Proposed Development and Location of the Land:

**Proposed erection of an agricultural building for the storage of straw.
Trestacks Farm Oakley Road Wix Essex**

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY GRANT PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted, subject to the following conditions;

- 1 The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

Reason - To comply with the requirements of Section 91 of the Town and Country Planning Act 1990, as amended by the Planning and Compulsory Purchase Act 2004.

- 2 The development hereby permitted shall be carried out in accordance with the following approved drawings: IP/AHB/01-03

Reason - For the avoidance of doubt and in the interests of proper planning.

- 3 No above ground works shall take place until there has been submitted to and approved, in writing, by the Local Planning Authority a scheme of hard and soft landscaping which shall include any proposed changes in ground levels and also accurately identify spread, girth and species of all existing trees, shrubs and hedgerows on the site and indicate any to be retained, together with measures for their protection which shall comply with the recommendations set out in the British Standards Institute publication "BS 5837: 2012 Trees in relation to design, demolition and construction."

Reason - In the interest of visual amenity and the character of the area.

- 4 All changes in ground levels in relation to the soft landscaping, hard landscaping, planting, seeding or turfing shown on the approved landscaping details shall be carried out during the first planting and seeding season (October - March inclusive) following the commencement of the development or in such other phased arrangement as may be agreed in writing by the Local Planning Authority. Any trees or shrubs which, within a period of 5 years of being planted die, are removed or seriously damaged or seriously

diseased shall be replaced in the next planting season with others of similar size and species, unless the Local Planning Authority agrees in writing to a variation of the previously approved details.

Reason - To ensure that the development provides a satisfactory setting, in the interests of the character and appearance of the landscape and the visual amenity of the site.

- 5 No means of external lighting shall be installed unless the prior written consent of the local planning authority is given in writing to any external lighting. Any external lighting shall be part of a lighting design scheme for biodiversity which shall have been submitted to and approved in writing by the local planning authority. The scheme shall identify those features on site that are particularly sensitive for bats and that are likely to cause disturbance along important routes used for foraging; and show how and where external lighting will be installed (through the provision of appropriate lighting contour plans, Isolux drawings and technical specifications) so that it can be clearly demonstrated that areas to be lit will not disturb or prevent bats using their territory.

All external lighting shall be installed in accordance with the specifications and locations set out in the scheme and maintained thereafter in accordance with the scheme. Under no circumstances should any other external lighting be installed without prior consent from the local planning authority.

Reason - To allow the LPA to discharge its duties under the Conservation of Habitats and Species Regulations 2017 (as amended), the Wildlife & Countryside Act 1981 as amended and s40 of the NERC Act 2006 (Priority habitats & species) and in accordance with Policy EN6 of the adopted Local Plan.

- 6 No above ground works shall take place until a Biodiversity Enhancement Strategy for Protected and Priority species is submitted to and approved in writing by the local planning authority.

The content of the Biodiversity Enhancement Strategy shall include the following:

- i. Purpose and conservation objectives for the proposed enhancement measures;
- ii. detailed designs to achieve stated objectives;
- iii. locations of proposed enhancement measures by appropriate maps and plans;
- iv. persons responsible for implementing the enhancement measures;
- v. details of initial aftercare and long-term maintenance (where relevant).

The works shall be implemented in accordance with the approved details and shall be retained in that manner thereafter.

Reason -To enhance Protected and Priority Species/habitats and allow the LPA to discharge its duties under the s40 of the NERC Act 2006 (Priority habitats & species).

- 7 The approved building shall be used for the storage of clean straw to fuel the biomass boiler on the site, and for no other purposes, as agricultural storage or otherwise, unless agreed in writing by the Local Planning Authority.

Reason - To protect local amenity from any potential harmful impacts of the use of the building.

Assistant Director

Standard Informative 3: If the development includes the construction of a new building on or at the boundary of 2 properties, work to an existing party wall or party structure or involve excavation near to and below the foundation level of neighbouring buildings, you are advised that the provisions of the Party Wall Act 1996 may apply to this development.
