TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO: 22/00141/OUT

DATE REGISTERED: 24th January 2022

Proposed Development and Location of the Land:

**Proposed demolition of redundant care home and erection of 2-storey residential care home and associated external works (all matters reserved).
Well House Chestnut Way Brightlingsea Colchester**

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **DO HEREBY GRANT OUTLINE PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted, subject to the following conditions;

- 1 Application for the approval of Reserved Matters must be submitted before the expiration of three years from the date of this permission.

Reason - To comply with the requirements of Section 92 of the Town and Country Planning Act 1990.

- 2 The development hereby permitted shall be begun before the expiration of 2 years from the date of approval of the last of the Reserved Matters to be approved.

Reason - To comply with the requirements of Section 92 of the Town and Country Planning Act 1990 as amended by the Planning and Compulsory Purchase Act 2004.

- 3 No development shall be commenced until plans and particulars of "the Reserved Matters" referred to in the above conditions relating to the Access, Appearance, Landscaping, Layout and Scale have been submitted to and agreed in writing, by the Local Planning Authority. The development shall be carried out in accordance with the approved details.

Reason - The application as submitted does not provide sufficient particulars for consideration of these details.

- 4 Concurrently with the reserved matters, a scheme for the provision of electric vehicle charging facilities shall be submitted to and approved in writing by the Local Planning Authority. The charging facilities shall be installed in accordance with the approved details and retained in working order.

Reason - In order to promote sustainable transport.

- 5 All applications for approval of reserved matters shall be submitted in accordance with, and within the site boundary areas as indicated on the 'Location Plan Scale 1:1250 @ A4' relating to the site the subject of this outline approval.

Reason - In the interests of securing a satisfactory development.

- 6 Prior to the commencement of any demolition or construction development, a Demolition and Construction Method Statement shall be submitted to and approved in writing by the local planning authority. The Construction Method Statement shall provide for:

- safe access to/from the site;
- the parking of vehicles of site operatives and visitors;
- the loading and unloading of plant and materials;
- the storage of plant and materials used in constructing the development;
- wheel washing facilities;
- measures to control the emission of dust and dirt during demolition and construction;
- a scheme for recycling/disposing of waste resulting from demolition and construction works;
- details of hours of deliveries relating to the demolition and construction of the development;
- details of hours of site clearance or construction;
- a scheme to control noise and vibration during the demolition and construction phase, including details of any piling operations.

The approved Construction Method Statement shall be adhered to throughout the construction period for the development.

Reason - In the interests of residential amenity and highway safety.

- 7 Prior to the commencement of any above ground works, a plan indicating the positions, design, materials and type of all boundary treatments to be erected shall be submitted. The approved boundary treatment shall be implemented before the occupation of the development and retained in this approved form unless otherwise agreed in writing by the Local Planning Authority.

Reason - In the interests of visual amenity and the character of the area.

- 8 All new parking areas and areas of hardstanding shall be made of porous materials, or provision shall be made to direct run-off water from the hard surface to a permeable or porous area within the site.

Reason - In the interests of sustainable development and to minimise the risk of surface water flooding.

- 9 The development hereby approved shall be used solely for a Residential Care Home for the elderly and infirm and no other use within Class C2 of the Town and Country Planning (Use Classes) Order 1987 (as amended) or those permitted by the Town and County Planning (General Permitted Development (England) Order) 2015 (as amended).

Reason - To ensure that the Local Planning Authority retain control over potential alternative uses in the interests of the character of the area, residential amenities and the provisions of the Recreational Disturbance Avoidance Mitigation Strategy.

- 10 The development shall be carried out in strict accordance with all mitigation and enhancement measures and/or works contained within the Preliminary Ecological Appraisal (James Blake Associates, May 2022) accompanying this application. This may include the appointment of an appropriately competent person e.g. an ecological clerk of works (ECoW) to provide on-site ecological expertise during construction. The appointed person shall undertake all activities, and works shall be carried out, in accordance with the approved details.

