THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY GRANT PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted, subject to the following conditions;

1 COMPLIANCE REQUIRED: COMMENCEMENT TIME LIMIT

CONDITION: The development hereby permitted shall be begun not later the expiration of three years from the date of this permission.

REASON: To comply with the requirements of Section 91 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

NOTE/S FOR CONDITION:

The development needs to commence within the timeframe provided. Failure to comply with this condition will result in the permission becoming lapsed and unable to be carried out. If commencement takes place after the time lapses this may result in unlawful works at risk Enforcement Action proceedings. You should only commence works when all other conditions requiring agreement prior to commencement have been complied with.

2 APPROVED PLANS & DOCUMENTS

CONDITION: The development hereby permitted shall be carried out in accordance with the drawings/documents listed below and/or such other drawings/documents as may be approved by the Local Planning Authority in writing pursuant to other conditions of this permission or such drawings/documents as may subsequently be approved in writing by the Local Planning Authority as a non-material amendment following an application in that regard (except for Listed Building Consents). Such development hereby permitted shall be carried out in accordance with any Phasing Plan approved, or as necessary in

accordance with any successive Phasing Plan as may subsequently be approved in writing by the Local Planning Authority prior to the commencement of development pursuant to this condition.

Water, Energy and Resource Efficiency Measures

Design and Access Statement

REASON: For the avoidance of doubt and in the interests of proper phased planning of the development.

NOTE/S FOR CONDITION:

The primary role of this condition is to confirm the approved plans and documents that form the planning decision. Any document or plan not listed in this condition is not approved, unless otherwise separately referenced in other conditions that also form this decision. The second role of this condition is to allow the potential process of Non Material Amendment if found necessary and such future applications shall be considered on their merits. Lastly, this condition also allows for a phasing plan to be submitted for consideration as a discharge of condition application should phasing be needed by the developer/s if not otherwise already approved as part of this permission. A phasing plan submission via this condition is optional and not a requirement.

Please note in the latest revision of the National Planning Policy Framework (NPPF) it provides that Local Planning Authorities should seek to ensure that the quality of approved development is not materially diminished between permission and completion, as a result of changes being made to the permitted scheme (for example through changes to approved details such as the materials used). Accordingly, any future amendment of any kind will be considered in line with this paragraph, alongside the Development Plan and all other material considerations.

Any indication found on the approved plans and documents to describe the plans as approximate and/or not to be scaled and/or measurements to be checked on site or similar, will not be considered applicable and the scale and measurements shown shall be the approved details and used as necessary for compliance purposes and/or enforcement action.

3 RESIDENTIAL TRAVEL INFORMATION PACK

CONDITION: Prior to first occupation of each dwelling, a Residential Travel Information Pack (travel pack) shall be provided to each dwelling for use of its first occupiers. The travel pack shall be agreed, in writing, by the Local planning authority prior to provision and shall include a minimum of six one day travel vouchers for use with a local transport operator.

REASON: In the interests of reducing the need to travel by car and promoting sustainable development and transport

4 AGREEMENT OF MEASURES TO IMPROVE SUSTAINABILITY OF DEVELOPMENT

CONDITION: The approved water, energy and resource efficiency measures for the lifetime of the development includes:-

- Heating of each dwelling/building
- Waste reduction

The scheme shall be fully implemented prior to the first occupancy of the development unless otherwise agreed in writing by the Local Planning Authority. The scheme shall be constructed and the measures provided and made available for use as may be agreed and thereafter shall be maintained.

REASON: To enhance the sustainability of the development through reduced need, better use or savings in the use of water, energy and resources; reduced harm to the environment; and result in wider public benefit in accordance with the NPPF.

5 AGREEMENT OF MEASURES TO IMPROVE SUSTAINABILITY OF DEVELOPMENT

CONDITION: No development shall commence above slab level until a scheme for the provision and implementation of water and resource efficiency measures for the lifetime of the development shall be submitted to and approved, in writing, by the Local Planning Authority. The scheme shall include as a minimum:-

- Agreement of a scheme to achieve as far as possible a water consumption rate of not more than 110 litres, per person, per day for new dwellings.
- Provision of a fibre optic broadband connection to the best possible speed installed on an open access basis and directly accessed from the nearest exchange, incorporating the use of resistant tubing. (If the applicant is unable to achieve this standard of connection, and can evidence through consultation that this would not be possible, practical or economically viable an alternative superfast (i.e. will provide speeds greater than 30mbps) wireless service will be considered.)

The scheme shall be fully implemented prior to the first occupancy of the development unless otherwise agreed in writing by the Local Planning Authority. The scheme shall be constructed and the measures provided and made available for use as may be agreed and thereafter shall be maintained.

REASON: To enhance the sustainability of the development through reduced need, better use or savings in the use of water, energy and resources; reduced harm to the environment; and result in wider public benefit in accordance with the NPPF.

NOTES FOR CONDITION:

Slab level normally refers to the concrete slab supported on foundations or directly on the subsoil and is used to construct the ground floor of the development. In any other case, please assume slab level to be the point before any walls and/or development can be visualised above ground level or seek confirmation from the Local Planning Authority for your development.

Broadband provision is included to ensure the development is able to be equipped with high speed broadband to enable opportunities for web-based communication and homeworking reducing the need for unsustainable travel.

A water consumption rate of not more than 110 litres, per person, per day adopted as Planning Policy and as imposed by this condition will directly change the building regulations water consumption rate to match as a result of this policy. The introduction of effective utilities, rainwater capture for watering plants, aerators to taps and other water saving options can be considered.

6 No vehicle connected with the works to arrive on site before 07:30 or leave after 19:00 (except in the case of emergency). Working hours to be restricted between 08:00 and

18:00 Mondays to Saturdays (finishing at 13:00 on Saturdays) with no working of any kind permitted on Sundays or any Public/Bank Holiday whilst construction works and alterations are being carried out.

Reason - To protect the amenity of nearby residential properties.

- 7 No materials produced as a result of the site development or clearance shall be burned on site.

Positive and Proactive Statement

The Local Planning Authority has acted positively and proactively in determining this application by identifying matters of concern within the application (as originally submitted) and negotiating, with the Applicant, acceptable amendments to the proposal to address those concerns. As a result, the Local Planning Authority has been able to grant planning permission for an acceptable proposal, in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

Standard Informative 1: The Provisions of the Essex Act 1987, Section 13 (Access for the Fire Brigade) may apply to this Development and will be determined at Building Regulation Stage.

Standard Informative 2: You are reminded that the carrying out of building works requires approval under the Building Regulations in many cases as well as a grant of planning permission. If you are in doubt as to whether or not the work, the subject of this planning permission, requires such approval, then you are invited to contact the Building Control section at Tendring District Council.

Standard Informative 3: If the development includes the construction of a new building on or at the boundary of 2 properties, work to an existing party wall or party structure or involve excavation near to and below the foundation level of neighbouring buildings, you are advised that the provisions of the Party Wall Act 1996 may apply to this development. An explanatory booklet concerning the implications of this Act is available online or from the District Council.
