**Variation of condition 2 of application 21/00867/FUL to amend the materials shown on approved drawing.

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY GRANT PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted, subject to the following conditions;

- 1 The development hereby permitted shall be begun before 29th October 2024.

Reason - To comply with the requirements of Section 91 of the Town and Country Planning Act 1990, as amended by the Planning and Compulsory Purchase Act 2004.

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans and document:

21/00867/FUL:

957/01a Proposed block plan.

957/loc a Amended site plan

957-03 Proposed garage floor plans and elevations

Materials shown in section 7 of the application form submitted with the application.

22/00562/VOC:

957/02 a Proposed floor plans and elevations

Reason - For the avoidance of doubt and in the interest of proper planning.

- 3 There should be no obstruction above ground level within a 2.4 m wide parallel band visibility splay as measured from and along the nearside edge of the carriageway across the entire site frontage. Such vehicular visibility splays shall be provided before the vehicle access is first used by vehicular traffic and retained free of any obstruction at all times.

Reason: To provide adequate inter-visibility between users of the access and the public highway in the interests of highway safety.

- 4 Prior to the occupation of the dwelling the internal layout shall be provided in principal with drawing number from planning permission 21/00867/FUL:

957/01a - Proposed block plan.

Reason: To ensure that vehicles using the site access do so in a controlled manner, in the interests of highway safety.

- 5 Prior to occupation of the development the vehicular access shall be constructed at right angles to the highway boundary and to the existing carriageway. The width of the access at its junction with the highway shall not be more than 3.6 metres (equivalent to 4 drop kerbs), shall be retained at that width for 6 metres within the site.

Reason: to ensure that vehicles can enter and leave the highway in a controlled manner in the interest of highway safety.

- 6 No unbound material shall be used in the surface treatment of the proposed vehicular access/ driveway throughout.

Reason: To avoid displacement of loose material onto the highway in the interests of highway safety.

- 7 All single garages should have a minimum internal measurement of 7m x 3m

Reason: To encourage the use of garages for their intended purpose and to discourage on-street parking, in the interests of highway safety.

- 8 The Cycle parking shall be provided in accordance with the EPOA Parking Standards. The approved facility shall be secure, convenient, covered and provided prior to first occupation and retained at all times.

Reason: To ensure appropriate cycle parking is provided in the interest of highway safety and amenity.

- 9 Areas within the curtilage of the site for the purpose of the reception and storage of building materials shall be identified clear of the highway.

Reason: To ensure that appropriate loading / unloading facilities are available to ensure that the highway is not obstructed during the construction period in the interest of highway safety.

- 10 No vehicle connected with the works to arrive on site before 07:30 or leave after 19:00 (except in the case of emergency). Working hours to be restricted between 08:00 and 18:00 Mondays to Saturdays (finishing at 13:00 on Saturdays) with no working of any kind permitted on Sundays or any Public/Bank Holiday whilst construction works and alterations are being carried out. No materials produced as a result of the site development or clearance shall be burned on site.

Reason: Adherence to the above condition will significantly reduce the likelihood of public complaint and potential enforcement action by Pollution and Environmental Control. The condition gives the best practice for Demolition and Construction sites. Failure to follow them may result in enforcement action under nuisance legislation (Environmental Protection Act 1990), or the imposition of controls on working hours (Control of Pollution Act 1974).

- 11 The buildings shall not be occupied until there has been submitted to and approved, in writing, by the Local Planning Authority a scheme of hard and soft landscaping works for the site, which shall include any proposed changes in ground levels and also accurately identify spread, girth and species of all existing trees, shrubs and hedgerows on the site and indicate any to be retained, together with measures for their protection which shall comply with the recommendations set out in the British Standards Institute publication "BS 5837:2012 Trees in relation to design, demolition and construction."

Reason - In the interest of visual amenity and the character of the area.

- 12 All changes in ground levels, hard landscaping, planting, seeding or turfing shown on the approved landscaping details shall be carried out during the first planting and seeding season (October - March inclusive) following the commencement of the development or in such other phased arrangement as may be agreed in writing by the Local Planning Authority. Any trees or shrubs which, within a period of 5 years of being planted die, are removed or seriously damaged or seriously diseased shall be replaced in the next planting season with others of similar size and species, unless the Local Planning Authority agrees in writing to a variation of the previously approved details.

Reason - In the interest of visual amenity and the character of the area.

- 13 Notwithstanding the provisions of Article 3, Schedule 2, Part 1 Classes B or C of the Town and Country Planning (General Permitted Development)(England) Order 2015 (or any Order revoking and re-enacting that Order with or without modification), no enlargement, improvement or other alteration to the roof of the dwelling shall be erected or carried out except in accordance with drawings showing the siting and design of such enlargement, improvement or other alteration which shall previously have been submitted to and approved, in writing, by the Local Planning Authority.

Reason - In order to ensure that the site is not over-developed in the interest of the amenity of the occupants of adjacent dwellings, and in order to maintain a satisfactory appearance in the street scene in the interest of the visual amenity of the locality.

- 14 An electric vehicle charging point shall be provided for the approved dwelling prior to first occupation.

Reason: In the interests of sustainable transportation.
