Positive and Proactive Statement

Noise: The Council's Environmental Protection Team would like to ensure that the levels of noise emitted from the site do not cause unreasonable interference with the use and enjoyment of nearby residential premises, as such the noise emitted from the units should not exceed +5dB above background, so as to ensure compliance with the relevant British Standards. In addition you are also advised to perform standard maintenance of the systems, as per the manufacturers guidance, to ensure the systems are in correct working order and therefore should minimise any potential adverse impact to nearby residential properties by way of noise.

Standard Informative 1: The Provisions of the Essex Act 1987, Section 13 (Access for the Fire Brigade) may apply to this Development and will be determined at Building Regulation Stage.

Standard Informative 2: You are reminded that the carrying out of building works requires approval under the Building Regulations in many cases as well as a grant of planning permission. If you are in doubt as to whether or not the work, the subject of this planning permission, requires such approval, then you are invited to contact the Building Control section at Tendring District Council.

Standard Informative 3: If the development includes the construction of a new building on or at the boundary of 2 properties, work to an existing party wall or party structure or involve excavation near to and below the foundation level of neighbouring buildings, you are advised that the provisions of the Party Wall Act 1996 may apply to this development. An explanatory booklet concerning the implications of this Act is available online or from the District Council.
