Local Planning Guidance

Status of the Local Plan

The 'development plan' for Tendring is the 2007 'adopted' Local Plan. Paragraph 213 of the NPPF (2019) allows local planning authorities to give due weight to adopted albeit outdated policies according to their degree of consistency with the policies in the NPPF. Paragraph 48 of the NPPF also allows weight to be given to policies in emerging plans according to their stage of preparation, the extent to which there are unresolved objections to relevant policies and the degree of consistency with national policy. As of 16th June 2017, the emerging Local Plan for Tendring is the Tendring District Local Plan 2013-2033 and Beyond Publication Draft.

Section 1 of the Local Plan (which sets out the strategy for growth across North Essex including Tendring, Colchester and Braintree) has been examined by an Independent Planning Inspector who issued his final report and recommended 'main modifications' on 10th December 2020. The Inspector's report confirms that, subject to making his recommended main modifications (including the removal from the plan of two of the three 'Garden Communities' proposed along the A120 i.e. those to the West of Braintree and on the Colchester/Braintree Border), the plan is legally compliant and sound and can proceed to adoption. Notably, the housing and employment targets in the plan have been confirmed as sound, including the housing requirement of 550 dwellings per annum in Tendring.

The Council is now making arrangements to formally adopt Section 1 of the Local Plan in its modified state and this is expected to be confirmed at the meeting of Full Council on 26th January 2021 – at which point will become part of the development plan and will carry full weight in the determination of planning applications – superseding, in part, some of the more strategic policies in the 2007 adopted plan. In the interim, the modified policies in the Section 1 Local Plan, including the confirmed housing requirement, can be given significant weight in decision making owing to their advancement through the final stages of the plan-making process.

The examination of Section 2 of the Local Plan (which contains more specific policies and proposals for Tendring) is now expected to proceed in 2021 and two Inspectors have already been appointed by the Secretary of State to undertake the examination, with the Council preparing and updating its documents ready for the examination. In time, the Section 2 Local Plan (once examined and adopted in its own right) will join the Section 1 Plan as part of the development plan, superseding in full the 2007 adopted plan.

Where emerging policies are particularly relevant to a planning application and can be given weight in line with the principles set out in paragraph 48 of the NPPF, they will be considered and, where appropriate, referred to in decision notices.

5. Officer Appraisal (including Site Description and Proposal)

Proposal

This application seeks permission for the demolition of the existing conservatory and the erection of a single storey rear extension with 2 glazed roof lanterns.

Application Site

The site is located to the west of Beachcroft Avenue, within the development boundary of Frinton on Sea. The site serves a semi-detached bungalow finished in brickwork and cladding with a pitched tiled roof. There is a detached garage to the north of the site, located back from the dwelling, with a paved driveway area. The front of the site is paved and stoned with some shrubbery and a low wall around the site boundary. The surrounding streetscene is comprised from dwellings of a similar design and appearance.

Assessment

Design and Appearance

One of the core planning principles of The National Planning Policy Framework (NPPF) as stated at paragraph 130 is to always seek to secure high quality design. Saved Policies QL9, QL10 and QL11 aim to ensure that all new development makes a positive contribution to the quality of the local environment, relates well to its site and surroundings particularly in relation to its form and design and does not have a materially damaging impact on the amenities of occupiers of nearby properties. Emerging Policy SP1 reflects these considerations.

The proposed rear extension will measure 3 metres deep by 6.2 metres wide and will have a maximum height of 3.1 metres (including the height of the roof lanterns). The proposal is of a size and scale in keeping with the existing dwelling, with the application site retaining plenty of private amenity space.

The extension will be located to the rear of the dwelling and will not be visible to the streetscene. The proposal will be constructed using materials to match those of the existing dwelling. The exterior walls will be of a matching brickwork, and the windows and doors will be white UPVC. The roof will be of a flat roof design, matching to that of the existing garage. The design and scale is acceptable and will not result in any material harm to visual amenities.

Impact to Neighbouring Amenities

The NPPF, Paragraph 17, states that planning should always seek to secure a good standard of amenity for all existing and future occupants of land and buildings. In addition, Policy QL11 of the saved plan states that amongst criteria 'development will only be permitted if the development will not have a materially damaging impact on the privacy, daylight or other amenities of occupiers of nearby properties'. These sentiments are carried forward in Policy SPL3 of the Tendring District Local Plan 2013-2033 and Beyond Publication Draft (June 2017).

The Essex Design Guide makes reference to The Building Research Establishment's report "Site Layout Planning for Daylight and Sunlight" 1991 which suggests that obstruction of light and outlook from an existing window is avoided if the extension does not result in the centre of the existing window being within a combined plan and section 45 degree overshadowing zone. Using the sunlight/daylight calculations specified in the Essex Design Guide the 45 degree line down from the extension roof does not catch the attached neighbouring dwelling (4 Beachcroft Avenue) in both plan and elevation, any loss of light that the proposal may cause to this neighbour is therefore not significant enough to refuse planning permission.

The extension is located away from other neighbouring dwellings and will have no significant effect on loss of light.

The proposal is of a single storey nature and therefore poses no significant threat of overlooking or loss of privacy.

The proposal is therefore not considered to have any significant harmful impact on residential amenities.

Highway issues

The Proposal neither generates an additional need for parking, nor decreases the existing parking provisions at the site.

Other Considerations

Frinton and Walton Town Council approve this application.

No other letters of representation have been received.

Conclusion

It is considered that the proposed development is consistent with the National and Local Plan Policies identified above. In the absence of material harm resulting from the proposal the application is recommended for approval.

6. Recommendation

Approval - Full

7. Conditions / Reasons for Refusal

- 1 The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

Reason - To comply with the requirements of Section 91 of the Town and Country Planning Act 1990, as amended by the Planning and Compulsory Purchase Act 2004.

- 2 The development hereby permitted shall be carried out in accordance with the following approved plan; Drawing No. 01

Reason - For the avoidance of doubt and in the interests of proper planning.

8. Informatives

Positive and Proactive Statement

The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.
