Subject: Re21/00326/PREMVA

Good Morning Michael Cook

I am a resident of West St Harwich and have just found out about the late licence that the British Flag have applied for.

I want to strongly disagree with them receiving this license, the noise from the British Flag is already a joke and for you to allow them to stay open even later is beyond me ,

We have had no notification about this whatsoever so nobody in West St is aware

I have to be up for work 6 days a a week at 4am this will not give me any rest and very much lack of sleep.

I really can't believe you would even consider this application in a built up residential street with houses only meters away from the British Flag , I've just spoken to my next door neighbour who is also fuming and will contact you today after work

I would like to hear back from you ASAP

Best regards

Chris Cairns
