TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO: 23/01020/FUL **DATE REGISTERED:** 21st July 2023

Proposed Development and Location of Land:

**Erection of 2 metre high metal fence to perimeter of front and side boundary with the highway (retention of).
Tendring Meadows Care Home Heath Road Tendring Clacton On Sea**

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY REFUSE PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted for the following reason(s)

- 1 The National Planning Policy Framework attaches great importance to the design of the built environment and confirms good design is a key aspect of sustainable development, is indivisible from good planning, and should contribute positively to making places better for people. It is important to plan positively for the achievement of high quality and inclusive design for all development, including individual buildings. Permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions.

Policy SP7 of the 2013-33 Local Plan seeks high standards of urban and architectural design which responds positively to local character and context. Adopted Policy SPL3 of Section 2 of the 2013-33 Local Plan also requires that all new development (including changes of use) should make a positive contribution to the quality of the local environment and protect or enhance local character. Section A of this policy states requests that new buildings, alterations and structures are well designed and maintain or enhance local character and distinctiveness and Section B requests that the development relates well to its site and surroundings particularly in relation to its siting, height, scale, massing, form, design and materials.

Policy PPL3 states the Council will protect the rural landscape and refuse planning permission for any proposed development which would cause overriding harm to its character or appearance.

The application site comprises of a detached building currently used as a care home. The building is sited on a large plot with elevations serving both Tendring Road and

Heath Road.

The fencing currently in situ is 2m in height and is constructed from grey metal boards with most of it being sited hard up to the boundary shared with the public pavement. The plans provided indicate minor landscaping to be planted in some areas in front of the fence, however, this is limited, and it is unclear if this will encroach onto highway land. In many areas there is no planting shown in front of the fence as this will be unachievable due to its close relationship with the boundary.

Consequently, the siting of the fencing appears as a prominent and noticeable feature within Tendring Road and Heath Road and in the absence of little landscaping to soften its appearance appears as an intrusive feature harmful to the character and appearance of the site's countryside setting.

It is therefore considered that the proposed fencing, by virtue of its siting along a prominent boundary of the site and incongruous and stark metal materiality results in an inappropriate form of development within the street scene, significantly detrimental to visual amenity and the overall character of the area, which is contrary to the aforementioned national and local policies.
