TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO: 23/01148/DETAIL

DATE REGISTERED: 24th August 2023

Proposed Development and Location of Land:

**Reserved Matters Planning Application (Appearance and Landscaping) for 4 No detached three bedroom bungalows and discharge of condition 17 (Hard and Soft Landscaping Scheme) of outline planning approval 21/01935/OUT.
Land East of Freelands Thorpe Road Weeley**

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **GRANT APPROVAL OF RESERVED MATTERS** pursuant to Outline Planning Permission No. 21/01935/OUT in accordance with the application form, supporting documents and plans submitted subject to the following conditions

1 APPROVED PLANS & DOCUMENTS

CONDITION: The development hereby permitted shall be carried out in accordance with the drawings/documents listed below and/or such other drawings/documents as may be approved by the Local Planning Authority in writing pursuant to other conditions of this permission or such drawings/documents as may subsequently be approved in writing by the Local Planning Authority as a non-material amendment following an application in that regard (except for Listed Building Consents). Such development hereby permitted shall be carried out in accordance with any Phasing Plan approved, or as necessary in accordance with any successive Phasing Plan as may subsequently be approved in writing by the Local Planning Authority prior to the commencement of development pursuant to this condition.

- Drawing No. 04 B
- Drawing No. 05 B
- Drawing No. 06 B
- Drawing No. 07 B
- Drawing No. 08 B
- Drawing No. 01 B
- Drawing No. 03 C

REASON: For the avoidance of doubt and in the interests of proper phased planning of the development.

NOTE/S FOR CONDITION:

The primary role of this condition is to confirm the approved plans and documents that form the planning decision. Any document or plan not listed in this condition is not approved, unless otherwise separately referenced in other conditions that also form this decision. The second role of this condition is to allow the potential process of Non Material Amendment if found necessary and such future applications shall be considered on their merits. Lastly, this condition also allows for a phasing plan to be submitted for consideration as a discharge of condition application should phasing be needed by the developer/s if not otherwise already approved as part of this permission. A phasing plan submission via this condition is optional and not a requirement.

Please note in the latest revision of the National Planning Policy Framework (NPPF) it provides that Local Planning Authorities should seek to ensure that the quality of approved development is not materially diminished between permission and completion, as a result of changes being made to the permitted scheme (for example through changes to approved details such as the materials used). Accordingly, any future amendment of any kind will be considered in line with this paragraph, alongside the Development Plan and all other material considerations.

Any indication found on the approved plans and documents to describe the plans as approximate and/or not to be scaled and/or measurements to be checked on site or similar, will not be considered applicable and the scale and measurements shown shall be the approved details and used as necessary for compliance purposes and/or enforcement action.

2 ACTION REQUIRED IN ACCORDANCE WITH ECOLOGICAL APPRAISAL RECOMMENDATIONS

All mitigation measures and/or works shall be carried out in accordance with the details contained in the Preliminary Ecological Assessment (ACJ Ecology, October 2023) and Additional Ecology Response (ACJ Ecology, February 2024) as already submitted with the planning application and agreed in principle with the local planning authority prior to determination.

Reason: To conserve and enhance protected and Priority species and allow the LPA to discharge its duties under the Conservation of Habitats and Species Regulations 2017 (as amended), the Wildlife & Countryside Act 1981 as amended and s40 of the NERC Act 2006 (as amended)

3 ACTION REQUIRED - ECOLOGY

Prior to commencement of development, a Great Crested Newt Method Statement shall be submitted to and approved in writing by the local planning authority. This will contain precautionary mitigation measures and/or works to reduce potential impacts to Great Crested Newts during the construction phase. All works associated with the development shall thereafter be carried out in accordance with the details and requirements of the approved Great Crested Newt Method Statement.

Reason: To conserve protected and Priority species and allow the LPA to discharge its duties under the Conservation of Habitats and Species Regulations 2017 (as amended), the Wildlife & Countryside Act 1981 (as amended) and s40 of the NERC Act 2006 (as amended).

4 FURTHER APPROVAL REQUIRED - BIODIVERSITY ENHANCEMENT STRATEGY

CONDITION: Prior to any works above slab level a Biodiversity Enhancement

Strategy for protected and priority species shall be submitted to and approved in writing by the local planning authority. The content of the Biodiversity Enhancement Strategy shall include the following:

- a) Purpose and conservation objectives for the proposed enhancement measures;
- b) detailed designs to achieve stated objectives;
- c) locations of proposed enhancement measures by appropriate maps and plans;
- d) timetable for implementation demonstrating that works are aligned with the proposed phasing of development;
- e) persons responsible for implementing the enhancement measures;
- f) details of initial aftercare and long-term maintenance (where relevant). The works shall be implemented in accordance with the approved details prior to occupation and shall be retained in that manner thereafter.

REASON: To enhance protected and Priority species & habitats and allow the LPA to discharge its duties under the s40 of the NERC Act 2006 (Priority habitats & species).

