THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY GRANT PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted, subject to the following conditions;

- 1 The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

Reason - To comply with the requirements of Section 91 of the Town and Country Planning Act 1990, as amended by the Planning and Compulsory Purchase Act 2004.
- 2 The development hereby permitted shall be carried out in accordance with the following approved plans: PA10, PA11, P12, PA13 and PA14.

Reason - For the avoidance of doubt and in the interests of proper planning.
- 3 The dwellings shall not be occupied until such time as the car parking and turning areas has been provided in accordance with the proposed block plan drawing PA10. These facilities shall be retained in this form at all times and shall not be used for any purpose other than the parking and turning of vehicles related to the use of the development thereafter.

Reason - To ensure that on-street parking of vehicles in the adjoining streets does not occur, in the interests of highway safety.
- 4 No unbound material shall be used in the surface treatment of the vehicular accesses or access road throughout.

Reason - To avoid displacement of loose material onto the highway in the interests of highway safety.
- 5 There shall be no discharge of surface water onto the highway.

Reason - To prevent hazards caused by water flowing onto the highway and to avoid the formation of ice on the highway in the interest of highway safety.

- 6 Any new boundary planting shall be planted a minimum of 1 metre back from the highway boundary and any visibility splay.

Reason - To ensure that the future outward growth of the planting does not encroach upon the highway or interfere with the passage of users of the highway, to preserve the integrity of the highway and in the interests of highway safety.

- 7 Prior to the commencement of any above ground works precise specifications (including the manufacturer, range and colour details where applicable) of the walling and roofing materials to be used in construction, shall be submitted to and approved, in writing, by the Local Planning Authority. The development shall then be carried out in accordance with the approved details, unless otherwise agreed in writing by the Local Planning Authority.

Reason - In the interests of the appearance of the area.

- 8 Before development starts, the following shall be submitted to and approved in writing by the Local Planning Authority:

- a) a scheme of landscaping, which shall include indications of all existing trees and hedgerows on the land,
- b) the details of any trees and hedgerows to be retained, together with measures for their protection during development,
- c) a schedule of proposed plant species, size and density and planting locations,
- d) details of plot boundary treatment,
- e) details of hard surfacing, and
- f) an implementation programme.

All planting, seeding or turfing in the approved scheme of landscaping shall be carried out in the first planting and seeding season following the occupation of the buildings or the completion of the development, whichever is the sooner. Any trees or plants which within a period of 5 years from the completion of the development die, are removed or become seriously damaged or diseased shall be replaced in the next planting season with others of similar size and species, unless the Local Planning Authority gives written consent to any variation.

Reason - In the interest of the appearance of the area.

- 9 Prior to the first occupation of the proposed dwellings, the Developer shall be responsible for the provision and implementation of a Residential Travel Information Pack for sustainable transport, approved by Essex County Council, to include six one day travel vouchers for use with the relevant local public transport operator free of charge.

Reason - In the interests of reducing the need to travel by car and promoting sustainable development and transport.

- 10 No development shall take place, including any ground works or demolition, until a Construction Management Plan has been submitted to, and approved in writing by, the local planning authority. The approved plan shall be adhered to throughout the construction period. The Plan shall provide for:

- i. the parking of vehicles of site operatives and visitors

- ii. loading and unloading of plant and materials
- iii. storage of plant and materials used in constructing the development
- iv. wheel and underbody washing facilities

Reason - To ensure that on-street parking of these vehicles in the adjoining streets does not occur and to ensure that loose materials and spoil are not brought out onto the highway in the interests of highway safety.

- 11 Notwithstanding the provisions of Article 3, Schedule 2 Part 1 Classes A, B, C and E of the Town and Country Planning (General Permitted Development) (England) Order 2015 (or any Order revoking and re-enacting that Order with or without modification), there shall be no extensions or roof additions to the bungalows, nor shall any buildings, swimming or other pool enclosures be erected except in accordance with drawings showing the design and siting of such additions or building(s) which shall previously have been submitted to and approved, in writing, by the Local Planning Authority.

Reason - It is necessary for the Local Planning Authority to be able to consider and control further development in order to ensure that the properties retain sufficient private amenity space and the impact upon existing/future residents is not harmed.
