- 3 No above ground level works shall take place until precise details of the provision, siting, design and materials of screen walls and fences have been submitted to and approved in writing by the Local Planning Authority. The approved details shall be erected prior to the occupation of the development and thereafter be retained in the approved form unless otherwise agreed in writing by the Local Planning Authority.

Reason - To ensure that the development is appropriate within its setting in the interests of visual amenity.
- 4 Notwithstanding the provisions of Article 3, Schedule 2 Part 2 Class A of the Town and Country Planning (General Permitted Development) England Order 2015 (or any Order revoking and re-enacting that Order with or without modification), no provision of fences, walls, gates or other means of enclosures, shall be erected forward of the front elevation of the dwelling hereby approved except in accordance with details that shall previously be approved in writing by the Local Planning Authority.

Reason - In the interests of visual amenity.

- 5 No above ground works shall take place until there has been submitted to and approved, in writing, by the Local Planning Authority a scheme of hard and soft landscaping works for the site, which shall include any proposed changes in ground levels and also accurately identify spread, girth and species of all existing trees, shrubs and hedgerows on the site and indicate any to be retained, together with measures for their protection which shall comply with the recommendations set out in the British Standards Institute publication "BS 5837:2012 Trees in relation to design, demolition and construction."

Reason - In the interest of visual amenity and the rural character of the area.

- 6 All changes in ground levels, hard landscaping, planting, seeding or turfing shown on the approved landscaping details shall be carried out during the first planting and seeding season (October - March inclusive) following the commencement of the development or in such other phased arrangement as may be agreed in writing by the Local Planning Authority. Any trees or shrubs which, within a period of 5 years of being planted die, are removed or seriously damaged or seriously diseased shall be replaced in the next planting season with others of similar size and species, unless the Local Planning Authority agrees in writing to a variation of the previously approved details.

Reason - In the interest of visual amenity and the rural character of the area.

- 7 Prior to occupation of the development a 1.5 metre x 1.5 metre pedestrian visibility splay, as measured from and along the highway boundary, shall be provided on both sides of the vehicular access. Such visibility splays shall be retained free of any obstruction in perpetuity. These visibility splays must not form part of the vehicular surface of the access.

Reason - To provide adequate inter-visibility between the users of the access and pedestrians in the adjoining public highway in the interest of highway safety

- 8 The public's rights and ease of passage over public footpath 7 (Thorpe Le Soken_180) shall be maintained free and unobstructed at all times.

Reason - To ensure the continued safe passage of the public on the definitive right of way and accessibility

- 9 The demolition and development shall be carried out in strict accordance with the Construction Method Statement and details contained within the Planning Statement dated November 2020.

Reason - To ensure that on-street parking of construction vehicles in the adjoining streets does not occur, to ensure that loose materials and spoil are not brought out onto the highway in the interests of highway safety and to ensure working conditions are sympathetic to residential amenities.

Highways

Steps should be taken to ensure that the Developer provides sufficient turning and off-loading facilities for delivery and site worker vehicles, within the limits of the site together with an adequate parking area for those employed in developing the site. No vehicles associated with the development shall affect the ease of passage along the PROW.

All work within or affecting the highway is to be laid out and constructed by prior arrangement with and to the requirements and specifications of the Highway Authority; all details shall be agreed before the commencement of works.

The applicants should be advised to contact the Development Management Team by email at development.management@essexhighways.org or by post to:

The Public Right of Way network is protected by the Highways Act 1980. Any unauthorised interference with any route noted on the Definitive Map of PROW is considered to be a breach of this legislation. The public's rights and ease of passage over public footpath no.7 (Thorpe Le Soken_180) shall be maintained free and unobstructed at all times to ensure the continued safe passage of the public on the definitive right of way.

The grant of planning permission does not automatically allow development to commence. In the event of works affecting the highway, none shall be permitted to commence until such time as they have been fully agreed with this Authority. In the interests of highway user safety this may involve the applicant requesting a temporary closure of the definitive route using powers included in the aforementioned Act. All costs associated with this shall be borne by the applicant and any damage caused to the route shall be rectified by the applicant within the timescale of the closure.

Standard Informative 1: The Provisions of the Essex Act 1987, Section 13 (Access for the Fire Brigade) may apply to this Development and will be determined at Building Regulation Stage.

Standard Informative 2: You are reminded that the carrying out of building works requires approval under the Building Regulations in many cases as well as a grant of planning permission. If you are in doubt as to whether or not the work, the subject of this planning permission, requires such approval, then you are invited to contact the Building Control section at Tendring District Council.

Standard Informative 3: If the development includes the construction of a new building on or at the boundary of 2 properties, work to an existing party wall or party structure or involve excavation near to and below the foundation level of neighbouring buildings, you are advised that the provisions of the Party Wall Act 1996 may apply to this development. An explanatory booklet concerning the implications of this Act is available online or from the District Council.

The attached notes explain the rights of appeal.
