THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY GRANT PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted, subject to the following conditions;

#### 1 COMPLIANCE REQUIRED: COMMENCEMENT TIME LIMIT

**CONDITION:** The development hereby permitted shall be begun not later the expiration of three years from the date of this permission.

**REASON:** To comply with the requirements of Section 91 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

**NOTE/S FOR CONDITION:**

The development needs to commence within the timeframe provided. Failure to comply with this condition will result in the permission becoming lapsed and unable to be carried out. If commencement takes place after the time lapses this may result in unlawful works at risk Enforcement Action proceedings. You should only commence works when all other conditions requiring agreement prior to commencement have been complied with.

#### 2 APPROVED PLANS & DOCUMENTS

**CONDITION:** The development hereby permitted shall be carried out in accordance with the drawings/documents listed below and/or such other drawings/documents as may be approved by the Local Planning Authority in writing pursuant to other conditions of this

permission or such drawings/documents as may subsequently be approved in writing by the Local Planning Authority as a non-material amendment following an application in that regard (except for Listed Building Consents). Such development hereby permitted shall be carried out in accordance with any Phasing Plan approved, or as necessary in accordance with any successive Phasing Plan as may subsequently be approved in writing by the Local Planning Authority prior to the commencement of development pursuant to this condition.

Drawing Number FWMC/2023/01 Revision C, the documents titled 'Site Location Plan', 'Heritage Design and Access Statement', and the untitled document showing the proposed LED lighting (received 23rd March 2023).

REASON: For the avoidance of doubt and in the interests of proper phased planning of the development.

**NOTE/S FOR CONDITION:**

The primary role of this condition is to confirm the approved plans and documents that form the planning decision. Any document or plan not listed in this condition is not approved, unless otherwise separately referenced in other conditions that also form this decision. The second role of this condition is to allow the potential process of Non Material Amendment if found necessary and such future applications shall be considered on their merits. Lastly, this condition also allows for a phasing plan to be submitted for consideration as a discharge of condition application should phasing be needed by the developer/s if not otherwise already approved as part of this permission. A phasing plan submission via this condition is optional and not a requirement.

Please note in the latest revision of the National Planning Policy Framework (NPPF) it provides that Local Planning Authorities should seek to ensure that the quality of approved development is not materially diminished between permission and completion, as a result of changes being made to the permitted scheme (for example through changes to approved details such as the materials used). Accordingly, any future amendment of any kind will be considered in line with this paragraph, alongside the Development Plan and all other material considerations.

Any indication found on the approved plans and documents to describe the plans as approximate and/or not to be scaled and/or measurements to be checked on site or similar, will not be considered applicable and the scale and measurements shown shall be the approved details and used as necessary for compliance purposes and/or enforcement action.

- 3 **CONDITION:** Prior to the completion of the hereby approved works, the redundant access shown on Drawing Number FWMC/2023/01 Revision C shall be suitably and permanently closed incorporating the reinstatement to full height of the highway verge/footway/kerbing.

REASON: To ensure that an increase in accesses available does not increase in highway safety risk.

- 4 **CONDITION:** Prior to the first use of the hereby approved external lighting within the development site, the light source shall be so positioned and shielded, in perpetuity, to ensure that users of the highway are not affected by dazzle and/or glare, in accordance with details to have been previously submitted to and approved in writing by the Local Planning Authority. The lighting shall be carried out in accordance with the approved details and maintained as such thereafter.

REASON: To ensure that users of the highway are not subjected to glare and dazzle from lighting within the development in the interest of highway safety.

- 5 CONDITION: No development shall be commenced above slab level until precise details of the brick and tile creasing to be used in construction have been submitted to and approved, in writing, by the Local Planning Authority. Such materials as may be agreed shall be those used in the development.

REASON: To secure an orderly and well designed finish sympathetic to the character of the existing building and in the interests of visual amenity and the character and appearance of the conservation area.

6 COMPLIANCE WITH DETAILS - LANDSCAPING SCHEME

CONDITION: All changes in soft/hard landscaping shown on approved drawing number FWMC/2023/01 C shall be carried out in full during the first planting and seeding season (October - March inclusive) following the commencement of the development, or in such other phased arrangement as may be approved, in writing, by the Local Planning Authority. The hereby approved shipping container shall be covered in green netting and planting as shown on the approved drawing immediately at installation and retained thereafter. Any trees, hedges, or shrubs identified within the approved landscaping details (both proposed planting and existing) which die, are removed, seriously damaged or seriously diseased, within a period of 10 years of being planted, or in the case of existing planting within a period of 5 years from the commencement of development, shall be replaced in the next planting season with others of similar size and same species unless otherwise agreed in writing by the Local Planning Authority.

REASON: To ensure that the approved landscaping scheme has sufficient time to establish, in the interests of visual amenity and the character and appearance of the conservation area.

If you are in doubt as to whether or not the work, the subject of this planning permission, requires such approval, then you are invited to contact the Building Control section at Tendring District Council.

Standard Informative 3: If the development includes the construction of a new building on or at the boundary of 2 properties, work to an existing party wall or party structure or involve excavation near to and below the foundation level of neighbouring buildings, you are advised that the provisions of the Party Wall Act 1996 may apply to this development.
