TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO: 24/00776/FUL

DATE REGISTERED: 23rd May 2024

Proposed Development and Location of the Land:

**Retrospective change of use of agricultural land to B8 commercial outside storage (including logistic vehicles and trailers), including installation of hardstanding.
Poplar Hall Primrose Lane Ramsey Harwich**

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY GRANT PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted, subject to the following conditions;

- 1 **CONDITION:** The development hereby permitted shall be carried out in accordance with the drawings/documents listed below and/or such other drawings/documents as may be approved by the Local Planning Authority in writing pursuant to other conditions of this permission or such drawings/documents as may subsequently be approved in writing by the Local Planning Authority as a non-material amendment following an application in that regard (except for Listed Building Consents). Such development hereby permitted shall be carried out in accordance with any Phasing Plan approved, or as necessary in accordance with any successive Phasing Plan as may subsequently be approved in writing by the Local Planning Authority prior to the commencement of development pursuant to this condition.

Drawing Numbers 334 - Location Plan, S01, BP01, PCD621/001, PCD621/TR01 (1), PCD621/TR01 (2), PCD621/TR01 (3), and the documents titled 'Planning Statement', 'Transport Statement', and 'Technical Note'.

REASON: For the avoidance of doubt and in the interests of proper phased planning of the development.

NOTE/S FOR CONDITION:

The primary role of this condition is to confirm the approved plans and documents that form the planning decision. Any document or plan not listed in this condition is not approved, unless otherwise separately referenced in other conditions that also form this decision. The second role of this condition is to allow the potential process of Non Material Amendment if found necessary and such future applications shall be considered

on their merits. Lastly, this condition also allows for a phasing plan to be submitted for consideration as a discharge of condition application should phasing be needed by the developer/s if not otherwise already approved as part of this permission. A phasing plan submission via this condition is optional and not a requirement.

Please note in the latest revision of the National Planning Policy Framework (NPPF) it provides that Local Planning Authorities should seek to ensure that the quality of approved development is not materially diminished between permission and completion, as a result of changes being made to the permitted scheme (for example through changes to approved details such as the materials used). Accordingly, any future amendment of any kind will be considered in line with this paragraph, alongside the Development Plan and all other material considerations.

Any indication found on the approved plans and documents to describe the plans as approximate and/or not to be scaled and/or measurements to be checked on site or similar, will not be considered applicable and the scale and measurements shown shall be the approved details and used as necessary for compliance purposes and/or enforcement action.

- 2 **CONDITION:** Goods, products, raw materials, scrap material or other materials of any other sort shall not be deposited, stacked or stored on site (defined by the red line plan of this permission) to a height exceeding five metres outside the confines of any building, except for agricultural crops.

REASON: The external storage of these items over the stated height would be harmful to the local amenity, character and appearance of the area.

NOTE/S FOR CONDITION:

1) This condition shall engage and restricts the operation of the development from the first commencement of the use and/or operation hereby approved. This condition is imposed to ensure the development avoid unreasonable impact on the residential amenity of neighbouring dwellings, especially given the location of the development with considerations to the prevailing character and amenity currently enjoyed in this location. Without the imposing of this condition, the development would be refused due to the risk of harm and this condition is considered necessary, enforceable and reasonable in all other respects.

2) Buildings do not include any temporary and/or movable structure/building. Storage inside buildings is unaffected by this condition.

- 3 **CONDITION:** Within 3 months a Biodiversity Enhancement Strategy for protected and Priority species shall be submitted to and approved in writing by the local planning authority. The content of the Biodiversity Enhancement Strategy shall include the following:

- a) Purpose and conservation objectives for the proposed enhancement measures;
- b) detailed designs or product descriptions to achieve stated objectives;
- c) locations, orientations, and heights of proposed enhancement measures by appropriate maps and plans;
- d) timetable for implementation demonstrating that works are aligned with the proposed phasing of development;
- e) persons responsible for implementing the enhancement measures;
- f) details of initial aftercare and long-term maintenance (where relevant).

The works shall then be implemented in accordance with the approved details within 2

months of written approval and shall be retained in that manner thereafter.

Reason: To enhance protected and Priority species and habitats.

- 4 CONDITION: Prior to the erection/installation of any floodlighting or other means of external lighting at the site, details to include position, height, aiming points, lighting levels and a polar luminance diagram shall be submitted to and approved, in writing, by the Local Planning Authority. The lighting shall be carried out and retained as may be approved. There shall be no other means of external lighting installed and/or operated on/at the site except that approved.

REASON: In the interests of amenity to reduce the impact of night time illumination on the character of the area and in the interests of highway safety.

Positive and Proactive Statement

The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

Standard Informative 1: The Provisions of the Essex Act 1987, Section 13 (Access for the Fire Brigade) may apply to this Development and will be determined at Building Regulation Stage.

Standard Informative 2: You are reminded that the carrying out of building works requires approval under the Building Regulations in many cases as well as a grant of planning permission. If you are in doubt as to whether or not the work, the subject of this planning permission, requires such approval, then you are invited to contact the Building Control section at Tendring District Council.

Standard Informative 3: If the development includes the construction of a new building on or at the boundary of 2 properties, work to an existing party wall or party structure or involve excavation near to and below the foundation level of neighbouring buildings, you are advised that the provisions of the Party Wall Act 1996 may apply to this development. An explanatory booklet concerning the implications of this Act is available online or from the District Council.

The attached notes explain the rights of appeal.
