## Private Water Supply

If the applicant is planning to install a private water supply at the proposed development, this must be registered with the Council and relevant details are required to be kept on a Public Register.

## Environmental Permitting

The applicant may be able to discharge sewage effluent under the General Binding Rules (GBR). This would be classed as a new discharge so additional rules would need to be complied with. The GBR can be found at:

<https://www.gov.uk/government/publications/small-sewage-discharges-in-england-general-binding-rules>.

If the applicant can't comply with the GBR they would need to apply for an Environmental Permit. The Environment Agency can provide basic pre-application advice for free to help with the permit application. A chargeable service is available if more in-depth advice is required. Pre-application advice can be obtained via this online form:

<https://www.gov.uk/government/publications/environmental-permit-pre-application-advice-form>.

A permit application can't be pre-determined so the applicant should not automatically assume that a permit will be issued. The applicant should also be aware that the granting of Planning Permission or Building Regulation approval does not guarantee the granting of an Environmental Permit.

The applicant will need to obtain separate permissions/easements to cross or use third party land if this is relevant to their proposal.

Standard Informative 1: The Provisions of the Essex Act 1987, Section 13 (Access for the Fire Brigade) may apply to this Development and will be determined at Building Regulation Stage.

Standard Informative 2: You are reminded that the carrying out of building works requires approval under the Building Regulations in many cases as well as a grant of planning permission. If you are in doubt as to whether or not the work, the subject of this planning permission, requires such approval, then you are invited to contact the Building Control section at Tendring District Council.

Standard Informative 3: If the development includes the construction of a new building on or at the boundary of 2 properties, work to an existing party wall or party structure or involve excavation near to and below the foundation level of neighbouring buildings, you are advised that the provisions of the Party Wall Act 1996 may apply to this development. An explanatory booklet concerning the implications of this Act is available online or from the District Council.