Reason - To conserve and enhance protected and Priority species and allow the LPA to discharge its duties under the Conservation of Habitats and Species Regulations 2017 (as amended), the Wildlife & Countryside Act 1981 as amended and s40 of the NERC Act 2006 (Priority habitats & species).

- 11 Concurrently with the submission of the Reserved Matters application, a Biodiversity Enhancement Strategy for protected and Priority species shall be submitted to and approved in writing by the Local Planning Authority following the details contained within Preliminary Ecological Appraisal (James Blake Associates, May 2022).

The content of the Biodiversity Enhancement Strategy shall include the following:

- a) Purpose and conservation objectives for the proposed enhancement measures;
- b) Detailed designs to achieve stated objectives;
- c) Locations of proposed enhancement measures by appropriate maps and plans;
- d) Persons responsible for implementing the enhancement measures;
- e) Details of initial aftercare and long-term maintenance (where relevant).

The works shall be implemented in accordance with the approved details prior to occupation and shall be retained in that manner thereafter.

Reason - To enhance protected and Priority species & habitats and allow the LPA to discharge its duties under the s40 of the NERC Act 2006 (Priority habitats & species).

- 12 Concurrently with the submission of the Reserved Matters application, a lighting design scheme sensitive to biodiversity shall be submitted to and approved in writing by the Local Planning Authority. The scheme shall identify those features on site that are particularly sensitive for bats and that are likely to cause disturbance along important routes used for foraging; and show how and where external lighting will be installed (through the provision of appropriate lighting plans, drawings and technical specifications) so that it can be clearly demonstrated that areas to be lit will not disturb or prevent bats using their territory.

All external lighting shall be installed in accordance with the specifications and locations set out in the scheme and maintained thereafter in accordance with the scheme. Under no circumstances should any other external lighting be installed without prior consent from then Local Planning Authority.

Reason - To allow the LPA to discharge its duties under the Conservation of Habitats and Species Regulations 2017 (as amended), the Wildlife & Countryside Act 1981 as amended and s40 of the NERC Act 2006 (Priority habitats & species).

- 13 No works except demolition shall take place until a detailed surface water drainage scheme for the site, based on sustainable drainage principles and an assessment of the hydrological and hydro geological context of the development, has been submitted to and approved in writing by the local planning authority. The scheme should include but not be limited to:

- Limiting discharge rates to 2l/s for all storm events up to and including the 1 in 100 year rate plus 40% allowance for climate change, subject to agreement with the relevant third party. All relevant permissions to discharge from the site into any outfall should be demonstrated.
- Provide sufficient storage to ensure no off site flooding as a result of the development during all storm events up to and including the 1 in 100 year plus 40% climate change event.
- Demonstrate that all storage features can half empty within 24 hours for the 1 in 30 plus 40% climate change critical storm event.
- Final modelling and calculations for all areas of the drainage system.
- The appropriate level of treatment for all runoff leaving the site, in line with the Simple Index Approach in chapter 26 of the CIRIA SuDS Manual C753.
- Detailed engineering drawings of each component of the drainage scheme.
- A final drainage plan which details exceedance and conveyance routes, FFL and ground levels, and location and sizing of any drainage features.
- A written report summarising the final strategy and highlighting any minor changes to the approved strategy.

The scheme shall subsequently be implemented prior to occupation. It should be noted that all outline applications are subject to the most up to date design criteria held by the LLFA.

Reason - To prevent flooding by ensuring the satisfactory storage of/disposal of surface water from the site. To ensure the effective operation of SuDS features over the lifetime of the development. To provide mitigation of any environmental harm which may be caused to the local water environment. Failure to provide the above required information before commencement of works may result in a system being installed that is not sufficient to deal with surface water occurring during rainfall events and may lead to increased flood risk and pollution hazard from the site.

- 14 Prior to occupation, a maintenance plan detailing the maintenance arrangements including who is responsible for different elements of the surface water drainage system and the maintenance activities/frequencies, has been submitted to and agreed, in writing, by the Local Planning Authority. Should any part be maintainable by a maintenance company, details of long term funding arrangements should be provided.

