APPLICATION NO: 22/01636/FUL

DATE REGISTERED: 14th October 2022

Proposed Development and Location of the Land:

Proposed change of use of agricultural land to equestrian use and construction of menage.

The Pightle Heath Road Mistley Manningtree

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY GRANT PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted, subject to the following conditions;

- 1 The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

Reason - To comply with the requirements of Section 91 of the Town and Country Planning Act 1990, as amended by the Planning and Compulsory Purchase Act 2004.

- 2 The development hereby permitted shall be carried out in accordance with the following approved drawings/documents, and/or such other drawings/documents as may be approved by the Local Planning Authority in writing pursuant to other conditions of this permission or such drawings/documents as may be subsequently approved in writing by the Local Planning Authority as a non-material amendment following an application in that regard:

Documents titled 'Location Plan', 'Proposed Fencing Elevations', 'Planning Statement' and the untitled Block Plan dated 14th December 2022.

Reason - For the avoidance of doubt and in the interests of proper planning.

- 3 The menage hereby approved shall be used solely in connection with the private stabling of horses and no business or commercial use including livery or riding school activities shall be carried on from the site whatsoever.

Reason - In the interests of local amenity and highway safety.

- 4 There shall be no burning of horse manure on the site at any time.

Reason - The site is in the proximity of residential dwellings and therefore suitable control is necessary in order to protect the amenities of residents of such properties.

- 5 No floodlighting or other means of external lighting shall be installed at the site except in accordance with details (to include position, height, aiming points, lighting levels and a polar luminous diagram) which shall have previously been submitted to and agreed in writing by the Local Planning Authority.

Reason - To secure an orderly and well designed development sympathetic to the character of the area and in the interests of residential amenity.

- 6 No development above ground level shall take place until there has been submitted to and approved, in writing, by the Local Planning Authority a scheme of hard, soft and boundary treatment landscaping works for the site, which shall include any proposed changes in ground levels.

Reason: In the interests of visual amenity and the character and appearance of the area.

- 7 All changes in ground levels, soft/hard landscaping shown on the approved landscaping details shall be carried out in full during the first planting and seeding season (October - March inclusive) following the commencement of the development, or in such other phased arrangement as may be approved, in writing, by the Local Planning Authority up to the first use/first occupation of the development. Any trees, hedges, shrubs or turf identified within the approved landscaping details (both proposed planting and existing) which die, are removed, seriously damaged or seriously diseased, within a period of 10 years of being planted, or in the case of existing planting within a period of 5 years from the commencement of development, shall be replaced in the next planting season with others of similar size and same species unless otherwise agreed in writing by the Local Planning Authority.

Reason: To ensure that the approved landscaping scheme has sufficient time to establish, in the interests of visual amenity and the character and appearance of the area.

- 8 No development shall be commenced until the existing tree/s on the site, agreed with the Local Planning Authority for inclusion in the scheme of landscaping, have been protected by the erection of temporary protective fences of a height, size and in positions which shall previously have been approved, in writing, with the Local Planning Authority prior to the commencement of development. The protective fences shall be retained throughout the duration of building and engineering works in the vicinity of the tree/s to be protected. Any tree/s dying or becoming severely damaged as a result of any failure to comply with these requirements shall be replaced with a tree or trees of appropriate size and species during the first planting season, or in accordance with such other arrangement as may be approved, in writing, with the Local Planning Authority up to first use or first occupation of the development, following the death of, or severe damage to the tree/s.

Reason: For the avoidance of damage to protected tree/s included within the landscaping scheme in the interests of visual amenity and the character and appearance of the area. This condition is required to be carried out prior to the commencement of any other development to ensure trees are protected early to ensure avoidance of damage or loss due to the development and/or its construction. If agreement was sought at any later stage there is an unacceptable risk of loss and damage to trees.

Positive and Proactive Statement

The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

Standard Informative 1: The Provisions of the Essex Act 1987, Section 13 (Access for the Fire Brigade) may apply to this Development and will be determined at Building Regulation Stage.

Standard Informative 2: You are reminded that the carrying out of building works requires approval under the Building Regulations in many cases as well as a grant of planning permission. If you are in doubt as to whether or not the work, the subject of this planning permission, requires such approval, then you are invited to contact the Building Control section at Tendring District Council.

Standard Informative 3: If the development includes the construction of a new building on or at the boundary of 2 properties, work to an existing party wall or party structure or involve excavation near to and below the foundation level of neighbouring buildings, you are advised that the provisions of the Party Wall Act 1996 may apply to this development. An explanatory booklet concerning the implications of this Act is available online or from the District Council.
