TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO: 24/00975/FUL

DATE REGISTERED: 28th June 2024

Proposed Development and Location of the Land:

**Planning Application - Change of use of workshop and adjacent annex to single storey one bedroom house, including alterations and first floor extension.
7 Ladysmith Avenue Brightlingsea Colchester Essex**

THE TENDRING DISTRICT COUNCIL AS LOCAL PLANNING AUTHORITY **HEREBY GRANT PLANNING PERMISSION** in accordance with the application form, supporting documents and plans submitted, subject to the following conditions;

1 COMPLIANCE REQUIRED: COMMENCEMENT TIME LIMIT

CONDITION: The development hereby permitted shall be begun not later the expiration of three years from the date of this permission.

REASON: To comply with the requirements of Section 91 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

NOTE/S FOR CONDITION:

The development needs to commence within the timeframe provided. Failure to comply with this condition will result in the permission becoming lapsed and unable to be carried out. If commencement takes place after the time lapses this may result in unlawful works at risk Enforcement Action proceedings. You should only commence works when all other conditions requiring agreement prior to commencement have been complied with.

2 APPROVED PLANS & DOCUMENTS

CONDITION: The development hereby permitted shall be carried out in accordance with the drawings/documents listed below and/or such other drawings/documents as may be approved by the Local Planning Authority in writing pursuant to other conditions of this permission or such drawings/documents as may subsequently be approved in writing by the Local Planning Authority as a non-material amendment following an application in

that regard (except for Listed Building Consents). Such development hereby permitted shall be carried out in accordance with any Phasing Plan approved, or as necessary in accordance with any successive Phasing Plan as may subsequently be approved in writing by the Local Planning Authority prior to the commencement of development pursuant to this condition.

- 744-05B - Site and Block Plan - Received 28.06.24
- 744-04C - Proposed Elevations - Received 28.06.24
- 744-03C - Proposed Floor Plans - Received 28.06.24
- Planning Statement - Received 28.06.24

REASON: For the avoidance of doubt and in the interests of proper phased planning of the development.

NOTE/S FOR CONDITION:

The primary role of this condition is to confirm the approved plans and documents that form the planning decision. Any document or plan not listed in this condition is not approved, unless otherwise separately referenced in other conditions that also form this decision. The second role of this condition is to allow the potential process of Non Material Amendment if found necessary and such future applications shall be considered on their merits. Lastly, this condition also allows for a phasing plan to be submitted for consideration as a discharge of condition application should phasing be needed by the developer/s if not otherwise already approved as part of this permission. A phasing plan submission via this condition is optional and not a requirement.

Please note in the latest revision of the National Planning Policy Framework (NPPF) it provides that Local Planning Authorities should seek to ensure that the quality of approved development is not materially diminished between permission and completion, as a result of changes being made to the permitted scheme (for example through changes to approved details such as the materials used). Accordingly, any future amendment of any kind will be considered in line with this paragraph, alongside the Development Plan and all other material considerations.

Any indication found on the approved plans and documents to describe the plans as approximate and/or not to be scaled and/or measurements to be checked on site or similar, will not be considered applicable and the scale and measurements shown shall be the approved details and used as necessary for compliance purposes and/or enforcement action.

3 ACTION REQUIRED: MITIGATION TO BE AGREED, RAMS

CONDITION: No internal conversion or fit out work shall commence until detailed proposals addressing the mitigation of the development's impact on protected Essex Habitats Sites have been submitted to and received written approval from the Local Planning Authority. Such proposals must provide for mitigation in accordance with the joint Habitats Regulations Assessment Essex Coast Recreational Disturbance Avoidance and Mitigation Strategy (RAMS) or demonstrate mitigation measures of an equivalent effectiveness.

These proposals may require on site or off site mitigation, but in either case must include evidence of the completion of a necessary legal agreement to secure the proposed mitigation and/or contribution towards mitigation. Please note a legal agreement will include legal fees and may require obligations to secure monitoring and associated fees. For any on site mitigation proposals approved, it shall be carried out in full and thereafter

shall be maintained as approved.

