#### **Status of the Local Plan**

Planning law requires that decisions on applications must be taken in accordance with the development plan unless there are material considerations that indicate otherwise (Section 70(2) of the 1990 Town and Country Planning Act and Section 38(6) of the Planning and Compulsory

Purchase Act 2004). This is set out in Paragraph 2 of the National Planning Policy Framework (the Framework). The 'development plan' for Tendring comprises, in part, Sections 1 and 2 of the Tendring District Council 2013-33 and Beyond Local Plan (adopted January 2021 and January 2022, respectively), together with any neighbourhood plans that have been brought into force.

In relation to housing supply:

The Framework requires Councils boost significantly the supply of housing to meet objectively assessed future housing needs in full. In any one year, Councils must be able to identify five years of deliverable housing land against their projected housing requirements (plus an appropriate buffer to ensure choice and competition in the market for land, to account for any fluctuations in the market or to improve the prospect of achieving the planned supply). If this is not possible or if housing delivery over the previous three years has been substantially below (less than 75%) the housing requirement, Paragraph 11 d) of the Framework requires granting permission unless any adverse impacts of doing so would significantly and demonstrably outweigh the benefits when assessed against the policies in the Framework taken as a whole (what is often termed the 'tilted balance').

The Local Plan fixes the Council's housing requirement at 550 dwellings per annum. On 19 October 2021 the Council's Strategic Housing Land Availability Assessment (SHLAA) updated the housing land supply position. The SHLAA demonstrates in excess of a six-and-a-half-year supply of deliverable housing land. On 14 January 2022 the Government published the Housing Delivery Test (HDT) 2021 measurement. Against a requirement for 1420 homes for 2018-2021, the total number of homes delivered was 2345. The Council's HDT 2021 measurement was therefore 165%. As a result, the 'tilted balance' at paragraph 11 d) of the Framework does not apply to applications for housing.

## **5. Officer Appraisal (including Site Description and Proposal)**

### Description of proposal

The application seeks a Lawful Development Certificate for a Proposed Development, in this case a brick built single storey rear extension. A lawful use certificate is, 'a certificate issued by a local planning authority, on application, stating that an existing (LDC 191) or proposed use (LDC 192), or other forms of development, can be considered as lawful for planning purposes'.

The plans submitted with the application show the extension.

### Assessment

Main considerations are;

- Planning History
- General Permitted Development Order

### Planning History

There is no planning history for the property restricting permitted development rights; therefore, these rights for the property still exist.

### General Permitted Development Order

This application seeks a lawful development certificate for a proposed development, relating to a single storey rear extension. The aim of this application is to establish whether or not this development would require planning permission. The certificate issued would state that the development is lawful and not at risk of being subject to enforcement action.

To establish whether the proposed development is permitted development reference needs to be made to The Town and Country Planning (General Permitted Development) (England) Order 2015.