Reason - To ensure appropriate maintenance arrangements are put in place to enable the surface water drainage system to function as intended to ensure mitigation against flood risk. Failure to provide the above required information prior to occupation may result in the installation of a system that is not properly maintained and may increase flood risk or pollution hazard from the site.

- 15 The applicant or any successor in title must maintain yearly logs of maintenance which should be carried out in accordance with any approved Maintenance Plan. These must be available for inspection upon a request by the Local Planning Authority.

Reason - To ensure the SuDS are maintained for the lifetime of the development as outlined in any approved Maintenance Plan so that they continue to function as intended to ensure mitigation against flood risk.

- 16 There shall be no discharge of surface water onto the Highway.

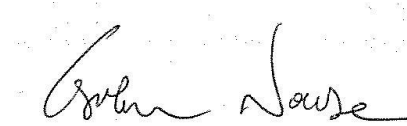

Reason - To prevent hazards caused by water flowing onto the highway and to avoid the formation of ice on the highway in the interest of highway safety.

- 17 Vehicle and cycle parking shall be provided in accordance with the EPOA Parking Standards and provided prior to occupation and retained at all times.

Reason - To ensure parking does not occur in the adjoining streets and in order to promote sustainable means of transport, in the interests of highway safety and amenity.

DATED: 28th July 2022

SIGNED:

Graham Nourse
Assistant Director

IMPORTANT INFORMATION :-

The local planning authority considers that the following policies and proposals in the development plan are relevant to the above decision:

NPPF National Planning Policy Framework July 2021

National Planning Practice Guidance

Tendring District Local Plan 2013-2033 and Beyond North Essex Authorities' Shared Strategic Section 1 Plan (adopted January 2021)

SP1 Presumption in Favour of Sustainable Development

SP3 Spatial Strategy for North Essex

SP4 Meeting Housing Needs

SP5 Employment

SP7 Place Shaping Principles

Tendring District Local Plan 2013-2033 and Beyond Section 2 (adopted January 2022)

SPL1 Managing Growth

SPL2 Settlement Development Boundaries

SPL3 Sustainable Design

HP1 Improving Health and Wellbeing

LP2 Housing Choice

LP10 Care, Independent Assisted Living

PP6 Employment Sites

PPL4 Biodiversity and Geodiversity

CP1 Sustainable Transport and Accessibility

PPL10 Renewable Energy Generation

Local Planning Guidance

Essex County Council Car Parking Standards - Design and Good Practice

EPOA Parking Standards 2009

Positive and Proactive Statement

The Local Planning Authority has acted positively and proactively in determining this application by identifying matters of concern within the application (as originally submitted) and negotiating, with the Applicant, acceptable amendments to the proposal to address those concerns. As a result, the Local Planning Authority has been able to grant planning permission for an acceptable proposal, in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

Local Lead Flood Authority Informatives

Essex County Council has a duty to maintain a register and record of assets which have a significant impact on the risk of flooding. In order to capture proposed SuDS which may form part of the future register, a copy of the SuDS assets in a GIS layer should be sent to suds@essex.gov.uk.

- Any drainage features proposed for adoption by Essex County Council should be consulted on with the relevant Highways Development Management Office.
- Changes to existing water courses may require separate consent under the Land Drainage Act before works take place. More information about consenting can be found in the attached standing advice note.
- It is the applicant's responsibility to check that they are complying with common law if the drainage scheme proposes to discharge into an off-site ditch/pipe. The applicant should seek consent where appropriate from other downstream riparian landowners.
- The Ministerial Statement made on 18th December 2014 (ref. HCWS161) states that the final decision regarding the viability and reasonableness of maintenance requirements lies with the LPA. It is not within the scope of the LLFA to comment on the overall viability of a scheme as the decision is based on a range of issues which are outside of this authority's area of expertise.
- We will advise on the acceptability of surface water and the information submitted on all planning applications submitted after the 15th of April 2015 based on the key documents listed within this letter. This includes applications which have been previously submitted as part of an earlier stage of the planning process and granted planning permission based on historic requirements. The Local Planning Authority should use the information submitted within this response in conjunction with any other relevant information submitted as part of this application or as part of preceding applications to make a balanced decision based on the available information.

