

Dear mr Dawson ,

Following my phone call today I wish to inform you that there appears to be a dead or dying pine tree in Manor House way , Brightlingsea .

I am not sure exactly but I think it originates from a house in Manor House way .I am concerned that if this very tall tree is dying and was to fall there could be very serious consequences with at least 3 houses / gardens within range.

I would be pleased if you could look into the matter ( as far as I am aware the local pine trees all have preservation orders ) .

Yours sincerely

Graham Parker ( 11 the woodlands , Brightlingsea )
