Application: 22/00360/COUNOT **Town / Parish:** Ardleigh Parish Council

Applicant: J Alden and N Poyntz

Address: 5 Hunters Chase Ardleigh Colchester

Development: Proposed conversion of an agricultural building into a dwellinghouse. (Barn B)

1. Town / Parish Council

Ardleigh Parish Council
22.03.2022

The Parish Council objects to this application. We do not consider that the proposals meet the intended requirements of the agricultural building conversion arrangements and that full Planning Permission may be required.

We specifically object to this application because the dwellings would be outside the Settlement Development Boundaries (SDB), would add pressure on local services, transport infrastructure and would not be sustainable since occupants would be reliant on cars. Hence, we consider that the application is not in accordance with the Tendring Local Plan, nor with the Ardleigh Neighbourhood Plan emerging policies as follows

- Housing Policy HP 1 'Housing development of any kind will be resisted outside the SDB unless it is full compliance with policy GDP...'- (which this is not),
- Community Facilities Policy CFP 4 'All applications that would result in a net addition of housing must be accompanied by... 'evidence that there is sufficient capacity at the GP surgery and Primary School to meet the needs arising from the new household(s); or B a proportionate financial contribution... would add pressure on local services'
- Natural Built and Historic Environment Policy EP The site is located within the former Land Settlement Association land, where horticultural smallholdings were provided in the 1930s. The Parish Council very much regrets the ribbon development which has already taken place within this area and wishes to resist further urbanisation and loss of agricultural land. We believe the proposal would contradict this emerging policy as it would have an urbanising effect (EP1b), and there could be permanent loss of versatile agricultural land (EP1f)

2. Consultation Responses

ECC Highways Dept
17.03.2022

Whilst the site is located in the countryside, it is not considered that the use of the building as a dwelling would give rise to a significant increase in vehicle movements to and from the site or result in a material change in the character of the traffic in the vicinity of the site.

The documents accompanying the planning application have been duly considered. Given the scale of the proposed development and the area to be available for parking within the site, which complies with Tendring District Councils adopted parking standards, the proposal is acceptable to the Highway Authority subject to the following requirement;

1. Prior to occupation of the proposed development, the Developer shall be responsible for the provision and implementation of a Residential Travel Information Pack per dwelling, for sustainable transport, approved by Essex County Council, (to include six one day travel vouchers for use with the relevant local public transport operator).

Reason: In the interests of reducing the need to travel by car and promoting sustainable development and transport in accordance with policies DM9 and DM10 of the Highway Authority's Development Management Policies, adopted as County Council Supplementary Guidance in February 2011.

Informative

1. On the completion of the Development, all roads, footways/paths, cycle ways, covers, gratings, fences, barriers, grass verges, trees, and any other street furniture within the Site and in the area it covers and any neighbouring areas affected by it, must be left in a fully functional repaired/renovated state to a standard accepted by the appropriate statutory authority.

2. Prior to commencement of the development, the areas within the curtilage of the site for the purpose of loading / unloading / reception and storage of building materials and manoeuvring of all vehicles, including construction traffic shall be provided clear of the highway. To ensure that appropriate loading / unloading facilities are available to ensure that the highway is not obstructed during the construction period in the interest of highway safety in accordance with policy DM1.

3. All work within or affecting the highway is to be laid out and constructed by prior arrangement with and to the requirements and specifications of the Highway Authority; all details shall be agreed before the commencement of works.

The applicants should be advised to contact the Development Management Team by email at development.management@essexhighways.org

4. Relevant Policies / Government Guidance

Not Applicable

Status of the Local Plan

Planning law requires that decisions on applications must be taken in accordance with the development plan unless there are material considerations that indicate otherwise (Section 70(2) of the 1990 Town and Country Planning Act and Section 38(6) of the Planning and Compulsory Purchase Act 2004). This is set out in Paragraph 2 of the National Planning Policy Framework (the Framework). The 'development plan' for Tendring comprises, in part, Sections 1 and 2 of the Tendring District Council 2013-33 and Beyond Local Plan (adopted January 2021 and January 2022, respectively), together with any neighbourhood plans that have been brought into force.

