TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO: 21/02177/FUL

DATE REGISTERED: 29th December 2021

Proposed Development and Location of the Land:

**Demolition of existing dwelling and construction of a new dwelling.
35 Tower Estate St Osyth Clacton On Sea Essex**

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY GRANT PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted, subject to the following conditions;

- 1 The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

Reason - To comply with the requirements of Section 91 of the Town and Country Planning Act 1990, as amended by the Planning and Compulsory Purchase Act 2004.

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans:

- Drawing No. P501 - Proposed Site Plan
- Drawing No. P503 - Lower Ground and Upper Floor Plan
- Drawing No. P505 - Proposed First Floor Plan and Roof Plan
- Drawing No. P508 - Proposed cross section
- Drawing No. P510 - Proposed Elevations
- Drawing No. P515 - Proposed Streetscenes

Reason - For the avoidance of doubt and in the interests of proper planning.

- 3 A Watching Brief shall be undertaken throughout the construction phases of the development hereby approved. In the event of unexpected ground conditions being encountered at any time during construction, all site works at the position of the suspected contamination shall stop and the local planning authority and environmental protection team notified. The following minimum requirements for dealing with unexpected ground conditions being encountered during construction shall be adhered to throughout and evidence of each stage reported in writing to the local planning authority for approval:

1. A suitably trained geo-environmental engineer should assess the visual and olfactory observations of the ground and the extent of contamination and the Client and the Local Authority should be informed of the discovery.
2. The suspected contaminated material will be investigated and tested appropriately in accordance with assessed risks. The investigation works will be carried out in the presence of a suitably qualified geo-environmental engineer. The investigation works will involve the collection of solid samples for testing and, using visual and olfactory observations of the ground, delineate the area over which contaminated materials are present.
3. The unexpected contaminated material will either be left in situ or be stockpiled (except if suspected to be asbestos) whilst testing is carried out and suitable assessments completed to determine whether the material can be re-used on site or requires disposal as appropriate.
4. The testing suite will be determined by the independent geo-environmental specialist based on visual and olfactory observations.
5. Test results will be compared against current assessment criteria suitable for the future use of the area of the site affected.
6. Where the material is left in situ awaiting results, it will either be reburied or covered with plastic sheeting.
7. Where the potentially contaminated material is to be temporarily stockpiled, it will be placed either on a prepared surface of clay, or on 2000-gauge Visqueen sheeting (or other impermeable surface) and covered to prevent dust and odour emissions.
8. Any areas where unexpected visual or olfactory ground contamination is identified will be surveyed and testing results incorporated into a Verification Report.
9. A photographic record will be made of relevant observations.
10. The results of the investigation and testing of any suspect unexpected contamination will be used to determine the relevant actions. After consultation with the Local Authority, materials should either be: -re-used in areas where test results indicate that it meets compliance targets so it can be re-used without treatment; or - treatment of material on site to meet compliance targets so it can be re-used; or -removal from site to a suitably licensed landfill or permitted treatment facility.
11. A Verification Report will be produced for the work.

Reason - To ensure the risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters, property and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors.

- 4 All new hard surfaced areas shall be made of porous materials, or provision shall be made to direct run-off water from the hard surface to a permeable or porous area or surface within the site.

Reason - In the interests of sustainable development and to ensure that run-off water is avoided

- 5 Notwithstanding the provisions of Article 3, Schedule 2, Part 1 of the Town and Country Planning (General Permitted Development) Order 2015 (as amended) (or any Order revoking and re-enacting that Order with or without modification), the windows shown on Drawing No. P510 to the first floor south eastern side elevation serving the bedroom, shall be non-opening below 1.7 metres above finished floor level and glazed in obscure glass prior to first occupation and shall thereafter be permanently retained in this approved form.

Reason - To protect the privacy and amenities of the occupiers of adjoining property

- 6 Notwithstanding the provisions of Article 3, Schedule 2, Part 1 of the Town and Country Planning (General Permitted Development) Order 2015 (as amended) (or any Order revoking and re-enacting that Order with or without modification), the windows shown on Drawing No. P510 to the upper ground floor serving the kitchen and living/dining area and the windows shown to the first floor side elevation serving the bathroom and kitchen, shall be non-opening below 1.7 metres above finished floor level and glazed in obscure glass prior to first occupation and shall thereafter be permanently retained in this approved form.

Reason - To protect the privacy and amenities of the occupiers of adjoining property

- 7 Notwithstanding the provisions of Article 3, Schedule 2, Part 1 of the Town and Country Planning (General Permitted Development) Order 1995 (or any Order revoking and re-enacting that Order with or without modification), the balcony shown on drawing no. P505 shall be glazed in obscure glass to a height of 1.8 metres on the South Easterly elevation prior to the balcony's first use and shall thereafter be permanently retained in this approved form.

Reason - To protect the privacy and amenities of the occupiers of the neighbouring property.

- 8 No excavations of existing back slope of embankment are permitted within a 45 degree repose from the junction of the property boundary and the property boundary and the promenade.

Reason- To ensure protection of the flood defences

- 9 There shall be no overhang of any part of the development or other paraphernalia at any time onto the crest of the seawall as this could impact access for maintenance.

Reason- To ensure access for the maintenance of the flood defences is kept clear.