REASON: In order to safeguard protected wildlife species and their habitats in accordance with the NPPF and Habitats Regulations. Failure to achieve satisfactory mitigation would result in harm by new residents due to the development's impact on protected sites.

NOTE/S FOR CONDITION:

The above mitigation is relevant to the net uplift in dwellings on site only (i.e. one additional dwelling). This condition establishes the necessity to ensure the implementation of appropriate mitigation measures due to the impact of the approved development. Such mitigation may be required on-site, off-site, or a combination of both.

Typically, a contribution towards visitor management measures at the protected Habitats Site(s) is the preferred and simplest approach to fulfil the requirements of this condition. To fulfil this requirement, you can contribute funds towards a range of mitigation projects in the protected areas. It is essential to secure this provision through a legal agreement between the Council, Developer/Applicant, and site owners before occupation. If this is the approach to fulfilling this condition you wish to take, you are strongly advised to finalise the legal agreement with the Council before submitting any request to discharge this condition. Failure to conclude the agreement within the discharge of condition application timeframe may lead to the refusal to discharge the condition.

Please note if there are other obligations needed for this development, for example to secure monitoring and maintenance of a Biodiversity Net Gain Plan you may wish to combine these together as one agreement.

4 FURTHER APPROVAL: CONSTRUCTION METHODOLOGY

CONDITION: Prior to the commencement of development details of the demolition and construction methodology, including a timetable, shall be submitted to and approved, in writing, by the Local Planning Authority. This shall incorporate the following information:-

- a. Details of the hours of work/construction of the development within which such operations shall take place and the hours within which delivery/collection of materials for the said construction shall take place at the site.
- b. Details of the loading/unloading/storage of construction materials on site, including details of their siting and maximum storage height.
- c. Details of how construction and worker traffic and parking shall be managed. This shall include routing of all traffic and any directional signs to be installed and where.
- d. Details of any protection measures for footpaths and trees surrounding the site.
- e. Details of any means of access to the site during construction.
- f. Details of the scheduled timing/phasing of development for the overall construction period.
- g. Details of measures to control the emission of dust and dirt during construction and including details of any wheel washing to be undertaken, management and location it is intended to take place.
- h. Details of the siting of any on site compounds and portaloo's.
- i. Details of the method of any demolition to take place, including the recycling and disposal of said materials resulting from demolition.
- j. Site waste management plan (that shall include reuse and recycling of materials)
- k. Scheme for sustainable construction management to ensure effective water and energy use.
- l. Scheme of review of complaints from neighbours.

m. Registration and details of a Considerate Constructors Scheme

The said methodology as may be approved shall be implemented in its entirety and shall operate as may be approved at all times during construction.

REASON: To minimise detriment to highway safety, nearby residential amenities and general amenity by controlling the construction process to achieve the approved development. This condition is required to be agreed prior to the commencement of any development as any construction process, including site preparation, by reason of the location directly adjacent to existing residential dwellings and near the school entrance, may result adverse harm on amenity.

5 ACTION REQUIRED: PROVISION OF CYCLE PARKING

CONDITION: Prior to first occupation of each dwelling, details of cycle parking facilities, including where relevant details and materials of any means of enclosure of bicycle shed(s) shall be submitted to and approved in writing by the Local Planning Authority. The cycle parking facility shall thereafter be implemented in accordance with the approved details and retained at all times.

REASON: To ensure appropriate powered two-wheeler and bicycle parking is provided.

6 ACTION REQUIRED: REFUSE BINS AND COLLECTION AREAS

CONDITION: Prior to occupation of each dwelling hereby approved details of secure refuse/recycling bins, including where relevant, the means of enclosure (of any refuse storage areas) shall be submitted to and approved in writing by the Local Planning Authority. The refuse storage facilities shall thereafter be implemented in accordance with the approved details and retained in perpetuity thereafter.

REASON: In the interest of highway safety to ensure that refuse recycling bin enclosures are appropriately designed and do not cause any obstruction or danger on the highway.

NOTE/S FOR CONDITION:

It is an OFFENCE to carry out works within the public highway, which includes a Public Right of Way, without the permission of the ECC Highway Authority. Any conditions which involve work within the limits of the public highway do not give the applicant permission to carry them out. Unless otherwise agreed in writing all works within the public highway shall be carried out by Essex County Council or its agents at the applicant's expense.