In relation to housing supply:

The Framework requires Councils boost significantly the supply of housing to meet objectively assessed future housing needs in full. In any one year, Councils must be able to identify five years of deliverable housing land against their projected housing requirements (plus an appropriate buffer to ensure choice and competition in the market for land, to account for any fluctuations in the market or to improve the prospect of achieving the planned supply). If this is not possible or if housing delivery over the previous three years has been substantially below (less than 75%) the housing requirement, Paragraph 11 d) of the Framework requires granting permission unless any adverse impacts of doing so would significantly and demonstrably outweigh the benefits when assessed against the policies in the Framework taken as a whole (what is often termed the 'tilted balance').

The Local Plan fixes the Council's housing requirement at 550 dwellings per annum. On 19 October 2021 the Council's Strategic Housing Land Availability Assessment (SHLAA) updated the housing land supply position. The SHLAA demonstrates in excess of a six-and-a-half-year supply of deliverable housing land. On 14 January 2022 the Government published the Housing Delivery Test (HDT) 2021 measurement. Against a requirement for 1420 homes for 2018-2021, the total number of homes delivered was 2345. The Council's HDT 2021 measurement was therefore 165%. As a result, the 'tilted balance' at paragraph 11 d) of the Framework does not apply to applications for housing.

5. Officer Appraisal (including Site Description and Proposal)

Site Description

The application site relates to Barn B at 5 Hunters Chase, Ardleigh.

Proposal

This application is submitted under Class Q, Part 3 of Schedule 2 of the Town and Country Planning (General Permitted Development) (England) Order 2015 to determine whether prior approval will be required for the change of use of one agricultural building into one dwelling.

Assessment

Schedule 2, Part 3, Class Q of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended) sets out permitted development the criteria under which development is not permitted as follows (officer assessment shown in bold text):

Class Q - agricultural buildings to dwellinghouses

Q. Development consisting of –

- (a) a change of use of a building and any land within its curtilage from a use as an agricultural building to a use falling within Class C3 (dwellinghouses) of the Schedule to the Use Classes Order; or

- (b) development referred to in paragraph (a) together with building operations reasonably necessary to convert the building referred to in paragraph (a) to a use falling within Class C3 (dwellinghouses) of that Schedule.

Q.1 Development is not permitted by Class Q if –

- (a) the site was not used solely for an agricultural use as part of an established agricultural unit -
 - (i) on 20th March 2013, or
 - (ii) in the case of a building which was in use before that date but was not in use on that date, when it was last in use, or
 - (iii) in the case of a site which was brought into use after 20th March 2013, for a period of at least 10 years before the date development under Class Q begins;

The site was used solely for an agricultural use as part of an established agricultural unit on 20th March 2013. The proposal complies.

- (b) in the case of -
 - (i) a larger dwellinghouse, within an established agricultural unit -
 - (aa) the cumulative number of separate larger dwellinghouses developed under Class Q exceeds 3; or
 - (bb) the cumulative floor space of the existing building or buildings changing use to a larger dwellinghouse or dwellinghouses under Class Q exceeds 465 square metres;

Interpretation: "larger dwellinghouse" means a dwellinghouse developed under Class Q which has a floor space of more than 100 square metres and no more than 465 square metres having a use falling within Class C3 (dwellinghouses) of the Schedule to the Use Classes Order.

- (c) in the case of -
 - (i) a smaller dwellinghouse, within an established agricultural unit -
 - (aa) the cumulative number of separate smaller dwellinghouses developed under Class Q exceeds 5; or
 - (bb) the floor space of any one separate smaller dwellinghouse having a use falling within Class C3 (dwellinghouses) of the Schedule to the Use Classes Order exceeds 100 square metres;

Interpretation: "smaller dwellinghouse" means a dwellinghouse developed under Class Q which has a floor space of no more than 100 square metres having a use falling within Class C3 (dwellinghouses) of the Schedule to the Use Classes Order

The proposed development comprises of 1 larger dwelling house with an entrance hall, living, kitchen and dining room with 3 bedrooms and a bathroom.

The proposed floor area measures approximately 110 square metres which is under the 465 square metre threshold. The proposal complies.

- (d) the development under Class Q (together with any previous development under Class Q) within an established agricultural unit would result in either or both of the following -
 - (i) a larger dwellinghouse or larger dwellinghouses having more than 465 square metres of floor space having a use falling within Class C3 (dwellinghouses) of the Schedule to the Use Classes Order;
 - (ii) the cumulative number of separate dwellinghouses having a use falling within Class C3 (dwellinghouses) of the Schedule to the Use Classes Order exceeding 5;

The development under Class Q (together with any previous development under Class Q) within an established agricultural unit would not result in either or both a larger dwellinghouse or larger dwellinghouses having more than 465 square metres of floor space the cumulative number of separate dwellinghouses having a use falling within Class C3 (dwellinghouses) of the Schedule to the Use Classes Order exceeding 5. The proposal complies.

