Subject: Re: Assault complaint

Dear Mrs Hastings I would like to apologise for taking up your time and thank you for getting back to me. I understand you are very busy at the council so if I write my complaint then I will not have to take up any more of your time. On the first day of the Clacton air show I think it was Thursday 25th August 2016 I was dropping off my children and a family friend at the Clacton air show as I had to pick my partner up from work at 2pm. At approximately 1:55pm I drove down pier gap towards Clacton pier and my children and friend got out of the car, I was starting to turn my car round looking over my left shoulder but a family was waiting to cross behind my vehicle, I stopped the car and waved them to cross, when I looked forward a lady I have never seen before had her face close to mine looking in my car window, she bellowed in my

face who do you think you are and said something about pedestrian area I said to her to move from me and my vehicle and she then slapped me across the right side of my face I raised my arm to stop her hitting me again, she then stepped back from my car and raised a badge hanging around her neck and said were tendering district council councillors, I said if your a councillor should you be slapping members of the public in the face, the lady then said she was calling the police which I said call them you have just assaulted me, the lady was telling the people she was with to take my registration number which I read out to her and she was asking the people she was with to take pictures of my car. I had to leave to pick my partner up from work and as I was leaving there was a man who was with the lady who had the same badge around his neck that she was wearing, I asked if he had seen what had just happened and he said he did, I asked if I could take his name and he said yes, he showed me his badge and told me his name was councillor pembleton. After I left I waited for the police or the council to contact me as the lady said she was reporting it to the police and did not hear anything, after I contacted the police to be told the lady had not reported to them and I reported the assault to them. I would like to make a complaint to the council about this as I do not think that I deserved to be struck in my face for dropping off my family at the air show. Can I just thank you again for your time Mrs Hastings and await your response. Thank you Anthony Chandler