5 AGREEMENT OF MEASURES TO IMPROVE SUSTAINABILITY OF DEVELOPMENT

CONDITION: No development shall commence above slab level until a scheme for the provision and implementation the following energy and resource efficiency measure, for the lifetime of the development, has been submitted to and approved, in writing, by the Local Planning Authority. The scheme shall include as a minimum:-

- Provision of a fibre optic broadband connection to the best possible speed installed on an open access basis and directly accessed from the nearest exchange, incorporating the use of resistant tubing. (If the applicant is unable to achieve this standard of connection, and can evidence through consultation that this would not be possible, practical or economically viable an alternative superfast (i.e. will provide speeds greater than 30mbps) wireless service will be considered.)

The scheme shall be fully implemented prior to the first occupancy of the development unless otherwise agreed in writing by the Local Planning Authority. The scheme shall be constructed and the measures provided and made available for use as may be agreed and thereafter shall be maintained.

REASON: To enhance the sustainability of the development through reduced need, better use or savings in the use of water, energy and resources; reduced harm to the environment; and result in wider public benefit in accordance with the NPPF.

NOTES FOR CONDITION:

Slab level normally refers to the concrete slab supported on foundations or directly on the subsoil and is used to construct the ground floor of the development. In any other case, please assume slab level to be the point before any walls and/or development can be visualised above ground level or seek confirmation from the Local Planning Authority for your development.

Broadband provision is included to ensure the development is able to be equipped with high speed broadband to enable opportunities for web-based communication and homeworking reducing the need for unsustainable travel.

6 COMPLIANCE REQUIRED: EXISTING HEDGEROWS RETAINED AND MAINTAINED

CONDITION: The existing Hedgerows located within and along the eastern and western boundaries of the site as shown on approved drawing number drawing number. 03C shall be retained in perpetuity at a minimum height 1.8m for the entire

length of the hedgerows as shown along the side boundaries on approved drawing number. 03C. Should any of the side hedgerows die, be seriously damaged or seriously diseased it shall be replaced in the next planting season with others of similar size and same species and retained in perpetuity.

REASON: To enable existing landscaping to be protected and retained in the interests of visual amenity.

7 COMPLIANCE REQUIRED: EXISTING HEDGEROWS RETAINED AND MAINTAINED

CONDITION: The existing Hedgerows located within and along the northern boundary of the site (either side of the access into the development) shall be retained in perpetuity at a minimum height 1.5m for the entire length of the two respective hedgerows along the southern boundary of the site. Should the two hedges along the southern boundary die, be seriously damaged or seriously diseased it shall be replaced in the next planting season with others of similar size and same species and retained in perpetuity.

REASON: To enable existing landscaping to be protected and retained in the interests of visual amenity.

8 COMPLIANCE WITH DETAILS AND TIMESCALE REQUIRED - LANDSCAPING SCHEME

CONDITION: The planting details for the repair and improvement of the two hedgerows along the northern boundary of the site, and the two hedgerows along the eastern and western boundaries of the site, as shown on approved drawing number. 03C shall be carried out in full prior to first occupation of any of the residential units approved under planning reference 21/01935/OUT. Any hedgerow planting along any of the above mentioned boundaries of the site, as identified within the approved drawing number. 03C (both proposed planting and existing) which die, are removed, seriously damaged or seriously diseased, within a period of 10 years of being planted, or in the case of existing planting within a period of 5 years from the commencement of development, shall be replaced in the next planting season with others of similar size and same species unless otherwise agreed in writing by the Local Planning Authority.

REASON: To ensure that that part of the approved landscaping scheme has sufficient time to establish, in the interests of visual amenity and the character and appearance of the area.

DATED: 11th April 2024

SIGNED:

John Pateman-Gee
Head of Planning and Building Control

Essex County Council Car Parking Standards - Design and Good Practice

Positive and Proactive Statement

The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

Conditions Precedent

The applicant is reminded that this detailed planning consent is subject to conditions attached to the outline permission for this development reference 21/01935/OUT. Please refer to the outline planning permission to ensure full compliance with all conditions.

Legal Agreement Informative - Open Space/Play Space Contribution and RAMs

This application is the subject of a legal agreement under planning application 21/01935/OUT and this decision should only be read in conjunction with this agreement. The agreement addresses the following issues: Public Open Space financial contribution in accordance with Policy HP5 and Policy DI1 of the adopted Tendring District Local Plan 2013-2033 and Beyond. The agreement addresses the following issues: mitigation against any recreational impact from residential developments in accordance with Regulation 63 of the Conservation of Habitat and Species Regulations 2017.

Please note that any subsequent variation / removal of condition applications (s73 applications) will require a new legal agreement to secure this obligation unless the development has commenced (subject to all necessary condition discharges) and the contribution has already been paid.

Environmental Health

You are advised that if during construction/demolition works evidence of potential contamination is encountered, works shall cease, and the site fully assessed to enable an appropriate remediation plan to be developed. Works shall not re-commence until an appropriate remediation scheme has been submitted to, and approved in writing by, the Local Planning Authority and the remediation has been completed.