(e) the site is occupied under an agricultural tenancy, unless the express consent of both the landlord and the tenant has been obtained;

The site is not occupied under an agricultural tenancy. The proposal complies.

- (f) less than 1 year before the date development begins -
- (i) an agricultural tenancy over the site has been terminated, and
- (ii) the termination was for the purpose of carrying out development under Class Q, unless both the landlord and the tenant have agreed in writing that the site is no longer required for agricultural use;

Less than 1 year before the date development begins an agricultural tenancy over the site has not been terminated. The proposal complies.

- (g) development under Class A(a) or Class B(a) of Part 6 of this Schedule (agricultural buildings and operations) has been carried out on the established agricultural unit -
- (i) since 20th March 2013; or
- (ii) where development under Class Q begins after 20th March 2023, during the period which is 10 years before the date development under Class Q begins;

No development under Class A(a) or Class B(a) of Part 6 of this Schedule (agricultural buildings and operations) has been carried out on the established agricultural unit since 20th March 2013 or where development under Class Q begins after 20th March 2023, during the period which is 10 years before the date development under Class Q begins. The proposal complies.

- (h) the development would result in the external dimensions of the building extending beyond the external dimensions of the existing building at any given point.

The development would not result in the external dimensions of the building extending beyond the external dimensions of the existing building at any given point. The proposal complies.

- (i) the development under Class Q(b) would consist of building operations other than -
- (i) the installation or replacement of -
- (aa) windows, doors, roofs, or exterior walls, or
- (bb) water, drainage, electricity, gas or other services,
- to the extent reasonably necessary for the building to function as a dwellinghouse; and
- (ii) partial demolition to the extent reasonably necessary to carry out building operations allowed by paragraph Q.1(i)(i);

the development under Class Q(b) would not consist of building operations other than the installation or replacement of windows, doors, roofs, or exterior walls or water, drainage, electricity, gas or other services to the extent reasonably necessary for the building to function as a dwellinghouse; and partial demolition to the extent reasonably necessary to carry out building operations allowed by paragraph Q.1(i)(i). the proposal complies.

- (j) the site is on article 2(3) land;

The site is not on article 2(3) land. The proposal complies.

- (k) the site is, or forms part of -
- (i) a site of special scientific interest;
- (ii) a safety hazard area;
- (iii) a military explosives storage area;

The site is not nor forms part of a site of special scientific interest, a safety hazard area or a military explosives storage area. The proposal complies.

- (l) the site is, or contains, a scheduled monument; or

The site is not nor contains, a scheduled monument. The proposal complies.

(m) the building is a listed building.

The building is not a listed building. The proposal complies.

Conditions

Q.2 - (1) Where the development proposed is development under Class Q(a) together with development under Class Q(b), development is permitted subject to the condition that before beginning the development, the developer must apply to the local planning authority for a determination as to whether the prior approval of the authority will be required as to –

- (a) transport and highways impacts of the development
- (b) noise impacts of the development
- (c) contamination risks on the site
- (d) flooding risks on the site
- (e) whether the location or siting of the building makes it otherwise impractical or undesirable for the building to change from agricultural use to a use falling within Class C3 (dwellinghouses) of the Schedule to the Use Classes Order.
- (f) the design or external appearance of the building and
- (g) the provision of adequate natural light in all habitable rooms of the dwellinghouses and the provisions of paragraph W (prior approval) of this Part apply in relation to that application.

(a) Transport and Highways Impacts of the Development

Essex County Council Highway Authority raise no objection to the development subject to conditions, which will be imposed where necessary. The site can accommodate sufficient parking in line with Essex Parking Standards. The proposal complies.

(b) Noise Impacts of the Development

The proposal would not result in any material noise impacts and is situated a sufficient distance from any noise sensitive premises in the locality. Therefore, this criterion is met. The proposal complies.

(c) Contamination Risks on the Site

The site is not located near to any land designated as contaminated land. The proposal complies.

(d) Flooding Risks on the Site

The site is located outside of an area of recognised flood risk. The proposal complies.

