Status of the Local Plan

Planning law requires that decisions on applications must be taken in accordance with the development plan unless there are material considerations that indicate otherwise (Section 70(2) of the 1990 Town and Country Planning Act and Section 38(6) of the Planning and Compulsory Purchase Act 2004). This is set out in Paragraph 2 of the National Planning Policy Framework (the Framework). The 'development plan' for Tendring comprises, in part, Sections 1 and 2 of the Tendring District Council 2013-33 and Beyond Local Plan (adopted January 2021 and January 2022, respectively), together with any neighbourhood plans that have been brought into force.

5. Officer Appraisal (including Site Description and Proposal)

Application Site

The site comprises of a two storey detached dwelling located within the development boundary.

Proposal

This application seeks planning permission for the erection of single storey rear extension (following demolition of existing extension).

Assessment

Design and Appearance

The proposal will be to the rear of and largely screened by the host dwelling.

In the event that views are achieved from Thorpe Road these will be minimal given its set back from the streetscene and would not be detrimental to the character and appearance of the existing house or the locale.

The proposal is of a suitable size and scale in relation to the existing house and will be finished in materials which are consistent with the host dwelling.

The site is of as suitable size to accommodate the extension and retain a suitable area of private amenity space.

Impact on Neighbours

The proposal will be suitably set off of shared boundaries and predominantly screened by boundary fencing preventing it from resulting in a significant loss of amenities to neighbouring sites.

Other Considerations

Frinton and Walton Town Council recommend approval.
There have been no letters of representation received.

Conclusion

In the absence of material harm resulting from the proposed development the application is recommended for approval.

6. Recommendation