Minimum requirements for dealing with unexpected ground conditions being encountered during construction.

1. All site works at the position of the suspected contamination will stop and the Local Planning Authority and Environmental Health Department will be notified as a matter of urgency.
2. A suitably trained geo-environmental engineer should assess the visual and olfactory observations of the ground and the extent of contamination and the Client and the Local Authority should be informed of the discovery.
3. The suspected contaminated material will be investigated and tested appropriately in accordance with assessed risks. The investigation works will be carried out in the presence of a suitably qualified geo-environmental engineer. The investigation works will involve the collection of solid samples for testing and, using visual and olfactory observations of the ground, delineate the area over which contaminated materials are present.
4. The unexpected contaminated material will either be left in situ or be stockpiled (except if suspected to be asbestos) whilst testing is carried out and suitable assessments completed to determine whether the material can be re-used on site or requires disposal as appropriate.
5. The testing suite will be determined by the independent geo-environmental specialist based on visual and olfactory observations.
6. Test results will be compared against current assessment criteria suitable for the future use of the area of the site affected.
7. Where the material is left in situ awaiting results, it will either be reburied or covered with plastic sheeting.
8. Where the potentially contaminated material is to be temporarily stockpiled, it will be placed either on a prepared surface of clay, or on 2000-gauge Visqueen sheeting (or other impermeable surface) and covered to prevent dust and odour emissions.
9. Any areas where unexpected visual or olfactory ground contamination is identified will be surveyed and testing results incorporated into a Verification Report.
10. A photographic record will be made of relevant observations.
11. The results of the investigation and testing of any suspect unexpected contamination will be used to determine the relevant actions. After consultation with the Local Authority, materials should either be: o re-used in areas where test results indicate that it meets compliance targets so it can be re-used without treatment; or o treatment of material on site to meet compliance targets so it can be re-used; or o removal from site to a suitably licensed landfill or permitted treatment facility.

12. A Verification Report will be produced for the work.

The attached notes explain the rights of app

Standard Informative 1: The Provisions of the Essex Act 1987, Section 13 (Access for the Fire Brigade) may apply to this Development and will be determined at Building Regulation Stage.

Standard Informative 2: You are reminded that the carrying out of building works requires approval under the Building Regulations in many cases as well as a grant of planning permission. If you are in doubt as to whether or not the work, the subject of this planning permission, requires such approval, then you are invited to contact the Building Control section at Tendring District Council.

Standard Informative 3: If the development includes the construction of a new building on or at the boundary of 2 properties, work to an existing party wall or party structure or involve excavation near to and below the foundation level of neighbouring buildings, you are advised that the provisions of the Party Wall Act 1996 may apply to this development. An explanatory booklet concerning the implications of this Act is available online or from the District Council.

The attached notes explain the rights of appeal.

NOTES FOR GUIDANCE

WHEN PLANNING PERMISSION IS REFUSED OR GRANTED SUBJECT TO CONDITIONS

APPEALS TO THE SECRETARY OF STATE

- If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under Section 78 of the Town and Country Planning Act 1990.
- If you want to appeal, then you must do so within the set time frame as outlined below:
 - a. If this is a decision to refuse planning permission for a householder application, if you want to appeal against your local planning authority's decision then you must do so within **12 weeks** of the date of this notice. A **Householder Appeal Form** is required, available online at <https://www.gov.uk/planning-inspectorate>
 - b. If this is a decision to refuse planning permission for a minor commercial application, if you want to appeal against your local planning authority's decision then you must do so within **12 weeks** of the date of this notice. A **Planning Appeal Form** is required, available online at <https://www.gov.uk/planning-inspectorate>
 - c. If you want to appeal against your local planning authority's decision on a development which is not caught by a. and b. above then you must do so within **6 months** of the date of this notice. A **Planning Appeal Form** is required, available online at <https://www.gov.uk/planning-inspectorate>
- Appeals must be made using the relevant form (as detailed above) which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN (Tel: 0303 444 5000) or online at <https://www.gov.uk/planning-inspectorate>. **Please note, only the applicant possesses the right of appeal.**
- The Secretary of State can allow a longer period for giving notice of an appeal, but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted permission for the proposed development or could not have granted it without the conditions imposed having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
- If you intend to submit an appeal that you would like examined by inquiry then you must notify the Local Planning Authority and Planning Inspectorate (inquiryappeals@planninginspectorate.gov.uk) at least 10 days before submitting the appeal. [Further details are on GOV.UK.](#)

ENFORCEMENT

- If this is a decision on a planning application relating to the same or substantially the same land and development as is already the subject of an enforcement notice, if you want to appeal against your local planning authority's decision on your application, then you must do so within 28 days of the date of this notice.

- If an enforcement notice is served relating to the same or substantially the same land and development as in your application and if you want to appeal against your local planning authority's decision on your application, then you must do so within 28 days of the date of service of the enforcement notice, or within 6 months (12 weeks in the case of a householder or minor commercial appeal) of the date of this notice, whichever period expires earlier.