(e) Whether the Location or Siting of the Building is Impractical or Undesirable for the Building to Change

Paragraph 109 of the National Planning Practice Guidance states:

"When considering whether it is appropriate for the change of use to take place in a particular location, a local planning authority should start from the premise that the permitted development right grants planning permission, subject to the prior approval requirements. That an agricultural building is in a location where the local planning authority would not normally grant planning permission for a new dwelling is not a sufficient reason for refusing prior approval. There may, however, be circumstances where the impact cannot be mitigated. Therefore, when looking at location, local planning authorities may, for example, consider that because an agricultural building on the top of a hill with no road access, power source or other services its

conversion is impractical. Additionally the location of the building whose use would change may be undesirable if it is adjacent to other uses such as intensive poultry farming buildings, silage storage or buildings with dangerous machines or chemicals.

When a local authority considers location and siting it should not therefore be applying tests from the National Planning Policy Framework except to the extent these are relevant to the subject matter of the prior approval. So, for example, factors such as whether the property is for a rural worker, or whether the design is of exceptional quality or innovative, are unlikely to be relevant." On this basis, the Local Planning Authority does not consider that the location or siting of the building would make it impractical or undesirable for the proposed change of use.

The proposal complies.

(f) The Design or External Appearance of the Building

The works involved in the change of use would be limited and are sought to preserve the existing character and appearance of the buildings. The resulting building would therefore have an acceptable visual impact on the character and appearance of the surroundings. Therefore the Local Planning Authority does not consider that the proposed development will have any significant impact on the design or external appearance of the building.

(g) The Provision of Adequate Natural Light in all Habitable Rooms of the Dwellinghouses
 Habitable Rooms are defined as "any rooms used or intended to be used for sleeping or living which are not solely used for cooking purposes, but does not include bath or toilet facilities, service rooms, corridors, laundry rooms, hallways or utility rooms". **Drawing No. AHC-02 indicates that each habitable room will have adequate natural light.**

Nationally described space standards deals with internal space within new dwellings and is suitable for application across all tenures. It sets out requirements for the gross internal floor area of new dwellings at a defined level of occupancy as well as floor areas and dimensions for key parts of home and, in accordance with paragraph 130 of the NPPF, seeks to secure a good standard of amenity for all existing and future occupants of land and buildings.

	Storeys	Bedrooms	Bed Spaces	NDSS Floor Space	Actual Floor Space	Compliance
Barn B	1	3	5	86	110	Yes

6. Recommendation

Prior Approval Not Required

7. Conditions / Reasons for Refusal

- 1 The development must not begin before the occurrence of the receipt by the applicant from the local planning authority of a written notice of their determination that such prior approval is not required.

Reason - In order to comply Schedule 2, Part 3, Class Q of The Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended).

- 2 The development must be carried out (b) where prior approval is not required, or where sub-paragraph (11)(c) applies, in accordance with the details provided in the application referred to in sub-paragraph (1), unless the local planning authority and the developer agree otherwise in writing.

Reason - In order to comply Schedule 2, Part 3, Class Q of The Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended).

- 3 Development under Class Q is permitted subject to the condition that development under Class Q(a), and under Class Q(b), if any, must be completed within a period of 3 years starting with the prior approval date.

Reason - In order to comply Schedule 2, Part 3, Class Q of The Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended).

- 4 If during construction/demolition works evidence of potential contamination is encountered, works shall cease and the site fully assessed to enable an appropriate remediation plan to be developed. Works shall not re-commence until an appropriate remediation scheme has been submitted to, and approved in writing by, the Local Planning Authority and the remediation has been completed.
 Upon completion of the building works, this condition shall not be discharged until a closure report has been submitted to and approved in writing by the Local Planning Authority. The closure report shall include details of;
- a) Details of any sampling and remediation works conducted and quality assurance certificates to show that the works have been carried out in full in accordance with the approved methodology.
 - b) Details of any post-remedial sampling and analysis to show the site has reached the required clean-up criteria shall be included in the closure report together with the necessary documentation detailing what waste materials have been removed from the site.
 - c) If no contamination has been discovered during the build then evidence (e.g. photos or letters from site manager) to show that no contamination was discovered should be included.

Reason - To ensure that any risks from land contamination to the future users of the land and neighbouring land are minimised.

- 5 Should any asbestos containing materials be present on the development site, or used within the original construction of the building in question, they must be safely removed by a qualified contractor, with relevant transfer notes being obtained to confirm safe and responsible removal and disposal.

Reason - to protect the health of site workers and end users

8. Informatives
