TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO: 23/00306/FUL

DATE REGISTERED: 20th March 2023

Proposed Development and Location of the Land:

**Demolition of existing stable block and erection of replacement stable block and associated machinery/tractor store.
Pump Farm Cottage Tendring Road Little Bentley Colchester**

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY GRANT PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted, subject to the following conditions;

1 **COMPLIANCE REQUIRED: COMMENCEMENT TIME LIMIT**

CONDITION: The development hereby permitted shall be begun not later the expiration of three years from the date of this permission.

REASON: To comply with the requirements of Section 91 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

NOTE/S FOR CONDITION:

The development needs to commence within the timeframe provided. Failure to comply with this condition will result in the permission becoming lapsed and unable to be carried out. If commencement takes place after the time lapses this may result in unlawful works at risk Enforcement Action proceedings. You should only commence works when all other conditions requiring agreement prior to commencement have been complied with.

2 **APPROVED PLANS & DOCUMENTS**

CONDITION: The development hereby permitted shall be carried out in accordance with the drawings/documents listed below and/or such other drawings/documents as may be approved by the Local Planning Authority in writing pursuant to other conditions of this permission or such drawings/documents as may subsequently be approved in writing by

the Local Planning Authority as a non-material amendment following an application in that regard (except for Listed Building Consents). Such development hereby permitted shall be carried out in accordance with any Phasing Plan approved, or as necessary in accordance with any successive Phasing Plan as may subsequently be approved in writing by the Local Planning Authority prior to the commencement of development pursuant to this condition.

Documents titled 'Location Plan - Pump Farm Cottage', 'Floor and Elevation Plans', outlining the proposed elevations, 'Floor and Elevation Plans', outlining the proposed floor layout plan, 'Proposed Block Plan', and 'Proposed Site Plan'.

REASON: For the avoidance of doubt and in the interests of proper phased planning of the development.

NOTE/S FOR CONDITION:

The primary role of this condition is to confirm the approved plans and documents that form the planning decision. Any document or plan not listed in this condition is not approved, unless otherwise separately referenced in other conditions that also form this decision. The second role of this condition is to allow the potential process of Non Material Amendment if found necessary and such future applications shall be considered on their merits. Lastly, this condition also allows for a phasing plan to be submitted for consideration as a discharge of condition application should phasing be needed by the developer/s if not otherwise already approved as part of this permission. A phasing plan submission via this condition is optional and not a requirement.

Please note in the latest revision of the National Planning Policy Framework (NPPF) it provides that Local Planning Authorities should seek to ensure that the quality of approved development is not materially diminished between permission and completion, as a result of changes being made to the permitted scheme (for example through changes to approved details such as the materials used). Accordingly, any future amendment of any kind will be considered in line with this paragraph, alongside the Development Plan and all other material considerations.

Any indication found on the approved plans and documents to describe the plans as approximate and/or not to be scaled and/or measurements to be checked on site or similar, will not be considered applicable and the scale and measurements shown shall be the approved details and used as necessary for compliance purposes and/or enforcement action.

- 3 CONDITION: No development shall commence above slab level until a scheme for the provision and implementation of water, energy and resource efficiency measures for the lifetime of the development shall be submitted to and approved, in writing, by the Local Planning Authority. The scheme should include as a minimum the following:-

- Agreement of carbon level;
- Agreement of provisions to ensure the development is zero carbon ready;
- A Water-butt;
- Compost bin;
- Agreement of heating of each building; and
- Agreement of scheme for waste reduction

The scheme shall be fully implemented prior to the first occupancy of the development unless otherwise agreed in writing by the Local Planning Authority. The scheme shall be constructed and the measures provided and made available for use as may be agreed and thereafter shall be maintained.

REASON: To enhance the sustainability of the development through better use of water, energy and resources reduce harm to the environment and result in wider public benefit in accordance with the NPPF.

NOTE/S FOR CONDITION:

Slab level is normally refers to the concrete slab supported on foundations or directly on the subsoil and is used to construct the ground floor of the development. In any other case, please assume slab level to be the point before any walls and/or development can be visually above ground level or seek confirmation from the Local Planning Authority for your development.

The greatest threat to our planet is the belief that someone else will save it and also forgetting that small acts, when multiplied by millions of people, can transform the world. Developments will provide buildings/homes to thousands/millions of people over their lifetime. A well designed sustainable development in the beginning will restrict the contribution each person makes to that threat and help enable them to transform the world.

- 4 **CONDITION:** The building hereby approved shall be used solely in connection with the private stabling of horses and no business or commercial use including livery or riding school activities shall be carried on from the site whatsoever.

REASON - In the interests of local amenity and highway safety.

- 5 **CONDITION:** There shall be no burning of horse manure on the site at any time.

REASON - The site is in the proximity of residential dwellings and therefore suitable control is necessary in order to protect the amenities of residents of such properties.

- 6 **CONDITION:** Prior to first use of the building hereby approved, a waste management plan dealing with the storage and removal of horse manure shall be submitted to and approved in writing by the Local Planning Authority. The approved waste management plan shall be adhered to at all times unless otherwise agreed in writing by the Local Planning Authority.

REASON - In the interests of residential amenities and environmental protection.
