - Reason For the avoidance of doubt and in the interests of proper planning.

# 8. Informatives

Positive and Proactive Statement

The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.
