TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO: 20/01660/OUT **DATE REGISTERED:** 18th November 2020

Proposed Development and Location of Land:

**Erection of a dwelling.
Land Adj. 52 Harwich Road Lawford Manningtree Essex**

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY REFUSE OUTLINE PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted, for the following reason(s)

- 1 Paragraph 11 of the National Planning Policy Framework 2019 (NPPF) states that plans and decisions should apply a presumption in favour of sustainable development. For plan-making this means that plans should positively seek opportunities to meet the development needs of their area. Strategic policies should, as a minimum, provide for objectively assessed needs for housing. For decision-taking this means approving development proposals that accord with an up-to-date development plan without delay. Paragraph 12 of the NPPF states that presumption in favour of sustainable development does not change the statutory status of the development plan as the starting point for decision making. Where a planning application conflicts with an up-to-date development plan permission should not usually be granted.

Section 1 of the Local Plan (which sets out the strategy for growth across North Essex including Tendring, Colchester and Braintree) has been examined by an Independent Planning Inspector who issued his final report and recommended 'main modifications' on 10th December 2020. The Inspector's report confirms that, the housing and employment targets in the plan have been confirmed as sound, including the housing requirement of 550 dwellings per annum in Tendring. The Council has now formally adopted Section 1 part of the development plan which carries full weight in the determination of planning applications - superseding, in part, some of the more strategic policies in the 2007 adopted plan. In the interim, the modified policies in the Section 1 Local Plan, including the confirmed housing requirement, can be given significant weight in decision making owing to their advancement through the final stages of the plan-making process.

For the purposes of the determination of this application the Council can currently demonstrate that a 5 year housing land supply exists. Engaging the presumption in favour of sustainable development under paragraph 11d) of the NPPF does not apply in this instance. The policies for the delivery of housing are considered up-to-date and the application must therefore be determined in accordance with Paragraph 11 c) of the NPPF, thus in accordance with the development plan.

The application site lies outside of any Settlement Development Boundary as defined within both the adopted Tendring District Local Plan (2007) and the emerging Tendring District Local Plan 2013-2033 and Beyond Publication Draft (2017). Regardless of the proximity of the site in relation to services and amenities, there is no longer a requirement to consider such sites due to their location outside of the defined settlement development boundaries as the planned growth for the District to meet housing need has been established. The adverse impacts of the proposal both on the character of the locality and on the Council's ability to manage growth through the plan-led approach, are not outweighed by any benefits or other material considerations. The development is unnecessary and there are no public benefits that might warrant the proposal being considered in an exceptional light. The proposal is therefore contrary to the aims of paragraph 11c) of the NPPF and contrary to the development plan Saved Policy QL1 and emerging Policy SP1.

- 2 Paragraph 8 of the National Planning Policy Framework 2019 (NPPF) sets out the overarching objectives for achieving sustainable development, one being the environmental objective which requires the planning system to contribute to protecting and enhancing our natural, built and historic environment. Furthermore, Paragraph 127 of the NPPF requires that development should respond to local character and history, and reflect the identity of local surroundings. It goes on to say that local distinctiveness should be promoted and reinforced. Saved Policy QL9 and EN1 of the Tendring District Local Plan (2007) and Policy SPL3 and PPL3 of the emerging Tendring District Local Plan 2013-2033 and Beyond Publication Draft (June 2017) seeks to ensure that development is appropriate in its locality and does not harm the appearance of the landscape. Outside development boundaries, the Local Plan seeks to conserve and enhance the countryside for its own sake by not allowing new housing unless it is consistent with countryside policies.

Although the site could not be described as wholly isolated; the plot is clearly undeveloped parcel of land between two houses. The development represents an unplanned advance of urbanisation into the countryside eroding the semi-rural character of the locality resulting in a detrimental impact upon the landscape. Residential development of any scale on this site would appear harmful to the character and appearance of the area.

- 3 Under the Habitats Regulations, a development which is likely to have a significant effect or an adverse effect (alone or in combination) on a European designated site must provide mitigation or otherwise must satisfy the tests of demonstrating 'no alternatives' and 'reasons of overriding public interest'. There is no precedent for a residential development meeting those tests, which means that all residential development must provide mitigation. The contribution is secured by unilateral undertaking.

The application scheme proposes a new dwelling on a site that lies within the Zone of Influence (Zoi) of the Stour And Orwell Estuaries. Since the development is for one dwelling only, the number of additional recreational visitors would be limited and the likely effects on the Stour And Orwell Estuaries from the proposed development alone may not be significant. However, new housing development within the Zoi would be likely to increase the number of recreational visitors to the Stour And Orwell Estuaries and, in combination with other developments it is likely that the proposal would have significant effects on the designated site. Mitigation measures must therefore be secured prior to occupation.

A proportionate financial contribution has not been secured in accordance with the emerging Essex Coast Recreational disturbance Avoidance and Mitigation Strategy (RAMS) requirements. As submitted, there is no certainty that the development would not adversely affect the integrity of Habitats sites.

The proposal is therefore considered to be contrary to Policies EN6 and EN11a of the

Saved Tendring District Local Plan 2007, Policy PPL4 of the emerging Tendring District Local Plan 2013-2033 and Beyond Publication Draft and Regulation 63 of the Conservation of Habitat and Species Regulations 2017.

Positive and Proactive Statement

The Local Planning Authority has acted positively and proactively in determining this application by identifying matters of concern with the proposal and discussing those with the Applicant. However, the issue in regards to the conflict with paragraph 11c) of the NPPF and contrary to the development plan Saved Policy QL1 and emerging Policy SP1 are so fundamental to the proposal that it has not been possible to negotiate a satisfactory way forward and due to the harm which has been clearly identified within the reason(s) for the refusal, approval has not been possible. In regards to the absence of a proportionate financial contribution in accordance with the emerging Essex Coast Recreational disturbance Avoidance and Mitigation Strategy (RAMS); preparation of this financial agreement has been postponed until at which point the applicant appeals the Local Authority's decision to refuse.

The attached notes explain the rights of appeal.