- 10 No development shall take place, including any ground works or demolition, until a Construction Management Plan and associated site layout plan has been submitted to, and approved in writing by, the local planning authority. The approved plan shall be adhered to throughout the construction period. The Plan shall provide for:

- safe access to/from the site;
- the parking of vehicles of site operatives and visitors;
- the loading and unloading of plant and materials;
- the storage of plant and materials used in constructing the development;
- wheel washing facilities;
- measures to control the emission of dust and dirt during demolition and construction;
- a scheme for recycling/disposing of waste resulting from demolition and construction works;
- details of hours of deliveries relating to the demolition and construction of the development;
- details of hours of site clearance or construction;
- a scheme to control noise and vibration during the demolition and construction phase, including details of any piling operations.

Reason - In the interests of residential amenity and highway safety.

- 11 The hereby approved development shall only be implemented in full accordance with the agreed Floor Warning & Evacuation Plan updated April 2022. The Flood Warning Evacuation Plan shall remain in force for the duration of the occupation period and shall remain a live document and be updated where required.

Reason - The site is at risk from flooding and a detailed evacuation plan is essential to safeguard future occupiers of the development.

DATED: 11th May 2022

SIGNED:

Graham Nourse
Assistant Director

IMPORTANT INFORMATION :-

The local planning authority considers that the following policies and proposals in the development plan are relevant to the above decision:

NPPF National Planning Policy Framework July 2021

National Planning Practice Guidance

Tendring District Local Plan 2013-2033 and Beyond North Essex Authorities' Shared Strategic Section 1 Plan (adopted January 2021)

SP1 Presumption in Favour of Sustainable Development

SP3 Spatial Strategy for North Essex

SP4 Meeting Housing Needs

SP7 Place Shaping Principles

Tendring District Local Plan 2013-2033 and Beyond Section 2 (adopted January 2022)

SPL1 Managing Growth

SPL2 Settlement Development Boundaries

SPL3 Sustainable Design

HP5 Open Space, Sports & Recreation Facilities

LP1 Housing Supply

LP2 Housing Choice

LP3 Housing Density and Standards

LP4 Housing Layout

PPL1 Development and Flood Risk

PPL2 Coastal Protection Belt

CP1 Sustainable Transport and Accessibility

Positive and Proactive Statement

The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

Standard Informative 1: The Provisions of the Essex Act 1987, Section 13 (Access for the Fire Brigade) may apply to this Development and will be determined at Building Regulation Stage.

Standard Informative 2: You are reminded that the carrying out of building works requires approval under the Building Regulations in many cases as well as a grant of planning permission. If you are in doubt as to whether or not the work, the subject of this planning permission, requires such approval, then you are invited to contact the Building Control section at Tendring District Council.

Standard Informative 3: If the development includes the construction of a new building on or at the boundary of 2 properties, work to an existing party wall or party structure or involve excavation near to and below the foundation level of neighbouring buildings, you are advised that the provisions of the Party Wall Act 1996 may apply to this development. An explanatory booklet concerning the implications of this Act is available online or from the District Council.

The attached notes explain the rights of appeal.

NOTES FOR GUIDANCE

WHEN PLANNING PERMISSION IS REFUSED OR GRANTED SUBJECT TO CONDITIONS

APPEALS TO THE SECRETARY OF STATE

- If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under Section 78 of the Town and Country Planning Act 1990.
- If you want to appeal, then you must do so within the set time frame as outlined below:
 - a. If this is a decision to refuse planning permission for a householder application, if you want to appeal against your local planning authority's decision then you must do so within **12 weeks** of the date of this notice. A **Householder Appeal Form** is required, available online at <https://www.gov.uk/planning-inspectorate>
 - b. If this is a decision to refuse planning permission for a minor commercial application, if you want to appeal against your local planning authority's decision then you must do so within **12 weeks** of the date of this notice. A **Planning Appeal Form** is required, available online at <https://www.gov.uk/planning-inspectorate>
 - c. If you want to appeal against your local planning authority's decision on a development which is not caught by a. and b. above then you must do so within **6 months** of the date of this notice. A **Planning Appeal Form** is required, available online <https://www.gov.uk/planning-inspectorate>
- Appeals must be made using the relevant form (as detailed above) which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN (Tel: 0303 444 5000) or online at <https://www.gov.uk/planning-inspectorate>. **Please note, only the applicant possesses the right of appeal.**
- The Secretary of State can allow a longer period for giving notice of an appeal, but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted permission for the proposed development or could not have granted it without the conditions imposed having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
- If you intend to submit an appeal that you would like examined by inquiry then you must notify the Local Planning Authority and Planning Inspectorate (inquiryappeals@planninginspectorate.gov.uk) at least 10 days before submitting the appeal. [Further details are on GOV.UK.](#)

ENFORCEMENT

- If this is a decision on a planning application relating to the same or substantially the same land and development as is already the subject of an enforcement notice, if you want to appeal against your local planning authority's decision on your application, then you must do so within 28 days of the date of this notice.

- If an enforcement notice is served relating to the same or substantially the same land and development as in your application and if you want to appeal against your local planning authority's decision on your application, then you must do so within 28 days of the date of service of the enforcement notice, or within 6 months (12 weeks in the case of a householder or minor commercial appeal) of the date of this notice, whichever period expires earlier.