7 ACTION REQUIRED: RESIDENTIAL TRAVEL PACK PRIOR TO OCCUPATION

CONDITION: Prior to first occupation of each dwelling, a Residential Travel Information Pack (travel pack) shall be provided to each dwelling for use of its first occupiers. The travel pack shall be agreed, in writing, by the local planning authority prior to provision and shall include a minimum of six one day travel vouchers for use with a local transport operator.

REASON: In the interests of reducing the need to travel by car and promoting Sustainable development and transport.

Note: Please contact the Travel Plan Team at ECC Highways via email to Travel.PlanTeam@essex.gov.uk to obtain a Residential Travel Information Pack Template and the associated day travel vouchers required.

8 SUSTAINABLE EFFICIENCY MEASURES

CONDITION: No internal conversion works shall commence until a scheme for the provision and implementation of water, energy and resource efficiency measures for the lifetime of the development shall be submitted to and approved, in writing, by the Local Planning Authority. The scheme shall include:-

- Agreement of a scheme for water conservation including greywater recycling and rainwater capture/re-use
- Agreement of a scheme to achieve as far as possible a water consumption rate of not more than 110 litres, per person, per day for the new dwelling
- Agreement of heating of each dwelling/building
- An electric car charging point scheme
- Agreement of scheme for waste reduction
- Provision of a fibre optic broadband connection to the best possible speed installed on an open access basis and directly accessed from the nearest exchange, incorporating the use of resistant tubing. (If the applicant is unable to achieve this standard of connection and can evidence through consultation that this would not be possible, practical or economically viable an alternative superfast (i.e. will provide speeds greater than 30mbps) wireless service will be considered.)

The scheme shall be fully implemented prior to the first occupancy of the development unless otherwise agreed in writing by the Local Planning Authority. The scheme shall be constructed and the measures provided and made available for use as may be agreed and thereafter shall be maintained.

REASON: To enhance the sustainability of the development through reduced need, better use or savings in the use of water, energy and resources; reduced harm to the environment; and result in wider public benefit in accordance with the NPPF.

NOTES FOR CONDITION:

Slab level normally refers to the concrete slab supported on foundations or directly on the subsoil and is used to construct the ground floor of the development. In any other case, please assume slab level to be the point before any walls and/or development can be visualised above ground level or seek confirmation from the Local Planning Authority for your development.

Broadband provision is included to ensure the development is able to be equipped with high speed broadband to enable opportunities for web-based communication and homeworking reducing the need for unsustainable travel.

A water consumption rate of not more than 110 litres, per person, per day adopted as Planning Policy and as imposed by this condition will directly change the building regulations water consumption rate to match as a result of this policy. The introduction of effective utilities, rainwater capture for watering plants, aerators to taps and other water saving options can be considered.

9 FURTHER APPROVAL: MATERIALS DETAILS

CONDITION: No development/works shall be commenced above slab level until precise details of the manufacturer and types and colours of the external facing and roofing

materials to be used in construction have been submitted to and approved, in writing, by the Local Planning Authority. Such materials as may be agreed shall be those used in the development and fully applied prior to the first use/occupation.

REASON: To secure an orderly and well-designed finish sympathetic to the character of the area and in the interests of visual amenity and the quality of the development as insufficient information has been provided with the application.

DATED: 20th August 2024

SIGNED:

John Pateman-Gee
Head of Planning and Building Control

NATIONAL & LOCAL PLAN POLICIES AND GUIDANCE RELEVANT TO THIS DECISION:

National:

Local Planning Guidance

Essex County Council Car Parking Standards - Design and Good Practice

INFORMATIVES:

Positive and Proactive Statement

The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

Highways Informatives

i) All work within or affecting the highway is to be laid out and constructed by prior arrangement with and to the requirements and specifications of the Highway Authority; all details shall be agreed before the commencement of works.

