TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO: 22/00171/FUL **DATE REGISTERED:** 16th March 2022

Proposed Development and Location of Land:

Erection of a new timber framed dwelling following the demolition of existing agricultural barn.

Apple Blossom Paddocks Brightlingsea Road Thorrington Essex

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY <u>HEREBY</u> <u>REFUSE PLANNING PERMISSION</u> in accordance with the application form, supporting documents and plans submitted for the following reason(s)

Policy SP3 of Section 1 of the 2013-2033 Local Plan sets out the spatial strategy for North Essex and directs growth towards existing settlements. The application site lies outside of a defined settlement boundary in the 2013-2033 Local Plan, with the nearest settlement of Thorrington located to the north and Brightlingsea to the south. The proposed development would therefore extend beyond the area planned to provide growth for this settlement.

In view of the housing land supply position, the Council does not need to look beyond identified settlements to meet its housing requirement. The proposal therefore gives rise to harm through failing to comply with a statutory plan-led approach to the location of future housing. In view of this, the proposal's conflict with policy gives rise to a significant degree of harm. The spatial strategy of Policy SP3 and place shaping principles of Policy SP7 reflect the Framework's sustainable development objectives and the proposal's conflict with both is given full weight. The principle of development is therefore not acceptable in this location.

Paragraph 130 of the National Planning Policy Framework 2021 requires that developments are sympathetic to local character and maintain a strong sense of place. Policy SP7 of Section 1 of the adopted Local Plan 2013-33 and Beyond seeks high standards of design, which respond positively to local character and context. Policies SPL3 and LP4 of Section 2 of the adopted Local Plan also require that developments deliver new dwellings that are designed to high standards and which, together with a well-considered site layout relate well to its site and surroundings. Furthermore, adopted Local Plan Policy LP8 states proposals for the residential development of backland sites must not be out of character with the area and set a harmful precedent, and should not provide a long and narrow driveway.

The surrounding area consists of a defined and linear pattern of development, with

dwellings running north to south along this section of Brightlingsea Road in a linear patters. The siting of the proposed dwelling to the rear of these dwellings would appear contrived, incongruous and out of character within this setting, resulting in a harmful form of development contrary to the above policies. It would appear visually harmful and would set a direct precedent for similar forms of development along this section of Brightlingsea Road, particularly to the south, which combined would contribute to the significant erosion of the semi-rural character, and detrimental to the above local and national planning policies.

In addition, the access point to the dwelling will be a long, narrow and convoluted means of entering/exiting the development, and would not accord with the above planning policies.

Paragraph 55 of the National Planning Policy Framework (2021) states Local Planning Authorities should consider whether otherwise unacceptable development could be made acceptable through the use of conditions or planning obligations. Paragraph 57 of the NPPF states planning obligations must only be sought where they are necessary to make the development acceptable in planning terms, directly relate to the development and fairly and reasonably relate in scale and kind to the development.

Section 2 Policy HP5 states that the Council will work with partners and sports providers across the district to maintain, expand and improve the quality and accessibility of public open space, sports and recreational facilities of different types and will aim to achieve and exceed standards set out in the Council's 2017 Open Spaces Strategy or any future update. Financial contributions will also be sought through s106 legal agreements (or an appropriate alternative mechanism) towards ongoing maintenance.

There is currently a deficit of 0.4 hectares of formal open space in Thorrington, and a contribution towards play and open space is justified and relevant to this planning application. Any contribution would be used to install an adult gym and childrens play equipment at the open space/play area at Chapel Lane, Thorrington.

A completed unilateral undertaking to secure the above-mentioned planning obligation has not been provided and the application is therefore contrary to the above-mentioned policies.

4 Under the Habitats Regulations, a development which is likely to have a significant effect or an adverse effect (alone or in combination) on a European designated site must provide mitigation or otherwise must satisfy the tests of demonstrating 'no alternatives' and 'reasons of overriding public interest'. There is no precedent for a residential development meeting those tests, which means that all residential development must provide mitigation.

The application scheme proposes a residential on a site that lies within the Zone of Influence (ZoI) being approximately being approximately 350 metres from the Colne Estuary Ramsar site and Special Protection Area. New housing development within the ZoI would be likely to increase the number of recreational visitors to these sites and in combination with other developments it is likely that the proposal would have significant effects on the designated site. Mitigation measures must therefore be secured prior to occupation.

A completed unilateral undertaking has not been provided to secure this legal obligation. As submitted, there is no certainty that the development would not adversely affect the integrity of European Designated Sites and the application is therefore contrary to Policy PPL4 of the Adopted Tendring District Local Plan 2013-2033 and Regulation 63 of the Conservation of Habitat and Species Regulations 2017.
