

The Tendring  
Community Safety  
Partnership

## 2023/2024 Strategic Priorities

### Delivery Plan

**The Community Safety Partnership aims to reduce crime and disorder, Anti-Social Behaviour affecting the local environment, including the misuse of drugs and alcohol.**

The Police, Fire and Crime Commissioner provides funding to Community Safety Partnerships. This funding should be used to support activities that deliver against the priorities in the PFCC's Police and Crime, as well as local priorities. It is, expected that each activity funded using PFCC resources will respond to either a priority in the Police and Crime Plan, or a priority which has been identified through the Strategic Assessment as being a local need.

The PFCC's priorities are outlined in the Police and Crime Plan 2021-2024

- Priority 1 – Further investment in crime prevention.
- Priority 2 – Reducing drug driven violence.
- Priority 3 – Protecting vulnerable people and breaking the cycle of domestic abuse.
- Priority 4 – Reducing violence against women and girls.
- Priority 5 – Improving support for victims of crime.
- Priority 6 - Protecting rural and isolated areas.
- Priority 7 – Preventing dog theft
- Priority 8 – Preventing business crime, fraud and cyber crime.
- Priority 9 – Improving safety on our roads.
- Priority 10 – Encouraging volunteers and community support.
- Priority 11 – Supporting our officers and staff.
- Priority 12 – Increasing collaboration.

**Tackling ASB and The Root Causes:**

Identifying and supporting repeat and vulnerable victims. Identify hotspot locations and / or increases in ASB trends. Anti-Social Behaviour affects families and communities and by addressing these activities we can help improve the quality of life in the community. Improve perceptions and facilitate local problem solving to address issues.

**Preventing and Reducing Serious Violence:**

Domestic Abuse, Sexual Offences incl Rape, CSE, Gang related violence, Hate Crime, Cyber bullying / grooming, Serious Organised Crime to include Modern Day Slavery, Human Trafficking and Violent Extremism.

**Emerging Threats and Trends:**

Identifying hotspot locations, and / or increases in crime trends. Work with partner agencies to raise awareness of Knife Crime across the district. The fear of crime, whether real or perceived, can also have a very serious impact upon people and communities.

**Reduce youth offending and re-offending of adults and young people**

Reduce youth offending and reoffending of adults and young people, thereby reducing instances of residential (dwelling) burglary, most serious violence, personal robbery and drug offences.

Reoffending affects families and communities and by reducing it we can help increase community cohesion and improve their quality of life. The fear of crime, whether real or perceived, can also have a very serious impact upon people and communities. Reducing reoffending can help build safer communities and increase public confidence in the criminal justice system.

Underpinning the above strategic priorities will be effective partnership working, the partnership will also work together to meet emerging local threats and trends.

This will be achieved by sharing information and data to identify emerging issues, working together to devise and deliver local solutions and targeting resources accordingly.

This plan shows the priorities for Tending Community Safety Partnership (CSP) for 2023-2024

The priorities have been identified through our Strategic Assessment of crime which involved a detailed analysis of crime, intelligence and public consultation.

The Annual Partnership Plan is supported by funding streams that are collectively pooled together to maximise their impact upon crime reduction.

The detailed Partnership Plan set out below, details actions to achieve targets set for our top priorities. However, these may be subject to change if other more urgent crime reduction priorities are identified and need to be addressed or actioned by the CSP.
