

Mr Peter Le Grys - Stanfords The Livestock Market Wyncolls Road Colchester CO4 9HU Planning Services Town Hall Station Road Clacton on Sea Essex CO15 1SE

Please ask for Naomi Hart Tel: 686137 Email: nhart@tendringdc.gov.uk

Our Ref: 22/01018/COUNOT

8 August 2022

To Whom it may concern,

## TOWN AND COUNTRY PLANNING (GENERAL PERMITTED DEVELOPMENT) (ENGLAND) ORDER 2016

APPLICATION NO: 22/01018/COUNOT PROPOSAL: Proposed amendments to design of Barn 1 as approved under prior approval 21/00242/COUNOT.

LOCATION: Whitehall Farm Whitehall Lane Thorpe Le Soken Clacton On Sea

Thank you for your notification on the above matter which was received on 15 June 2022 and made valid on 15 June 2022 and was allocated the reference **22/01018/COUNOT.** 

I can now advise you that this proposal will **not** require prior approval of the Local Planning Authority.

The proposal constitutes permitted development as defined in Schedule 2, Part 3, Class Q of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended) and may therefore be carried out providing that it is wholly in accordance with the legislation.

## **Conditions**

1 The development must not begin before the occurrence of the receipt by the applicant from the local planning authority of a written notice of their determination that such prior approval is not required.

Reason - In order to comply Schedule 2, Part 3, Class Q of The Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended).

2 Development under Class Q is permitted subject to the condition that development under Class Q(a), and under Class Q(b), if any, must be completed within a period of 3 years starting with the prior approval date.

Reason - In order to comply Schedule 2, Part 3, Class Q of The Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended).

3 The development must be carried out (b) where prior approval is not required, or where

Chief Executive Ian Davidson www.tendringdc.gov.uk minicom 01255 475566 sub-paragraph (11)(c) applies, in accordance with the details provided in the application referred to in sub-paragraph (1), unless the local planning authority and the developer agree otherwise in writing.

Reason - In order to comply Schedule 2, Part 3, Class Q of The Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended).

4 If during construction/demolition works evidence of potential contamination is encountered, works shall cease and the site fully assessed to enable an appropriate remediation plan to be developed.

Works shall not re-commence until an appropriate remediation scheme has been submitted to, and approved in writing by, the Local Planning Authority and the remediation has been completed.

Upon completion of the building works, this condition shall not be discharged until a closure report has been submitted to and approved in writing by the Local Planning Authority. The closure report shall include details of;

- a) Details of any sampling and remediation works conducted and quality assurance certificates to show that the works have been carried out in full in accordance with the approved methodology.
- b) Details of any post-remedial sampling and analysis to show the site has reached the required clean-up criteria shall be included in the closure report together with the necessary documentation detailing what waste materials have been removed from the site.
- c) If no contamination has been discovered during the build then evidence (e.g. photos or letters from site manager) to show that no contamination was discovered should be included.

Reason - To ensure that any risks from land contamination to the future users of the land and neighbouring land are minimised.

5 Should any asbestos containing materials be present on the development site, or used within the original construction of the building in question, they must be safely removed by a qualified contractor, with relevant transfer notes being obtained to confirm safe and responsible removal and disposal.

Reason - to protect the health of site workers and end users

Informatives

Noise Control

1) The use of barriers to mitigate the impact of noisy operations will be used where possible. This may include the retention of part(s) of the original buildings during the demolition process to act in this capacity.

2) No vehicle connected with the works to arrive on site before 07:30 or leave after 19:00 (except in the case of emergency). Working hours to be restricted between 08:00 and 18:00 Monday to Saturday (finishing at 13:00 on Saturday) with no working of any kind permitted on Sundays or any Public/Bank Holidays.

## **Emission Control**

1) All waste arising from the demolition process, ground clearance and construction processes to be recycled or removed from the site subject to agreement with the Local Planning Authority and other relevant agencies.

2) No materials produced as a result of the site development or clearance shall be burned on site.

3) All reasonable steps, including damping down site roads, shall be taken to minimise dust and litter emissions from the site whilst works of construction and demolition are in progress.

4) All bulk carrying vehicles accessing the site shall be suitably sheeted to prevent nuisance from dust in transit.

**Dust Control** 

1) Dust suppression methods to be employed during construction so as to minimize likelihood of nuisance being caused to neighbouring properties. A scheme of measures for the control and suppression of dust emissions shall be submitted.

Adherence to the above condition will significantly reduce the likelihood of public complaint and potential enforcement action by Environmental Protection. The condition gives the best practice for Demolition and Construction sites. Failure to follow them may result in enforcement action under nuisance legislation (Environmental Protection Act 1990), or the imposition of controls on working hours (Control of Pollution Act 1974).

If you require any clarification on this matter or further information, please contact the case officer Naomi Hart on 686137.

Yours faithfully

Graham Nourse Assistant Director Planning Service