We also have the following advisory comments:

- We strongly recommend looking at the Essex Green Infrastructure Strategy to ensure that the proposals are implementing multifunctional green/blue features effectively. The link can be found below. <https://www.essex.gov.uk/protecting-environment>
- Please note that the Environment Agency updated the peak rainfall climate change allowances on the 10 May 2022. planning application with outline approval are not required to adjust an already approved climate change allowance, however, wherever possible, in cases that do not have a finalised drainage strategy please endeavour to use the updated climate change figures

Flood risk assessments: climate change allowances - GOV.UK (www.gov.uk).

Highways Informatives

1. In making this recommendation the Highway Authority has treated all planning application drawings relating to the internal layout of the proposal site as illustrative only.
2. All highway related details should be agreed with the Highway Authority.
3. The proposal should be in accordance with the Parking Standards Design and Good Practice Supplementary Planning Document dated September 2009.

Standard Informative 1: The Provisions of the Essex Act 1987, Section 13 (Access for the Fire Brigade) may apply to this Development and will be determined at Building Regulation Stage.

Standard Informative 2: You are reminded that the carrying out of building works requires approval under the Building Regulations in many cases as well as a grant of planning permission. If you are in doubt as to whether or not the work, the subject of this planning permission, requires such approval, then you are invited to contact the Building Control section at Tendring District Council.

Standard Informative 3: If the development includes the construction of a new building on or at the boundary of 2 properties, work to an existing party wall or party structure or involve excavation near to and below the foundation level of neighbouring buildings, you are advised that the provisions of the Party Wall Act 1996 may apply to this development. An explanatory booklet concerning the implications of this Act is available online or from the District Council.

The attached notes explain the rights of appeal.

NOTES FOR GUIDANCE

WHEN PLANNING PERMISSION IS REFUSED OR GRANTED SUBJECT TO CONDITIONS

APPEALS TO THE SECRETARY OF STATE

- If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under Section 78 of the Town and Country Planning Act 1990.
- If you want to appeal, then you must do so within the set time frame as outlined below:
 - a. If this is a decision to refuse planning permission for a householder application, if you want to appeal against your local planning authority's decision then you must do so within **12 weeks** of the date of this notice. A **Householder Appeal Form** is required, available online at <https://www.gov.uk/planning-inspectorate>
 - b. If this is a decision to refuse planning permission for a minor commercial application, if you want to appeal against your local planning authority's decision then you must do so within **12 weeks** of the date of this notice. A **Planning Appeal Form** is required, available online at <https://www.gov.uk/planning-inspectorate>
 - c. If you want to appeal against your local planning authority's decision on a development which is not caught by a. and b. above then you must do so within **6 months** of the date of this notice. A **Planning Appeal Form** is required, available online <https://www.gov.uk/planning-inspectorate>
- Appeals must be made using the relevant form (as detailed above) which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN (Tel: 0303 444 5000) or online at <https://www.gov.uk/planning-inspectorate>. **Please note, only the applicant possesses the right of appeal.**
- The Secretary of State can allow a longer period for giving notice of an appeal, but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted permission for the proposed development or could not have granted it without the conditions imposed having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
- If you intend to submit an appeal that you would like examined by inquiry then you must notify the Local Planning Authority and Planning Inspectorate (inquiryappeals@planninginspectorate.gov.uk) at least 10 days before submitting the appeal. [Further details are on GOV.UK.](#)

ENFORCEMENT

- If this is a decision on a planning application relating to the same or substantially the same land and development as is already the subject of an enforcement notice, if you want to appeal against your local planning authority's decision on your application, then you must do so within 28 days of the date of this notice.
- If an enforcement notice is served relating to the same or substantially the same land and development as in your application and if you want to appeal against your local planning authority's decision on your application, then you must do so within 28 days of the date of service of the enforcement notice, or within 6 months (12 weeks in the case of a householder or minor commercial appeal) of the date of this notice, whichever period expires earlier.
