Good afternoon

Thank you for the further information requested. Although normally I would not concur with this decision at this stage, as I understand another concurrence is required to increase the budget, I would not wish for any delay to impact on the tender acceptance, or works commencing, and therefore have come to the conclusion that I should agree with the action you propose, and have highlighted that below.

"I refer to your email, with letter dated 7th December 2023, and subsequent emails, concerning the action you propose to take under the powers delegated to you in respect of acceptance of the tender for the works received from:

Name of Company: **Access & Automation Ltd**

Amount: **£174,425.00**

I now concur with the actions you propose."

Kind Regards

Andy Baker
Tendring District Councillor