The applicants should be advised to contact the Development Management Team by email at development.management@essexhighways.org

ii) In main urban areas with frequent and extensive public transport, cycling and walking links, the EPOA Parking Standards recommend that a reduced parking standard provision may be applied to residential developments. A reduced parking standard provision level can be applied to this proposal as it is located very close to regular public transport services and public car parking facilities.

iii) The Highway Authority cannot accept any liability for costs associated with a developer's improvement. This includes design check safety audits, site supervision, commuted sums for maintenance and any potential claims under Part 1 and Part 2 of the Land Compensation Act 1973. To protect the Highway Authority against such compensation claims a cash deposit or bond may be required

Biodiversity

In accordance with the Council's general duty to conserve and enhance biodiversity, you are strongly encouraged to improve the biodiversity of the application site through appropriate additional planting and wildlife friendly features. Suggested enhancements could include: <https://www.rhs.org.uk/wildlife/in-the-garden/encourage-wildlife-to-your-garden>

Standard Informative 1: The Provisions of the Essex Act 1987, Section 13 (Access for the Fire Brigade) may apply to this Development and will be determined at Building Regulation Stage.

Standard Informative 2: You are reminded that the carrying out of building works requires approval under the Building Regulations in many cases as well as a grant of planning permission. If you are in doubt as to whether or not the work, the subject of this planning permission, requires such approval, then you are invited to contact the Building Control section at Tendring District Council.

Standard Informative 3: If the development includes the construction of a new building on or at the boundary of 2 properties, work to an existing party wall or party structure or involve excavation near to and below the foundation level of neighbouring buildings, you are advised that the provisions of the Party Wall Act 1996 may apply to this development. An explanatory booklet concerning the implications of this Act is available online or from the District Council.

The attached notes explain the rights of appeal.

NOTES FOR GUIDANCE

WHEN PLANNING PERMISSION IS REFUSED OR GRANTED SUBJECT TO CONDITIONS

APPEALS TO THE SECRETARY OF STATE

- If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under Section 78 of the Town and Country Planning Act 1990.
- If you want to appeal, then you must do so within the set time frame as outlined below:
 - a. If this is a decision to refuse planning permission for a householder application, if you want to appeal against your local planning authority's decision then you must do so within **12 weeks** of the date of this notice. A **Householder Appeal Form** is required, available online at <https://www.gov.uk/planning-inspectorate>
 - b. If this is a decision to refuse planning permission for a minor commercial application, if you want to appeal against your local planning authority's decision then you must do so within **12 weeks** of the date of this notice. A **Planning Appeal Form** is required, available online at <https://www.gov.uk/planning-inspectorate>
 - c. If you want to appeal against your local planning authority's decision on a development which is not caught by a. and b. above then you must do so within **6 months** of the date of this notice. A **Planning Appeal Form** is required, available online <https://www.gov.uk/planning-inspectorate>
- Appeals must be made using the relevant form (as detailed above) which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN (Tel: 0303 444 5000) or online at <https://www.gov.uk/planning-inspectorate>. **Please note, only the applicant possesses the right of appeal.**
- Please ensure that you have read the latest procedural guidance for appeals prior to submitting an appeal. The latest guidance can be found at [Procedural Guide: Planning appeals – England - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/publications/procedural-guide-planning-appeals)
- The Secretary of State can allow a longer period for giving notice of an appeal, but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted permission for the proposed development or could not have granted it without the conditions imposed having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
- If you intend to submit an appeal that you would like examined by inquiry then you must notify the Local Planning Authority and Planning Inspectorate (inquiryappeals@planninginspectorate.gov.uk) at least 10 days before submitting the appeal. [Further details are on GOV.UK.](https://www.gov.uk/government/publications/planning-appeals)

ENFORCEMENT

- If this is a decision on a planning application relating to the same or substantially the same land and development as is already the subject of an enforcement notice, if you want to appeal against your local planning authority's decision on your application, then you must do so within 28 days of the date of this notice.

- If an enforcement notice is served relating to the same or substantially the same land and development as in your application and if you want to appeal against your local planning authority's decision on your application, then you must do so within 28 days of the date of service of the enforcement notice, or within 6 months (12 weeks in the case of a householder or minor commercial appeal) of the date of this notice, whichever period expires earlier.
