### TOWN AND COUNTRY PLANNING ACT 1990

**APPLICATION NO:** 20/01537/OUT

**DATE REGISTERED:** 30th October 2020

Proposed Development and Location of Land:

**Demolition of existing barn and erection of one dwelling.  
 Reedlands Gutteridge Hall Lane Weeley Clacton On Sea**

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY REFUSE OUTLINE PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted, for the following reason(s)

- Paragraph 11 of the National Planning Policy Framework 2019 (NPPF) states that plans and decisions should apply a presumption in favour of sustainable development. For plan-making this means that plans should positively seek opportunities to meet the development needs of their area. Strategic policies should, as a minimum, provide for objectively assessed needs for housing. For decision-taking this means approving development proposals that accord with an up-to-date development plan without delay. Paragraph 12 of the NPPF states that presumption in favour of sustainable development does not change the statutory status of the development plan as the starting point for decision making. Where a planning application conflicts with an up-to-date development plan permission should not usually be granted.

Section 1 of the Local Plan (which sets out the strategy for growth across North Essex including Tendring, Colchester and Braintree) has been examined by an Independent Planning Inspector who issued his final report and recommended 'main modifications' on 10th December 2020. The Inspector's report confirms that, the housing and employment targets in the plan have been confirmed as sound, including the housing requirement of 550 dwellings per annum in Tendring. The Council has now formally adopted Section 1 part of the development plan which carries full weight in the determination of planning applications - superseding, in part, some of the more strategic policies in the 2007 adopted plan. In the interim, the modified policies in the Section 1 Local Plan, including the confirmed housing requirement, can be given significant weight in decision making owing to their advancement through the final stages of the plan-making process.

For the purposes of the determination of this application the Council can currently demonstrate that a 5 year housing land supply exists. Engaging the presumption in favour of sustainable development under paragraph 11d) of the NPPF does not apply in this instance. The policies for the delivery of housing are considered up-to-date and the application must therefore be determined in accordance with Paragraph 11 c) of

the NPPF, thus in accordance with the development plan.

The application site lies outside of any Settlement Development Boundary as defined within both the adopted Tendring District Local Plan (2007) and the emerging Tendring District Local Plan 2013-2033 and Beyond Publication Draft (2017). Regardless of the proximity of the site in relation to services and amenities, there is no longer a requirement to consider such sites due to their location outside of the defined settlement development boundaries as the planned growth for the District to meet housing need has been established. The adverse impacts of the proposal both on the character of the locality and on the Council's ability to manage growth through the plan-led approach, are not outweighed by any benefits or other material considerations. The development is unnecessary and there are no public benefits that might warrant the proposal being considered in an exceptional light. The proposal is therefore contrary to the aims of paragraph 11c) of the NPPF and contrary to the development plan Saved Policy QL1 and emerging Policy SP1.

#### Positive and Proactive Statement

The Local Planning Authority has acted positively and proactively in determining this application by identifying matters of concern with the proposal and discussing those with the Applicant. However, the issues are so fundamental to the proposal that it has not been possible to negotiate a satisfactory way forward and due to the harm which has been clearly identified within the reason(s) for the refusal, approval has not been possible.

#### Environmental Protection

Contaminated Land - Prior to the commencement of any permitted development, the applicant is advised to undertake a suitable and sufficient site investigation and any necessary risk assessment to ensure the land is free from significant levels of contamination. A Risk Assessment shall be provided to enable Tendring District Council to decide whether the site can be made suitable for its proposed use prior to any permission being granted. This will incorporate a 'phase one' assessment in the form of a desktop study/site walkover report. This will include a review of previous investigations; previous uses; potential sources of contamination; and potential pathways and receptors. If necessary, this shall be followed up by a 'phase two' risk assessment that shall incorporate a detailed intrusive investigation referring to the phase one study.

The purpose of these requests is to protect the health and amenity of nearby residential dwellings, site workers and end users.

The Environmental team would also like to highlight, that at any further application phase, we would request information on the applicants proposal for demolition and construction.

**The attached notes explain the rights of appeal.**
